Schedule CP-4A - Continued

RATE
PER UNITPower Factor Adjustment:

The consumer shall at all times take and use power in such manner that its average power factor shall be as near 100% as is consistent with good engineering practice, but in no case shall the power factor be lower than 80% lagging. The Distributor reserves the right to measure the power factor at any time. When the power factor is found to be lower than 80% lagging, the consumer will be required to correct its power factor to 80% at the consumers expense. The demand shall be defined as 80% of the highest average kilovolt-amperes measured during any 15 consecutive-minute period of the month.

Fuel Cost Adjustment Charge:

In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision in Seller's wholesale power contract, the foregoing energy charges shall be adjusted each month by the same amount per KWH as the fuel cost adjustment per KWH in Seller's wholesale power bill for the next preceding month.

Minimum Monthly Charges:

The minimum monthly charge shall be the highest one of the following charges as determined for the consumer in question.

1. The minimum monthly charge specified in the contract for service.
2. A charge of \$0.75 per KVA of installed transformer capacity, or \$0.75 per H.P of connected load.
3. A charge of \$1.25.

Minimum Annual Charge for Seasonal Services:

Consumers requiring service only during certain seasons not exceeding nine months per year may guarantee a minimum annual payment of twelve times the minimum monthly charge determined in accordance with the foregoing section in which case there shall be no minimum monthly charge.

Schedule CP-1A - Continued

RATE
PER UNITDue Date of Bill:

Payment of consumers monthly bill will be due within 10 days from due date of bill.

Delayed Payment Charge:

The above rates are net, the gross rates being 5% higher on the first \$25.00 and 2% on the remainder of the bill. In the event the current monthly bill is not paid within ten (10) days from the due date of the bill, the gross rates shall apply.

Metering:

Necessary metering equipment will be furnished and maintained by the Cooperative, which shall have the option of metering service supplied hereunder at either primary or secondary voltage.

Special Rules and Conditions:

1. Motors having a rated capacity in excess of five horsepower (5 H.P.) must be three-phase unless written permission has been obtained from the Seller.

2. All wiring, pole lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.

3. Service hereunder will be furnished at one location. If the consumer desires to purchase energy from the Cooperative at two or more locations, each such location shall be metered and billed separately from the other under the above rates.

4. When lighting is installed under the above rate, the lighting load shall not exceed 10% of the maximum power load. All equipment necessary to provide lighting shall be installed, owned and maintained by the consumer.
