PUBLIC SERVICE
COMMISSION

It has been brought to our attention that Vertical Bridge Development, LLC and Powertel/Memphis, Inc. is applying for a Certificate of Public Convenience and Necessity to construct and operate a new wireless communications facility on the border of our property. It is imperative that we are given specifics including:

- the approval process and schedule
- the size of the structure
- the environmental impacts (radiation, noise, signal interference, etc.)

The communication we received from Briggs Law Office is lacking detailed information regarding this proposal.

Sincerely,

Mary Frances Clark, Landowner
