

**Terms and Conditions  
Line Extension Plan**

**8. UNDERGROUND EXTENSIONS**

**c. Medium Density Subdivisions (continued)**

- ii. Customer shall provide any required trenching and backfilling or at Company's discretion be required to deposit with Company a non-refundable amount determined by a unit charge of \$14.47 per aggregate lot front-foot along all streets contiguous to the lots to be served through an underground extension.
- iii. Customer may be required to advance to Company's full estimated cost of construction of an underground electric distribution extension. Where Customer is required to provide trenching and backfilling, advance will be Company's full estimate cost of construction. Where Customer is required to deposit with Company a non-refundable advance in place of trenching and backfilling, advance will be determined by a unit charge of \$25.99 per aggregate lot front-foot along all streets contiguous to the lots to be served through an underground extension.
- iv. Each year for ten (10) years Company shall refund to Customer an amount determined as follows:
  - (1) Where Customer is required to provide trenching and backfilling, a refund of \$5,000 for each Customer connected during that year.
  - (2) Where Customer is required to provide a non-refundable advance, 500 times the difference in the unit charge advance amount in iii) and the non-refundable unit charge advance in ii) for each Customer connected during that year.
- v. In no case shall the refunds provided for herein exceed the amounts deposited less any non-refundable charges applicable to the project nor shall any refund be made after a ten (10) year refund period ends.

**d. High Density Subdivisions**

- i. A high density residential subdivision is defined as building complexes consisting of two or more buildings each not more than three stories above grade and each designed for five (5) or more family occupancy.
- ii. Customer shall provide any required trenching and backfilling or at Company's discretion be required to deposit with Company a non-refundable amount for the additional cost of the underground extension (including all associated facilities) over the cost of an overhead extension of equivalent capacity.
- iii. Customer may be required to advance to Company's full estimated cost of construction of an underground electric distribution extension.
