RE: PSC Case #2019-00275  
Big Sandy Water District CPCN

Dear Ms. Frederick,

Please reference your email to Bond Counsel, Mr. Randy Jones of Rubin & Hays dated January 8, 2021. We are the consulting engineers for the subject case/project. We have been asked/directed by the Big Sandy Water District (BSWD) to respond to your request.

Subject PSC Order questions as follows:

#8 – This project has four (4) contracts:

Contract F – Water Tank Painting & Repairs	100% Complete
Contract G – Water Booster Pump Station Upgrade	100% Complete
Contract H – Water Service Replacement (Stream Crossing, Service Line Replacements)	98% Complete
Contract I – Office Building	100% Complete

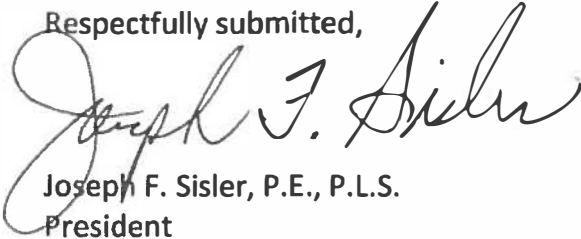

We anticipate that Contract H - Water Service Replacement (Stream Crossing, Service Line Replacements) will be complete within 30 days. We will furnish all

necessary documentation of FINAL costs to the BSWD as requested, within 60 days of total Substantial Completion for "their" submittal to PSC.

#9 – Reference Item #8 – The "as-built record drawings", and certified statement from the engineer will be furnished to District within the 60 days as set out in the Order for their submittal.

#11 – As stated in Ms. Frederick's notice, the District did furnish "notice of start of construction." However, the District and/or we did not give notice of 50% completion, which now becomes moot. The project is 98-99% complete at this time.

Respectfully submitted,

Joseph F. Sisler, P.E., P.L.S.  
President
