Demand Charge

The demand charge in this Standard Rate Schedule RDS shall apply to each rural delivery point's thirty-minute clock-hour demand measured at the time of Big Rivers' Maximum Adjusted Net Local Load, as defined in this paragraph, determined on a thirty-minute clock-hour basis, during the month. Big Rivers' Maximum Adjusted Net Local Load during the month shall be calculated in the following manner:

(i) Big Rivers shall determine the maximum local load of its Members for each thirty-minute clock-hour interval in the month;

(ii) the actual demand during each thirty-minute interval for the Smelters and Domtar Paper Company, LLC ("Domtar," for so long as it operates its qualifying facility) will be subtracted from the net local load;

(iii) the sum of the lesser of the actual demand and Firm Power Billing Demand of Domtar (as defined in its retail service agreement), and the Smelters' Base Demand (as defined in the Smelter Agreements) will then be added back to the net local load calculation to create the adjusted net local load; and

(iv) the thirty-minute interval of highest adjusted net local load in the month shall determine the Maximum Adjusted Net Local Load. The kW demand for a thirty-minute interval shall be determined by multiplying the kWh measured at a rural delivery point during the interval by 2.
