Frankfort, KY 40602

VIA ELECTRONIC DELIVERY

RE: In the Matter of the Application of East Kentucky Power Cooperative, Inc. For Issuance of a Certificate of Public Convenience and Necessity, Approval of Certain Assumption of Evidences of Indebtedness and Establishment of a Community Solar Tariff, Case No. 2016-00269 - Annual Report of East Kentucky Power Cooperative, Inc.

Dear Mr. Chandler,

In accordance with the November 22, 2016 Order of the Kentucky Public Service Commission ("Commission") in the above-styled case, please accept this as the annual report of East Kentucky Power Cooperative, Inc. ("EKPC") regarding the progress of EKPC's Community Solar Facility. With regard to the Commission's request for information on the total number of participating retail customers and the number of participating retail members identified by owner-member, the following table details this information as of November 19, 2020:

Table with 3 columns: Co-op, Meters, # Licenses. Rows include Blue Grass Energy, Clark Energy, Cumberland Valley Electric, Farmers RECC, Fleming-Mason Energy, Grayson RECC, Inter-County Energy, Jackson Energy, Licking Valley RECC, Nolin RECC, Owen Electric, Salt River Electric, Shelby Energy, South Kentucky RECC, and a Total row.

Also, EKPC is providing copies of the marketing materials used to promote participation in the Community Solar Facility.

EKPC continues to believe that the Community Solar Facility furthers EKPC's efforts to fulfill its strategic objectives and offers our owner-members' retail customers the ability to voluntarily participate in a facilities-based renewable energy program at the least possible cost.

Should you have any questions or require any further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Woods".

A Touchstone Energy® Cooperative 

Every day, more people expect companies to demonstrate their commitment to the environment and sustainability.

When it comes to your energy supply, your local electric cooperative has options to meet your needs. We have partnered with other co-ops to develop a 60-acre solar farm with more than 32,000 solar panels, achieving economies of scale not possible on a rooftop.

For a one-time payment of \$460, you can license a solar panel and get credit on your monthly power bill for the next 25 years.

We own and maintain the solar panels. You get the credit. And, you can choose to either retire or sell the renewable energy credits.

The best part? It's all managed by the people you know and trust—your local electric cooperative.

By working together, we can all spread the sunshine.

Learn more at www.cooperativesolar.com or contact us at 1-888-266-7322 or 1-859-936-7820.
