MEADE COUNTY RURAL ELECTRIC
COOPERATIVE CORPORATION.

CLASSIFICATION OF SERVICE

Schedule 2B-C

Street Lighting Service

RATE
PER UNIT

Applicable:

Available for street-lighting systems, including street lighting, signal system, and roadway and park lighting. All service furnished under this rate and classification are subject to the established rules and regulations of the Cooperative covering this service.

Type of Service:

Alternating-current service, either series or multiple system or in combination at option of Distributor.

Rates:

The rate for this service consists of two parts, as follows:

I. Investment Charge

The annual investment charge (for the cost of operations, maintenance, taxes, and depreciation, and for return on investment) shall be twelve percent (12%) of the investment in the street-lighting system, determined as set forth below. This charge will be recomputed on July 1 of each year and one-twelfth of the total annual charge so computed will be billed customer monthly.

II. Energy Charge

RULES AND REGULATIONS

Schedule 2B-C - Continued

Minimum Bill:

Consumers and municipalities receiving service under the above rate will be required to execute contracts for minimum terms of one year. The minimum monthly charge shall be the minimum charge specified in the contract for service.

Method of Determining Distributor's Investment:

The investment in property and equipment used as a basis for the investment charge contained in this schedule shall consist of the cost of such property and equipment, including the full amount shown in the plant account entitled "Street Lighting and Signal System". If any part of the street-lighting system has not been built at the expense of the Distributor, a deduction shall be made from the annual investment charge in the amount of six percent (6%) of the investment in such part.

Lamp Renewals:

Distributor shall keep a record of the number and type of lamp replacement and customer shall be billed monthly for the replacements during the month at actual cost to Distributor, including appropriate overheads.

Relocation of Lamps:

Distributor shall, at the request of customer, relocate or change existing equipment. Customer shall reimburse Distributor for such changes at actual cost, including appropriate overheads.

Metering:

All energy consumed under this schedule shall be metered excepting installations where, in the opinion of Distributor, metering would be impracticable.

RULES AND REGULATIONS

Schedule 2B-C - Continued

Metering: - Continued

When the consumption is metered, the meters shall be installed in or connected to the lighting circuit and the billing shall include the energy delivered to and consumed in all circuits and equipment used exclusively for street lighting purposes. If more than one meter is used, the readings shall be consolidated for billing purposes.

When the energy is not metered and also when a meter reading is found to be in error, the consumption for billing purposes shall be computed from the rated capacity of the lamps plus five percent (5%) for losses, multiplied by the number of hours of use.

Payment:

The rates included herein are net, the gross rates being ten percent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from due date, the gross rates shall apply.
