

Jackson Energy Cooperative Corporation
McKee, Kentucky 40447

P.S.C. No. 5
Original Sheet No. 112
Canceling P.S.C. No. 4

RULES AND REGULATIONS

33. OVERHEAD EXTENSIONS:

A. SINGLE PHASE LOADS:

The cooperative will furnish, at no expense to the consumer, an initial service drop from an existing pole to the consumer's structure providing the customer's meter base is accessible.

All facilities installed by the cooperative shall remain cooperative property and may be removed at any reasonable time after service is disconnected.

A distribution line extension of 1,000 feet or less of single-phase primary will be installed for a permanent dwelling or single-phase commercial service without charge to the consumer with an application for membership. The service drop will not be included in the above measurement. Consumer will pay actual charges for the construction of the distribution line over 1,000 feet. (T)

If the extension exceeds 1,000 feet for a single-phase consumer a construction advance is required. The charge will be based on the additional footage over the 1,000 feet. The construction advance is required prior to construction.

Each consumer who paid the construction advance and receiving service under the above plan will be reimbursed for a ten-year period for each consumer added under the following conditions:

1. 1,000 feet of the original construction advance if a service drop for a new permanent consumer is connected to the extension (not to a lateral from the extension),
2. The difference of 1,000 feet and the length of a primary lateral attached to the extension, for a permanent consumer.
3. The total amount refunded shall not exceed the original construction advance.

Subdivisions will be allowed 1,000 feet extension for each lot developed with roads, iron property pins, and within six (6) inches of final grade. Service will only be extended to active phases of the subdivision. The cooperative reserves the right to charge a construction advance for any service requested without permanent dwellings under construction or for sections that are not being developed at the time of the request.

Service to temporary installations such as tents, carnivals, sales booths, etc. will require a non-refundable contribution of the estimated installed cost plus the cost of removal minus salvage materials. The consumer will be required to install a meter base and apply for membership.
