RE: Notice Pursuant to Certificate of Public Convenience and Necessity
Site Name: Nortonville
Case Number: 2013-00389

Dear Director Derouen:

The wireless communications facility referenced above has been constructed according to the application that was submitted by co-Applicants New Cingular Wireless PCS, LLC d/b/a AT&T Mobility and American Towers LLC and approved by Order of the Public Service Commission on 12/18/2013. However, the planned deployment of antennas and commencement of service contemplated by AT&T has been delayed. In compliance with the Order granting the Certificate of Public Convenience and Necessity, American Towers LLC hereby notifies the PSC that the completed tower has not been used to provide wireless communications services for a period of three months. The tower continues to be maintained by American Towers LLC in compliance with all applicable regulations and oversight by government agencies. American Towers LLC is

also actively marketing this wireless communications facility to other wireless carriers and will continue to do so.

Respectfully submitted,

David A. Pike
