Other provisions or specifications: SLE rate available only to Municipalities, County governments divisions or agencies of the State and Federal governments, civic associations and other public or quasi-public agencies for service to public street and highway lighting systems where the municipality or other agency owns all street lighting equipment and has provided for its maintenance. Since Applicant has made special arrangements with Company to purchase and own approved street lighting equipment mounted on Company poles and has in force a maintenance agreement with Company for the care and upkeep of the street light system described in separate contract for installation dated September 29, 1983, and Company drawing ES3-250 (8 pages), the Street Lighting Electric rate (SLE) is made available to him as a civic association service shall be unmetered to 17-150 Watt High Pressure Sodium street lights along Tobacco RD and 33-150 Watt High Pressure Sodium street lights along Bluegrass PY. Estimated light output is 10,000 lumens per street light. Estimated energy consumption (including ballast) is 425 kWh per year per street light.

EFFECTIVE

This service contract shall extend for a period of one years, beginning 11/25/83 date of service* or as soon thereafter as connection is made, and from month to month thereafter until one party or the other shall give notice of a desire to terminate it. In consideration of Company's service to Applicant's premises, Applicant grants Company such rights across said premises as may be necessary to furnish service to neighboring premises.

STANDARD RATE SCHEDULE	SLE
Street Lighting Energy Rate	
<p><u>Applicable:</u> In all territory served.</p> <p><u>Availability:</u> Available to Municipalities, County governments, divisions or agencies of the State or Federal governments, civic associations, and other public or quasi-public agencies for service to public street and highway lighting systems, where the municipality or other agency owns and maintains all street lighting equipment and other facilities on its side of the point of delivery of the energy supplied hereunder.</p> <p><u>Rate:</u> 4.290¢ per kilowatt-hour.</p> <p><u>Fuel Clause:</u> The monthly amount computed at the charges specified above shall be increased or decreased in accordance with the Fuel Clause set forth on Sheet No. 24 of this Tariff. Where service is unmetered, the kilowatt-hour consumption will be determined in accordance with the table contained in the Standard Rider "Kilowatt-hours Consumed by Street Lighting Units" set forth on Sheet No. 23-A of this Tariff.</p> <p><u>Conditions of Delivery:</u></p> <ol style="list-style-type: none"> 1. Service hereunder will be metered except when, by mutual agreement of Company and customer, an unmetered installation will be more satisfactory from the standpoint of both parties. In the case of unmetered service, billing will be based on a calculated consumption taking into account the types of equipment served. 2. The location of the point of delivery of the energy supplied hereunder and the voltage at which such delivery is effected shall be mutually agreed upon by Company and the customer in consideration of the type and size of customer's street lighting system and the voltage which Company has available for delivery. <p><u>Applicability of Rules:</u> Service under this rate schedule is subject to Company's rules and regulations governing the supply of electric service as incorporated in this Tariff.</p>
