CLASSIFICATION OF SERVICE

	RATE PER UNIT						
Residential, Farm and Non-Farm, Schools & Churches							
Addendum - Underground Service							
The Cooperative will install underground distribution lines to an applicant under the following conditions:							
1. Applicant shall be required to pay to the Cooperative an amount equal to an "estimated average cost differential" if any, between the average or representative cost of underground distribution service and of equivalent overhead distribution service within the utility service areas.							
2. The Cooperative will construct underground distribution facilities to the service adequate to render single phase 120/240 volt service.							
3. Three-phase primary mains or feeders required for a service to supply local distribution or to serve individual three-phase loads may be overhead unless underground is required by governmental authorities or chosen by applicant, in either of which case the differential cost of underground shall be borne by the applicant. See Exhibit A.							
4. Applicant shall grant a right-of-way satisfactory to the Cooperative for the installation, operation and maintenance of its underground facilities.							
5. Service line to house shall be installed and ready for inspection at the same time as the residence. Trench is to be left open until inspection has been made.							
6. The applicant shall have the choice of performing all necessary trenching and backfilling in accordance with the Cooperative's specifications or shall pay for such service using the following rates:
