SCOPE

This Schedule of Rules and Regulations is a part of all contracts for receiving electric service from the Cooperative and applies to all service received from the Cooperative whether the service is based upon a contract, agreement, signed application, or otherwise. No employee or individual director of the Cooperative is permitted to make an exception to rates or Rules and Regulations. Rates and service information can be obtained from the Cooperative's office or Cooperative personnel. If there is a change in service that would result in another tariff being applicable, it is the consumer's responsibility to notify the Cooperative.

REVISIONS

These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time after approval of Licking Valley RECC's Board of Directors and the Public Service Commission. Such changes, when effective, shall have the same force as the present Rules and Regulations. The Consumers shall be informed of any changes as soon as possible, after adoption by the Board of Directors, through the Cooperative's monthly newsletter, a newspaper of general circulation or direct mailing.

CONSUMER'S RESPONSIBILITY FOR COOPERATIVE'S PROPERTY

All meters, service connections, and other equipment furnished by the Cooperative shall be, and remain the property of the Cooperative. The consumers shall exercise proper care to protect the property of the Cooperative on its premises; and in the event of loss or damage to the Cooperative's property arising from neglect of the consumer to care for same, the cost of necessary repairs or replacement shall be paid by the consumer.

CONTINUITY OF SERVICE

The Cooperative shall use reasonable diligence to provide a constant and uninterrupted supply of electric power and energy, but if such a supply should fail, be interrupted, become defective through an act of God or the public enemy, by accident, strikes, the complete of the elements, by inability to obtain other thermits needed, EFFECTIVE

or for any other cause beyond the reasonable control of the Cooperative, the Cooperative shall not be liable.

SERVICES PERFORMED FOR CONSUMERS

The Cooperative's personnel shall not while on duty make repairs or perform service to the consumer's equipment or property except in cases of emergency or to protect the public or consumer's person or property. When such emergency services are performed, the consumer shall be charged for such service(s) at the rate of time and material(s) used.

RIGHT OF ACCESS

Each consumer shall give and grant right of access during reasonable hours to the Cooperative without paid compensation to his, hers, or its lands and premises for the purpose of placing, installing, locating, building, constructing, meter reading, operating, replacing, rebuilding, relocating, repairing, improving, enlarging, extending, maintaining and removal of its property at the time service is to be terminated on, over, or under such lands and premises, or anchors and other necessary or appurtenant parts. Any employee of the Cooperative whose duties require him/her to enter the customers premises, shall bear identification which will identify him/her as an employee of the Cooperative.

INSPECTION OF PREMISE AND WIRING FOR CONSUMER COMPLIANCE WITH EXISTING ELECTRICAL CODES.

The Cooperative shall have the right, but shall not be obligated to inspect any installation before electricity is introduced, or at any later time, and reserves the right to reject any wiring or appliances not in accordance with the National Electric Code or other governing bodies, but such inspection or failure to inspect or reject shall not render the Cooperative liable or responsible for any loss or damage resulting from defects in the installation, wiring, or appliances, or from violation of the Cooperative's rules, or from accidents which may occur upon consumer's premises. Further, if it is required, it shall be the responsibility of the consumer to present to the Cooperative a certificate of inspection covering all State and Local ordinances in effect at the time, before such connections are processors.

PRE-SERVICE CONDITION INSPECTIO	<u>N</u>								
The Cooperative shall inspect the condition of the meter and service connections before making service connections to a new consumer so that prior or fraudulent use of the facilities will not be attributed to the new consumer. The new consumer shall be afforded the opportunity to be present at such inspections. The Cooperative shall not be required to render service to any consumer until any defects in the consumer-owned portion of the service facilities have been corrected.									
APPLICATION FOR SERVICE									
Each prospective consumer, firm, corporation or body politic desiring electric service will be required to sign the Cooperative's "Application for Membership and for Electric Service", also, sign a contract when applicable, before service is supplied by the Cooperative and provide the Cooperative with necessary easements or right(s)-of-way permits that pertain to their property.									
MEMBERSHIP FEE

DEPOSITS	*								

The Cooperative may require from any consumer or applicant for service a minimum cash deposit or other guaranty to secure payment of bills of an amount not to exceed two-twelfths (2/12) of the estimated annual bill of such consumer or applicant, where bills are rendered monthly. This requirement will not apply to those consumers qualifying for winter hardship reconnection. The Cooperative may require an equal deposit from all applicants for the same class of service. This equal deposit will be recalculated annually after the December bills are run, based on the average bill of consumers in their PRESERVICE COMMISSIONE WILL OF KENTUCKY

RULES AND REGULATIONS

the above provisions, the consumer shall return the original certificate of deposit to the Cooperative in return for a new, accurate certificate.

- 7. The required deposit will earn interest at the rate of six percent (6%) annually, credited to the consumer's account on their December bill. The deposit will be refunded when service is discontinued and all bills are paid in full unless prior to disconnection the consumer qualifies under subsection eight (8). However, if the consumer wishes to transfer the paid deposit to another account, the final bill must be paid in full before reconnection of service to another premise can be executed.
- 8. If a consumer is required to initially pay a deposit, after a twelve (12) month history has been established, the consumer may request that their credit history be reviewed. If it is determined that there have been no more than one (1) late payment in the most previous twelve (12) months, they may sign a request to have their deposit and interest credited to their corresponding energy account during the next regularly scheduled billing cycle as near practicable. In no event shall the deposit be refunded if the credit history reflects more than one (1) late payment, any returned checks or any other derogatory credit problems.
- 9. If any consumer is forced to move, through no fault of their own, (i.e. residence burning, flooding or condemnation proceedings), the consumer 2/12ths deposit and applicable service charge shall be waived for the first (1st) granting of service thereafter.
- 10. If a deposit has been waived as specified in subsection two (2) or returned as specified in subsection eight (8) and the consumer fails to maintain a satisfactory payment record as specified above, the consumer may be required to pay a deposit.
- 11. If substantial change in usage has occurred, the consumer may be required to pay an additional deposit. No additional or subsequent deposit shall be required of residential consumers whose payment record is satisfactory, unless the consumer's classification of service changes, except as provided in subsection three (3) of this section.

12. Deposits as a condition of service. Except in cases where consumers qualify for Winter Hardship Reconnection, customer service may be refused or discontinued pursuant to proper notice as specified under Discontinuance and Refusal of Service by the Cooperative, if payment of requested deposit is not made.

BILLING

Each month a bill, for the previous month's service will be mailed to the consumer showing all charges according to rate schedules approved by the Public Service Commission of Kentucky. All bills are to be mailed to the consumers in time to reach them by the 20th of the On this date, the member shall read his/her meter and place the reading in the space provided on the bill. This part of the bill to be returned to the Cooperative by the ninth (9th) of the following month. A five percent (5%) penalty will be assessed on the current bill if a consumer fails to pay a bill for services by the ninth (9th) of the following month. The penalty may be assessed only once on any bill for rendered services. Any payment received shall first be applied to the bill for service rendered. Additional penalty charges shall not be assessed on unpaid penalty charges. Annually, each consumer will be granted one (1) waiver of penalty per account. The annual basis for waiver will commence with the January bill, which is mailed in February and end with the December bill, which is mailed Failure to pay will result in the issuance of a January. disconnect work order after a proper written notice has been mailed and then ten (10) days has elapsed. When advance termination notice is required, the termination notice shall be mailed or otherwise delivered to the last known address of the consumer. The termination notice shall be in writing, distinguishable and separate from any The termination notice shall plainly state the reason for termination, that the termination date will not be affected by receipt of any subsequent bill, and that the consumer has the right to dispute the reasons for termination. The termination notice shall also comply with the applicable requirements of the Discontinuance and Refusal of Service by the Cooperative section of these rules and regulations.

- Cooperative shall not terminate or refuse service to any consumer for noncompliance with its rules or Commission regulations without first having made a reasonable effort to obtain consumer compliance. After such effort by the Cooperative, service may be terminated or refused only after the consumer has been given at least ten (10) days' written termination notice as specified on the Billing section of these Rules and Regulations.

 2. For dangerous conditions. If a dangerous condition relating to the Cooperative's service which could subject any person to
- the Cooperative's service which could subject any person to imminent harm or result in substantial damage to the property of the Cooperative or others, is found to exist on the consumer's premises, the service shall be refused or terminated without advance notice. The Cooperative shall notify the consumer immediately in writing and, if possible, orally of the reasons for the termination or refusal. Such notice shall be recorded by the Cooperative and shall include the corrective action to be taken by the consumer or Cooperative before service can be restored or provided. However, if the dangerous condition can be effectively isolated or secured from the rest of the system, the Cooperative need discontinue service only to the affected appliance.
- 3. For refusal of access. When a consumer refuses or neglects to provide reasonable access to the premises for installation, operation, meter reading, maintenance or removal of Cooperative property, the Cooperative may terminate or refuse service. Such action shall be taken only when corrective action negotiated between the Cooperative and consumer has failed to resolve the situation and after the consumer has been given at least ten (10) days' written notice of termination pursuant SERVEE COMMISSION ling section of these Rules and Regulations.

funds and other program guidelines. Weatherization services include, but are not limited to, weather-stripping, insulation and caulking.

4. Consumers who are current in their payment plans under subsection one 1 (C) of this section shall not be disconnected.

PROMPT CONNECTION OF SERVICE

Except as provided in the Winter Hardship Reconnection section of these Rules and Regulations, the Cooperative shall reconnect existing service within twenty-four (24) hours, and shall install and connect new service location within seventy-two (72) hours, when the cause for refusal or discontinuance of service has been corrected and the Cooperative's tariffed rules and Commission regulations have been met.

SPECIAL TEMPORARY SERVICE

Facilities that are temporary in nature such as for construction contractors, sawmills, oil wells, carnivals, etc., will be provided to consumers desiring such facilities, provided they pay an advance fee equal to the reasonable cost of providing and removing such facilities with normal charges.

RECONNECTION AND NAME CHANGE CHARGES

The Cooperative will make no service charge for connecting service to the consumer's premises for the initial installation of service. There shall be a fee of eighteen dollars (\$18.00) for each service connection and name change thereafter. If the consumer requests reconnection after regular working hours, the charge will be forty-eight dollars (\$48.00).

RETURNED CHECKS FOR INSUFFICIENT FUNDS

A service charge in the amount of ten dollars (\$10.00) shall be assessed if a check or other monetary instrument is accepted for payment is not honored by the consumer's financial institution.

The Cooperative will not accept checks from consumers when any of the following criteria are met:

2. Three (3) dishonored checks within a twelve (12) month period.

3. Four (4) dishonored checks within a twenty-four (24) month period.

TERMINATION OR FIELD COLLECTION CHARGE

The Cooperative will make special non-recurring charges to recover consumer-specific costs incurred which would otherwise result in monetary loss to the Cooperative or increased rates to other consumers to whom no benefits accrue from the service provided or action taken. If a consumer fails to pay a delinquent bill by the delinquent notice's disconnect date or an agreed date on a signed payment plan, thus causing the Cooperative to make a trip to their premises, an eighteen dollar (\$18.00) charge will be assessed. The charge may be assessed if the Cooperative's representative actually terminates service or if, in the course of the trip, the consumer pays the delinquent bill to avoid termination. The charge may also be made if the Cooperative's representative agrees to delay termination based on the consumer's agreement to pay the delinquent bill by a specific date. The Cooperative may make a field collection charge only once in any billing period. If service is disconnected for non-payment, an additional charge of eighteen dollars (\$18.00) will be made for reconnecting service due and payable at time of such reconnection. If the consumer requests reconnection after regular working hours, the additional charge will be forty-eight dollars (\$48.00). Any consumer qualifying for Winter Hardship Reconnection will be exempt from the reconnect fee.

Cooperative Relations

C

C

C

The Cooperative shall post and maintain regular business hours and provide representatives available to assist its consumers.

- 1. Available telephone numbers. The Cooperative shall maintain a local telephone number and a toll free telephone number, shall publish the telephone number in all service areas, and shall permit all consumers to contact the Cooperative's designated representative without charge.
- 2. Designated representatives. The Cooperative shall designate at least one (1) representative to be available to answer consumer questions, resolve disputes and negotiate partial payment plans

CONSUMER EQUIPMENT

Point of Delivery - The point of delivery is the point as designated by the Cooperative on consumer's premises where current is to be delivered to building or premises; namely the point of attachment shall be the meter. A consumer requesting a delivery point different from the one designated by the Cooperative will be required to pay the additional cost of providing the service at such delivery point. All wiring and equipment beyond this point of delivery shall be supplied and maintained by the consumer.

CONSUMER'S WIRING STANDARDS

All wiring of consumer's building and premises must conform to distributor requirements and accepted modern standards, as exemplified by the requirements of the National Electrical Safety Code and the National Electric Code.

RESALE OF POWER BY CONSUMERS

All purchased electric service used on the premises of the member shall be supplied exclusively by the Cooperative, and the consumer shall not directly or indirectly sell, sublet, or otherwise dispose of the electric service or any part thereof, except by written contract approved by the Board of Directors.

RELOCATION OF LINES

The Cooperative will cooperate with all political subdivisions in the construction, improvement or rehabilitation of public streets and highways. It is expected that these political subdivisions will give reasonable notice to permit the Cooperative to relocate its lines to permit the necessary road construction. If the Cooperative's poles, anchors, and other appurtenances are located within the confines of the public right-of-way, the Cooperative shall make the necessary relocation at its own expense. If the Cooperative's poles, anchors or other facilities are located on private property, the political subdivision then shall agree to reimburse the Cooperative. Upon request by consumer-property owner, where facilities are to be relocated, relocation will be considered, provided adequate right-of-way can be obtained for the relocation requested. The consumer-owner

will be required to pay the cost of materials necessary to make the requested changes unless one or more of the following conditions are met:

- 1. The relocation is made for the convenience of the Cooperative.
- 2. The relocation will result in a substantial improvement in the Cooperative's facilities or their location.
- 3. That the relocation is associated with other regularly scheduled conversion or construction work and can be done at the same time.
- 4. Per consumer-owner request when right-of-way is provided. In such instance consumer-owner will be required to pay for making requested changes.

DISTRIBUTION LINE EXTENSIONS TO MOBILE HOMES

- 1. All extension of up to one hundred fifty (150) feet from the nearest facility shall be made without charge.
- 2. Extensions greater than one hundred fifty (150) feet from the nearest facility and up to three hundred (300) feet shall be made provided the consumer shall pay the Cooperative a consumer advance for construction of fifty dollars (\$50.00) in addition to any other charges required by the Cooperative for all consumers. This advance shall be refunded at the end of one (1) year if the service to the mobile home continues for that length of time.
- 3. For extensions greater than three hundred (300) feet the Cooperative may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond three hundred (300) feet plus fifty dollars (\$50.00).
- 4. This advance shall be refunded to the consumer over a four (4) year period in equal amounts for each year the service is continued.
- or should the mobile home be removed and another not take its place within sixty (60) days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited.

arrangements for the payment of charges have been completed by the Applicant.

- K. The charges specified in these rules are based on the premise that each applicant will cooperate with the Cooperative in an effort to keep the cost of construction and installation of the underground electric distribution system as low as possible and make satisfactory arrangements for the payment of the above charges prior to the installation of the facilities.
- L. All electrical facilities shall be installed and constructed to comply with the rules and regulations of the Kentucky Public Service Commission, National Electric Safety Code, Cooperative Specification, or rules and regulations which may be applicable.
- M. Service pedestals and method of installation shall be approved by the Cooperative prior to installation.
- N. In unusual circumstances, when the application of these rules appears impracticable or unjust to either party, or discriminatory to other consumers, the Cooperative or Applicant shall refer the matter to the Commission for a special ruling or for the approval of special conditions which may be mutually agreed upon, prior to commencing construction.

POLE IDENTIFICATION

- 1. The Cooperative shall mark every pole or structure located within its' distribution system with initials or other distinguishing mark by which the owner of every such structure can be readily determined.
- 2. The Cooperative is in the process of numbering each pole and structure located within its' distribution system. This numbering system will include a visible number on the pole or structure and maintaining this information in a data base implemented by the Cooperative's mapping system.

CABLE TELEVISION POLE ATTACHMENTS AND CONDUIT USE

- 1. The Cooperative shall permit cable television system operators who have all necessary licenses and permits to attach cables to poles and to use facilities, as consumers, for transmission of signals to their patrons.
- 2. The tariffs of the Cooperative shall set forth the rates, terms and conditions under which the Cooperative's facilities may be used.
- 3. With respect to a complaint before the Commission in any individual matter concerning cable television pole attachments final action shall be taken on the matter within a reasonable time, but no later than three hundred and sixty 360 days after filing of the complaint.

SYSTEM MAPS AND RECORDS

- 1. The Cooperative shall have on file at its principal office located within the state and shall file upon request with the Commission a map or maps of suitable scale of the general territory it serves or holds itself ready to serve showing the pertinent information.
- 2. In each division office there shall be available information relative to the Cooperative's system that will enable the local representative to furnish necessary information regarding the rendering of service to existing and prospective consumers.
- 3. In lieu of showing the above pertinent information on maps, a card record or other suitable means may be used. For all construction the records shall also show the date of construction by month and year.

LOCATION OF RECORDS

All records required by Commission regulations shall be kept in the office of the Cooperative and shall be made available to representatives, agents or staff of the Commission upon reasonable notice at all reasonable hours.

RULES AND REGULATIONS

ENERGY EMERGENCY CONTROL PROGRAM

<u>Purpose</u> - To provide a plan for reducing the consumption of electric energy on Licking Valley Rural Electric Cooperative's (Cooperative) system in the event of a severe coal/gas/oil shortage.

For the purpose of this program, the following priority levels have been established:

- I. Essential Health and Safety Uses as defined in Appendix A
- II. Residential Use
- III. Commercial and Industrial Uses
- IV. Nonessential Uses as defined in Appendix B

<u>Procedures</u> - In the event of a potential severe coal/gas/oil shortage, the following steps will be implemented. These steps will be carried out to the extent not prohibited by contractual commitments or by order of the regulatory authorities having jurisdiction. The "days' operations" referred to below will be furnished by East Kentucky Power Cooperative, Inc. (EKP) which supplies the wholesale power to the cooperative.

I. To be initiated when fuel supplies, as advised by East Kentucky Power Cooperative, Inc., are decreased to 50 days' operation of coal-fired generation and a continued downward trend in coal stocks is anticipated.

RULES AND REGULATIONS

- II. To be initiated when fuel supplies, as advised by EKP, are decreased to 40 days' operation of coal-fired generation and a continued downward trend in coal stocks is anticipated:
 - 1. Curtail electric energy consumption by member-consumers on interruptible contracts to a maximum number of hours of use per week as negotiated within the context of the contract provisions.
 - 2. In cooperation with EKP and through use of the news media and direct member-consumer contract, appeal to all member-consumers to voluntarily reduce their use of electric energy as much as possible, and in any case, endeavor to reduce the nonessential usage of electricity (Priority Level IV) by at lease 25%.
 - 3. Utilize voltage reduction as a means of reducing KWH consumption if this is deemed a feasible and viable measure in the Cooperative's service area.
 - 4. In cooperation with EKP the Cooperative shall advise member-consumers of the nature of the mandatory program to be introduced in Section III below through direct contact and mass media, and establish an effective means of answering specific member-consumer inquiries concerning the impact of the mandatory program on his/her electricity availability.
- III. To be initiated, in the order indicated below, when fuel supplies are decreased to 30 days' operation of coal-fired plants and continued downward trend in coal stocks is anticipated:

- (A) Priority Level IV 100%
- (B) Priority Level III 25%
- (C) Priority Level II 15%
- 2. The Cooperative shall advise all member-consumers of mandatory program specified in Section IV below:
- IV. To be initiated when fuel supplies are decreased to 20 days' operation of coal-fired generation and continued downward trend in coal stocks is anticipated.
 - 1. Implement mandatory curtailment of the use of electric service by all priority levels (including Priority Level I) at a minimum service level which is not greater than that required for protection of human life and safety, protection of human physical plant facilities, and employees' security.
 - 2. The Cooperative shall advise all member-consumers of the mandatory program specified in Section V below.
- V. To be initiated as a measure of last resort when fuel supplies are decreased to 15 days' operation of coal-fired generation and continued downward trend in coal stocks is anticipated:
 - 1. Implement procedures, subject to Commission approval, for interruption of selected distribution circuits on a rotational basis, while minimizing, to the extent practicable, interruption to Priority Level I.

RULES AND REGULATIONS

With regard to mandatory curtailments identified in Sections III, IV, and V above, the Cooperative proposes to monitor compliance after the fact, to the extent feasible, as approved by the Commission. A member-consumer exceeding his/her electric energy allotment would be warned to curtail his/her usage or face, upon continuing noncompliance, for any period of time, and upon one day's written notice, disconnection of electric service for the duration of the energy emergency.

<u>Termination of Energy Emergency</u> - The Energy Emergency Control Program shall be terminated upon notice to the Commission, when (a) the remaining days of operation of coal-fired generation is at least 20 days, (b) coal deliveries have been resumed, and (c)there is reasonable assurance that the coal stocks are being restored to adequate levels.

APPENDIX "A"

ESSENTIAL HEALTH AND SAFETY USES

Essential health and safety uses given special consideration in these procedures shall, insofar as the situation permits, include the following types of use and such other uses which the Commission may subsequently identify:

- (A) "Hospitals", which shall be limited to institutions providing medical care to patients.
- (B) "Life Support Equipment", which shall be limited to kidney machines, respirators, and similar equipment used to sustain the life of a person.
- (C) "Police Stations and Government Detention Institutions", which shall be limited to essential uses required for police activities and the operation of facilities used for the detention of persons. These uses shall include essential street, highway and signal-lighting service.
- (D) "Fire Stations", which shall be limited to facilities housing mobile fire-fighting apparatus.
- (E) "Communication Services", which shall be limited to essential uses required for telephone, telegraph, television, radio and newspaper operations.
- (F) "Water and Sewage Services", which shall be limited to essential uses required for the supply of water to a community, flood pumping and sewage disposal.

(G) "Transpo	ortation and Defense-rel	ated Services", which shall t	be limited to essential uses
required	l for the operation, guida	ince control and navigation of	of air, rail and mass transit

systems, including those uses essential to the national defense and operation of state and local emergency services.

- (H) "Other Energy Source Services", which shall be limited to essential uses required for the production, transportation, transmission and distribution for fuel, of natural or manufactured gas, coal, oil, or gasoline.
- (I) "Perishable Food or Medicine", which shall be limited to refrigeration for the storage and preservation of perishable food or medicine, when that use is substantially all of the customer's load.

Although these types of uses will be given special consideration when implementing the manual load-shedding provisions of this procedure, these customers are encouraged to install emergency generation equipment if continuity of service is essential. In case of customers supplied from two utility sources, only one source will be given special consideration. Also, any other customers who, in their opinion, have critical equipment should install emergency generation equipment.

NONESSENTIAL USES

The following and similar types of uses of electric energy and others which the Commission may subsequently identify shall be considered nonessential for <u>all</u> customers:

- (A) Outdoor flood and advertising lighting, except for the minimum level to protect life and property, and a single illuminated sign identifying commercial facilities when operating after dark.
- (B) General interior lighting levels greater than minimum functional levels.
- (C) Show-window and display lighting.
- (D) Parking-lot lighting above minimum functional levels.
- (E) Energy use greater than that necessary to maintain a temperature of not less than 78 degrees during operation of cooling equipment and not more than 65 degrees during operation of heating equipment.
- (F) Elevator and escalator use in excess of the minimum necessary for non-peak hours of use.
- (G) Energy use greater than that which is the minimum required for lighting, heating or cooling of commercial or industrial facilities for maintenance cleaning or businessrelated activities during non-business hours.

SCHEDULE FOR LARGE POWER SERVICE CONT'D

CONDITION OF SERVICE:

- 1. Motors have a rated capacity in excess of ten horsepower (10 H.P.) must be three-phase.
- 2. Both power and lighting shall be billed at the foregoing rates; if a separate meter is required for the lighting circuit, the registration of the two watt hour meter shall be added to obtain total KWH used and the registration of the two demand meters shall be added to obtain total kilowatt demand for the billing purposes.
- 3. All wiring, poles, lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by consumer.
- 4. If service is furnished at primary distribution voltage, a discount of ten percent (10%) shall apply to the minimum charge. However, the seller shall have the option of metering a secondary voltage and adding the estimated transformer losses to the metered KWH and kilowatt demand.

DELAYED PAYMENT CHARGE:

The above rates are net, the gross being five percent (5%) higher. In the event the current monthly bills are not paid by the ninth (9th) of the following month from the date of the bill the gross rates shall apply.
