ENERGY STAR® Manufactured Home Program

Purpose

EKPC ENERGY STAR® Manufactured Home Program ("ESMH") is designed to ensure that retail members of EKPC's owner-members purchase an energy efficient manufactured home. EKPC will accomplish this by providing manufactured home producers with an incentive to manufacture and install new ENERGY STAR® certified manufactured homes.

T
T

Availability

This program is available to all EKPC's owner-members on whose system an ENERGY STAR® certified manufactured home is installed.

Eligibility

To be eligible for this ESMH incentive, new manufactured homes must meet the following criteria:

- United States Environmental Protection Agency ("EPA") and Systems Building Research Alliance ("SBRA") guidelines as an ENERGY STAR® Manufactured Home.
- Primary source of heat must be a heat pump 13 SEER & 7.5 HSPF or higher as required by SBRA.
- Home must be all-electric.
- Home must be installed by the manufacturer on lines served by one of EKPC's 16 owner-members.

Payments

After new home installation and after SBRA certifies the new home as an ENERGY STAR® manufactured home, EKPC will tender a \$1,750 incentive payment to the manufactured home producer. The incentive covers the cost of upgrading the home from the standard United States Department of Housing and Urban Development (HUD) construction requirements to the SBRA and EPA ENERGY STAR® manufactured home construction requirements. EKPC will also pay SBRA an administrative fee. EKPC will pay \$2,400 to the owner-member on whose system the manufactured home is located to cover administrative costs and lost revenue.

Term

This program is an ongoing program.
