

Louisville Gas and Electric Company

P.S.C. Electric No. 13, Original Sheet No. 72

Standard Rate Rider

SSP
Solar Share Program Rider

CANCELLED

September 24, 2021

**KENTUCKY PUBLIC
SERVICE COMMISSION**

APPLICABLE

In all territory served.

AVAILABILITY

This optional, voluntary service is available to Customers taking service under Rates RS, RTOD-Energy, RTOD-Demand, VFD, GS, GTOD-Energy, GTOD-Demand, PS, TODS, and TODP. The terms and conditions set out herein are available for and applicable to participation in Company's Solar Share Program.

RATE:

A customer may subscribe to capacity in the Solar Share Facilities by paying a One-Time Solar Capacity Charge or a Monthly Solar Capacity Charge—but not both—for each quarter-kW increment subscribed. The customer need not subscribe to all desired capacity using only one subscription approach, but the customer will pay only one kind of charge for each increment of capacity subscribed. For example, a customer subscribing to two quarter-kW increments may pay the One-Time Solar Capacity Charge for one increment and the Monthly Solar Capacity Charge for the other increment.

One-Time Solar Capacity Charge

A customer subscribing to capacity by paying the One-Time Solar Capacity Charge will receive Solar Energy Credit values subject to the terms and conditions of this Rider for a period of 25 years beginning with and including the first full billing period immediately following the customer's payment in full of the Capacity Charge.

The One-Time Solar Capacity Charge is only available for subscription on Solar Share Facilities that have not begun construction. Any one-time solar capacity subscription that becomes unsubscribed will be made available for subscription under the Monthly Solar Capacity Charge.

One-Time Solar Capacity Charge \$799.00 per quarter-kW subscribed

Monthly Solar Capacity Charge

Solar Capacity Charge \$5.55 per quarter-kW subscribed

Solar Energy Credit

Each billing period during which the Subscriber has paid in full for subscribed capacity under either option above, Company will compare a subscribing customer's pro rata AC energy produced by the Solar Share Facilities (in kWh) to the subscribing customer's energy consumption (in kWh) every 15 minutes. If consumption exceeded production, Company will bill Customer for the net energy consumed in accordance with Customer's standard rate schedule. If production equaled or exceeded consumption in any relevant period, Company will bill Customer for zero energy consumption for that period and provide a bill credit for each kWh of net production, if any, at the then-applicable non-time-differentiated rate for Company's Standard Rate Rider SQF.

Louisville Gas and Electric Company

P.S.C. Electric No. 13, Original Sheet No. 72.2

Standard Rate Rider

SSP

Solar Share Program Rider

TERMS AND CONDITIONS

1. Individual subscriptions are available in nominal 250 W DC (quarter-kW) increments.
2. Customer may subscribe as much solar capacity as desired up to an aggregate amount of 500 kW DC (nominal). No customer may subscribe more than 250 kW DC (nominal) in any single Solar Share Facility.
3. Subject to the restrictions above, Company will fill subscriptions as capacity in the Solar Share Facilities becomes available, and will fill subscriptions in the chronological order in which the subscriptions were made. A Subscriber whose subscription the Company can fulfill only partially may either accept the available capacity and await additional capacity, or decline the partial fulfillment, allowing the next awaiting Subscriber(s) to accept the available capacity. Accepting or declining available capacity will not affect a Subscriber's place in the queue of Subscribers awaiting capacity.
4. Customers may not owe any arrearage prior to participating in the Solar Share Program.
5. Subscribers' pro-rata share of the AC electricity produced by the Solar Share Facilities will be determined on a billing-cycle basis. The corresponding Solar Energy Credit will be calculated and appear on the Subscriber's bill.
6. Unless constrained by contract (see Term of Contract below) or condition #2 above. Subscriber may also increase monthly subscribed capacity at any time.
7. Unused Solar Energy Credit value is not transferrable between customers or customer accounts. Therefore, a Subscriber's closing a customer account terminates any unused Solar Energy Credit value associated with that account.
8. Participants in SSP are required to have an advanced meter capable of collecting and communicating at least 15 minute interval data.
9. All Renewable Energy Certificates ("RECs") related to energy produced by subscribed portions of the Solar Share Facilities will be retired.
10. Use of any images of the Solar Share Facilities or use any other of Company's intellectual property requires Company licensing prior to use.
