CLASSIFICATION OF SERVICE

Schedule 3	RATE PER UNIT
General Service, 0-49 KVA	
<u>Applicable:</u> Entire territory served.	
<u>Availability of Service:</u> Available to consumers located on or near Seller's single or three-phase lines for all types of usage, subject to the established rules and regulations of Seller.	
<u>Type of Service:</u> Single or three-phase, 60 hertz, at Seller's standard voltages.	
<u>Rates:</u>	
1. Energy Charge	
First 30 KWH per month or less (minimum bill)	\$3.94
Next 70 KWH per month	6.523¢/KWH
Next 400 KWH per month	3.960¢/KWH
Next 500 KWH per month	3.645¢/KWH
All over 1000 KWH per month	3.004¢/KWH
State and Federal tax will be added to above rate where applicable.	
2. Demand Charge	
First 10 KW of billing demand per month	No charge
Excess above 10 KW of billing demand per month	\$1.62/KW
<u>Terms of Payment:</u> The above rates are net, the gross rates being ten per cent (10%) higher. In the event the current monthly bill is not paid within ten (10) days from the due date, the gross rates shall apply.	
<u>Determination of Billing Demand:</u> The billing demand shall be the maximum kilowatt demand established by the consumer for any period fifteen consecutive minutes during a month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as follows:

RATE  
PER UNIT

Power Factor Adjustment:

The consumer shall at all times take and use power in such manner that its average power factor shall be as near one hundred percent (100%) as is consistent with good engineering practice, but in no case shall the power factor be lower than ninety percent (90%) lagging. The Distributor reserves the right to measure the power factor at any time. Should such measurements indicate that the power factor at the time of his maximum demand is less than ninety percent (90%), the demand for billing purposes shall be the demand as indicated or recorded by the demand meter multiplied by ninety percent (90%) and divided by the percent power factor. When the power factor is found to be lower than ninety percent (90%), the consumer will be required to correct its power factor to ninety percent (90%) at the consumer's expense. The demand shall be defined as ninety percent (90%) of the highest average kilovolt-amperes measured during any fifteen consecutive-minute period of the month.

Fuel Cost Adjustment:

In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision billed by Seller's wholesale power supplier, the foregoing energy charges shall be adjusted each month by the amount per KWH of sales by the Seller equal to the dollar amount of the above mentioned charge (plus or minus any adjustment for over or under collection) in the Cooperative's wholesale power cost for the next preceding month. The following formula shall apply:

$$\text{Adjustment Factor} = \frac{F \pm O}{S}$$

Where F is the above mentioned fuel charge by the wholesale supplier; where O is the amount of any overage or shortage of fuel costs billed to revenue collected for the preceding periods; where S is KWH sales in the preceding month, including company use.

Purchase Power Clause:

In case the rate under which Seller purchases power at wholesale is adjusted in accordance with a purchase power clause provision billed by Seller's wholesale power supplier the foregoing energy charges shall be adjusted each month by the amount per KWH of sales by the Seller equal to the dollar amount of the above mentioned charge (plus or minus and adjustment for over or under collection) in the Cooperative's wholesale

power cost for the next preceding month. The following formula shall apply:

$$\text{Purchased Power Factor} = \frac{P + O}{S}$$

Where P is the above mentioned purchased power charge by the wholesale supplier; where O is the amount of any overage or shortage of purchased power billed to revenue collected for the preceding periods; where S is KWH sales in the preceding month, including company use.

Minimum Monthly Charges:

- The minimum monthly charge shall be the highest one of the following charges as determined for the consumer in question:
1. The minimum monthly charge specified in the contract for service.
  2. A charge of \$0.75 per KVA of installed transformer capacity, or \$0.75 per horsepower of connected load.
  3. A charge of \$ 3.94.

Minimum Annual Charge for Seasonal Services:

Consumers requiring service only during certain seasons not exceeding nine months per year may guarantee a minimum annual payment of twelve times the minimum monthly charge determined in accordance with the foregoing section in which case there shall be no minimum monthly charge.

Due Date of Bill:

Payment of consumers monthly bill will be due within ten (10) days from due date of bill.

Delayed Payment Charge:

The above rates are net, the gross rates being five percent (5%) higher on the first \$25.00 and two percent (2%) on the remainder of the bill. In the event the current monthly bill is not paid within ten (10) days from the due date of the bill, the gross rate shall apply.

Metering:

Necessary metering equipment will be furnished and maintained by the Cooperative, which shall have the option of metering service supplied hereunder at either primary or secondary voltage.

Special Rules and Conditions:

1. Motors having a rated capacity in excess of seven and one-half horsepower (7 1/2 H.P.) must be three-phase unless written permission has been obtained from the Seller:

2. All wiring, pole lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.

3. Service hereunder will be furnished at one location. If the consumer desires to purchase energy from the Cooperative at two or more locations, each such location shall be metered and billed separately from the other under the above rates.

4. When lighting is installed under the above rate, the lighting load shall not exceed ten percent (10%) of the maximum power load. All equipment necessary to provide lighting shall be installed, owned and maintained by the consumer.

5. All motors in excess of ten horsepower (10 H.P.) rating shall have reduced voltage starters.
