

SUPPLEMENT TO CONTRACT BETWEEN
BIG SANDY RURAL ELECTRIC COOPERATIVE, INCORPORATED
AND
ASHLAND OIL AND REFINING COMPANY
FOR OIL PRODUCTION LEASES IN JOHNSON COUNTRY, KENTUCKY

This supplement will be attached to and become an integral part of said Power Contract.

1. This power contract provides for electric capacity of 1500 kva to delivered at 13.2 kv, 4 wire three phase, 60 cycle, A. C.
2. The contract capacity as provided for by this contract shall be subject to adjustment for each successive six month period following date service is made available to Ashland Oil and Refining Company.
3. The initial contract capacity for the first six month period following date service is made available shall be 50 kva, Tariff LCP.
4. Adjusted contract capacity for each succeeding six month period shall be equal to the maximum kva demand established in the six month period immediately prior or to the contract capacity effective for the six months immediately prior whichever shall be the greater and the billing shall be based on Tariff LCP throughout the entire period of the contract.
5. The terms of this contract and supplement are only offered to the customer because of prior contractual obligation of Kentucky Power Co. to the customer and subsequent contractual relations of Big Sandy R.E. C. C. and Kentucky Power Co. obligating Big Sandy R.E. C.C. to fulfill Kentucky Power Company's obligations to customer.

The terms of this supplement to the power contract are hereby accepted.
