

DSM
Button-Up Weatherization Program

T

Purpose

The Button-Up Weatherization Program offers an incentive for reducing the heat loss of a home. The retail member may qualify for this incentive by improving attic insulation and by reducing the air leakage of their home.

T

Availability

This program is available in all service territories served by EKPC.

Eligibility

This program is targeted at older single-family, multi-family or manufactured dwellings. Eligibility requirements are:

- Home must be 2-years old or older to qualify for the incentive.
- Primary source of heat must be electricity.

T

The Button Up incentive will promote the reduction of energy usage through air sealing on the part of retail members. Typical air sealing could include caulking, improved weather stripping, sealing attic accesses, etc. To receive this incentive either an EKPC approved contractor or owner-member representative must perform a "pre" and "post" blower door test to measure actual Btuh reduced.

T

The attic insulation portion of the Button Up incentive will promote the reduction of energy usage on the part of the retail member. Heat loss calculation of Btuh reduced will be made by using either the Manual J 8th Edition or through other methods approved by EKPC. Heat loss calculations in Btuh are based on the winter design temperature. In order to receive an incentive for attic insulation, an air seal must be completed.

T

Payments

The Button Up incentive will pay a total payment of \$70 per thousand Btuh reduced and the maximum rebate incentive up to \$750 (\$40 per thousand Btuh to the retail member and \$30 per thousand Btuh to the owner-member). EKPC will also pay the owner-member an administrative fee of \$230 and up to \$565 for lost margins. EKPC will pay up to a total transfer payment of \$1,545.

T

Term

The program is an ongoing program.
