RE: PSC Case No 2011-00280

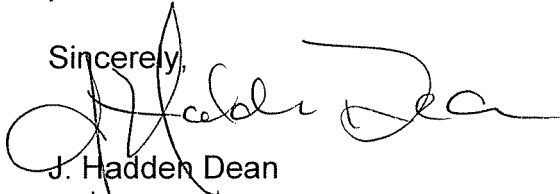

Dear Mr. Derouen

Find enclosed the original of the two (2) year system wide inspection for Inter-County Energy. I understand Mr. Steven Kingsolver and possibly other representatives from the Public Service Commission are scheduled to meet with the staff and executives from Inter-County Energy sometime this month.

During the system wide review and since the time of the issue in this case Inter-County has been vigilant in checking for clearance issues. The staff at Inter-County prepared detailed work orders relating to any clearance issues found during the review. Those work orders are available at the cooperative offices in Danville. The report delivered to you will identify what was required in the Order in paragraph 7. The 'specific information' referenced in that same paragraph is contained in the detailed work orders at the cooperative.

If anything in addition to the information contained in the attached document is needed please advise and I will make sure that information is furnished to you.

Sincerely,

J. Hadden Dean
enclosures

EXHIBIT 3

Inter-County Energy Cooperative Two-Year System Grid Inspections By Service Territory

Note: Based on the two-year system inspection, detailed information on the types of violations found, the manner in which they were corrected, and the timeframe within which they were corrected shall be made available to Mr. Steve Kingsolver during his visit to Inter-County Energy Cooperative April 24-27, 2012.

EXHIBIT 1

The image displays a large, complex grid of numerical data, likely a schedule or a data table. The grid is composed of numerous small rectangular cells, each containing a number. The numbers are arranged in a regular pattern, with some cells containing multiple numbers stacked vertically. The grid is intersected by several vertical and horizontal lines, creating a series of columns and rows. The overall appearance is that of a highly detailed and organized data set.
