

STANDARD RIDER

Special Rate for Residential
Electric Space Heating Service

Applicable:

To Residential Rate R.

Availability:

During the eight monthly billing periods from October through May of the following year, a special rate of 1.2¢ per kilowatt-hour will be applicable to that portion of Residential Rate R consumption in excess of 400 kilowatt-hours per month to any residential customer who has permanently installed and in regular use during the heating season an approved type of electric space heating installation, wired for service at 240 volts, and designed and used as the primary and predominating source of his household space heating requirements. The eight monthly billing periods referred to above shall start with the monthly period covered by the regular October meter reading and shall end with the period covered by the regular meter reading in May of the succeeding year.

In the case of multiple dwelling units served through a single meter under Residential Rate R, the special rate of 1.2¢ per kilowatt-hour herein provided for shall apply only to that portion of total monthly consumption in excess of 400 kilowatt-hours multiplied by the number of individual family units thus served.

Special Conditions:

Service under this rider is available only upon written application and subject to Company's inspection for the purpose of establishing eligibility of Customer's heating installation for service hereunder.

STANDARD RIDER

Special Rate for Non-Residential Electric
Space Heating Service - Rates GS and LC

Applicable:

To General Service Rate GS and Large Commercial Rate LC.

Availability:

The special rate set forth in this rider shall be available during the eight monthly billing periods from October through May (hereinafter called "heating season") to customers regularly taking electric service under Rates GS or LC. Such special rate shall apply to separately metered service to electric space heating equipment installed and operated in accordance with the terms and conditions herein set forth.

CANCELED JUL 17, 1970

Rate:

For all consumption recorded on the separate meter during the heating season the rate shall be 1.2¢ net per kilowatt-hour. This special rate shall be subject to the same Primary Service Discount and Prompt Payment Provision as are embodied in the rate schedule applicable to customer's regular service for other purposes at the same location, but not to the Fuel Clause embodied in Rate LC.

During the four non-heating season months any electric usage recorded on the separate space heating meter shall be combined with metered usage for other purposes at the same location and be billed at the regular rate applicable to such other electric usage. In the case of customers taking regular service under Rate LC the separate meter for space heating service under this rider will be equipped to measure kilowatts of maximum demand; however, during the eight months of the heating season demand readings of such meter will not be used for billing, and the special rate will be applied to kilowatt-hour readings only. During each of the remaining four months of the year, Rate LC will be applied to the combined coincident 15-minute maximum demands and the combined kilowatt-hour consumptions of both the separately metered heating service and service for other purposes at the same location.

Minimum Charge:

The minimum charge per heating season for service under this rider shall be \$6.00 per kilowatt of connected heating load but not less than \$30.00 per heating season for customers taking regular service under Rate GS, nor less than \$150.00 per heating season for customers taking regular service under Rate LC. This minimum charge is in addition to the regular monthly minimum of Rate GS or Rate LC, to which this rider applies; however, the heating equipment served hereunder shall not be included as a part of the customer's connected load for the purpose of establishing the regular monthly minimum of Rate GS nor shall the demands attributable to service under this rider (either in the heating season months or non-heating season months) be
