

BLUE GRASS ENERGY COOPERATIVE CORPORATION

Section DSM –

Button-Up Weatherization Program

Purpose

The Button-Up Weatherization Program offers an incentive for reducing the heat loss of a home. The retail member may qualify for this incentive by improving attic insulation and reducing the air leakage of their home. (T)(N)

Availability

This program is available to home owners served by Blue Grass Energy.

Eligibility

This program is targeted at older single-family, multi-family or manufactured dwellings. Eligibility requirements are:

- Home must be 2 years old or older to qualify for the incentive.
- Primary source of heat must be electricity.

The Button Up incentive will promote the reduction of energy usage through air sealing on the part of the retail member. Typical air sealing could include caulking, improved weather stripping, sealing attic accesses, etc. To receive this incentive either an EKPC approved contractor or Blue Grass Energy representative must perform a “pre” and “post” blower door test to measure actual Btuh reduced. (T)(N)

The attic insulation portion of the Button Up incentive will promote the reduction of energy usage on the part of the retail member. Heat loss calculation of Btuh reduced will be made by Blue Grass Energy using either the Manual J 8th Edition or through other methods approved by East Kentucky Power Cooperative (EKPC). Heat loss calculations in Btuh are based on the winter design temperature. In order to receive an incentive for attic insulation, an air seal must be completed.

Incentives

Blue Grass Energy will provide an incentive to home owners of \$40 per one thousand Btuh reduced, up to \$ 750. (T)(N)

Term

The program is an ongoing program.
