**Meade County Rural Electric Cooperative Corporation
Response to Commission request for additional information
Dated January 29 , 2014 In Case No. 2013-00033**

Item 1. Refer to Exhibit 2 of the Refund Report, page 1 of 1, the first four rows of numbers. Explain why a sales tax credit would appear on residential customer bills.

Response: We have 73 accounts classified as a church or fire department per our Residential tariff (Schedule 1). We do not have tax exemption certificates for the organizations therefore the accounts are charged tax.

Item 2. Refer to Exhibit 2 of the Refund Report, page 1 of 1. The interest refund total is shown as \$3.06. Explain why rows in these column show no interest refunded.

Response: Refer to response to Item 3.

The lines without interest refunds are residential accounts which did not receive refunds large enough to incur an interest refund.
