RULES AND REGULATIONS

Schedule 1-NF, 3-F and 6-C - Continued

Minimum Annual Charge for Seasonal Service:

Consumers requiring service only during certain seasons not exceeding nine months per year may guarantee a minimum annual charge, in which case there shall be no minimum monthly charge. The minimum annual charge shall be sufficient to assure adequate compensation for the facilities installed to serve the customer, and in no event shall be less than twelve times the monthly minimum as set forth in Rate Schedule 1-NF, 3-F and 6-C.

Terms of Payment:

The above rates are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.

Special Terms and Conditions:

Service under this schedule is subject to the Special Terms and Conditions set forth herein.

Special Terms and Conditions Relating to the Application of Residential and Farm Rate

CHECKED
PUBLIC SERVICE COMMISSION
FEB 28 1962
by CLB
ENGINEERING DIVISION

Multiple-Family Dwellings:

Residential and Farm rates, Code 1-NF, 3-F and 6-C are based on service to single family units and are not applicable to multiple-family dwellings served through a single meter. Where premises include two or more residential or dwelling units, the residential rate may be applied only if separate circuits are provided without cost to the Distributor. A residential or dwelling unit shall be defined, for the purpose of applying this interpretation, as the space provided for the occupancy of a single family, including separate living quarters and kitchen. If it is not practical to provide for separate metering of each individual unit, the entire premises will be served under the appropriate commercial rate.

Issued by authority of an order of the Public Service Commission of Kentucky in Case No. 4032 dated February 20, 1962.

RULES AND REGULATIONS

Schedule 1-NF, 3-F and 6-C - Continued

Commercial Use of Portions of Dwellings:

The residential rate is not applicable to the space in the dwelling which is regularly used for commercial purposes, such as offices, beauty shop, studio, tea room, or store, or for other gainful activities. In such cases, if a separate circuit is provided at no cost to the Distributor, for the portion of the dwelling so used, the residential rate will be applied to the balance of the power requirements and the commercial rate will be applied to the portion of the dwelling used for commercial purposes. If a separate circuit is not provided, the entire power requirements of the premises must be billed under the commercial rate. If the premises are used primarily as a private dwelling and space in the dwelling occasionally used for commercial purposes, such as occasional rentals of surplus rooms, dress making, laundering, etc., the residential rate should be applied to the entire power requirements.

Domestic Power Use:

A farm on which is located a single dwelling and its appurtenances, including barns, domestic servants quarters, and out-buildings, and which processes only its own products, shall be considered a domestic farm and shall be entitled to the residential rate for all of its power requirements, including motors up to and including rated capacity of five horsepower (5 H.P.). Motors of capacities larger than five horsepower (5 H.P.) shall not be installed except by written permission of the Cooperative. Service to dwellings other than the main buildings such as tenant houses, etc., must be separately metered and billed under the residential rate. This interpretation is not applicable to commercial dairies as defined below.

Commercial Farm Use:

1. Farm service shall be metered and billed under the commercial lighting and power rate if other dwellings beside the main dwelling are not separately metered and are served through the

same point of delivery, or if products of other farms are processed for sale. The main dwelling and domestic servants quarters may be metered and billed under the residential rate if a separate circuit is provided for all of the other farm uses in cases where products of other farms are processed for sale.

2. If a farm customer's barn, pump house or other outbuildings are located at such distances from his residence as to make it impractical to supply service thereto through his residential meter, the separate meter required to measure service to such remotely located buildings will be considered a separate service contract and billed as a separate customer.

3. All motors rated above one-half horsepower ($\frac{1}{2}$ H.P.) must be 240 Volt motors. All motor installations, fluorescent and other gaseous lighting installations must conform with the cooperative's power factor correction rule applicable thereto.

4. Three-phase service will not be made available under Rate Schedule 1-NF, 3-F and 6-C. Consumers requiring three-phase service shall be billed on the cooperative's applicable power rate subject to the rules and regulations covering such service.
