

STANDARD RATE SHEET

10th Rev. SHEET NO. 31 OF P. S. C. of Ky. No. 1
CANCELLING 9th Rev. SHEET NO. 31 OF P. S. C. of Ky. No. 1

LOUISVILLE GAS AND ELECTRIC COMPANY

STANDARD RIDER

Special Rate for Non-Residential
Electric Space Heating Service Electric

Effective In:

All territory served.

Applicable To:

General Lighting Rate GL and General Power Rate GP.

Availability:

The special rate set forth in this rider shall be available during the eight monthly billing periods from October through May (hereinafter called "heating season") to customers regularly taking electric service under Rate GL or GP. Such special rate shall apply to separately metered service to electric space heating equipment installed and operated in accordance with the terms and conditions herein set forth.

Rate:

For all consumption recorded on the separate meter during the heating season the net rate shall be 1.5 cents per kilowatt hour. Prompt payment provision of the rate schedule to which this rider applies shall be applicable to service under this rider.

Minimum Bill:

The minimum charge for service under this rider shall be not less than \$75.00 per heating season, nor less than \$7.00 per kilowatt of connected load per heating season, whichever is the greater. This minimum charge is in addition to the regular monthly minimum of the standard rate schedule to which this rider applies; however, the heating equipment served hereunder shall not be included as a part of the customer's connected load for the purpose of establishing such regular monthly minimum.

Special Terms and Conditions:

1. Service under this rider is available only upon written application and subject to Company's inspection for the purpose of establishing eligibility of Customer's heating installation for service hereunder.
2. The design, type, and manner of operation of Customer's space heating installation served hereunder must be acceptable to Company. The heating equipment shall be of approved type, either resistance or heat pump, designed and used as the primary and predominating source of heat during the full heating season for a building or an enclosed and well-defined section of a building. Under no circumstances will this rider apply to an electric heating installation used as a supplement to some other form of space heating.

LOUISVILLE GAS AND ELECTRIC COMPANY

STANDARD RIDER

Special Rate for Non-Residential
Electric Space Heating Service (Continued) Electric

3. The heating equipment served hereunder shall be supplied with electrical energy through one or more special circuits so designed and constructed that no other electricity consuming devices may be connected thereto. Provided, however, that when heat pump, air cooling, or air circulating equipment is used in connection with the heating installation, such equipment may be connected to this special circuit or circuits and the electric consumption thereof during the heating season will be billed at the kilowatt-hour rate specified herein.

4. The consumption of the equipment connected to the aforesaid special circuit or circuits will be measured by a separate meter installed for that purpose. During the eight months of the heating season consumption recorded by such special meters will be billed at the rate specified herein. During the remaining four months of the year such consumption will be combined with consumption for other purposes at the same location for billing under Rate GL or Rate GP, as applicable.

5. The Company shall be consulted prior to installation and wiring of the equipment in order that the meter may be located to best advantage and to insure, in the case of three phase service, that single phase heating circuits are balanced in accordance with Company's general requirements.

6. The eight monthly billing periods referred to above as the heating season shall start with the monthly period covered by regular October meter reading and shall end with the period covered by the regular meter reading in May of the succeeding year.
