CLASSIFICATION OF SERVICE

RATE
PER UNIT

SCHEDULE 3 (Cont'd.)

POWER FACTOR ADJUSTMENT: The consumer agrees to maintain unity power factor as nearly as practicable. Power factor may be measured at any time. Should such measurements indicate that the power factor at the time of his maximum demand is less than 85%, the demand for billing purposes shall be the demand as indicated or recorded by the demand meter multiplied by 85% and divided by the percent power factor.

CONTRACT FOR SERVICE: The consumer must give satisfactory assurance by means of a written agreement as to the character, amount and duration of the business and complete a five (5) year contract.

FUEL COST ADJUSTMENT: In case the rate under which the Cooperative purchases power at wholesale is adjusted in accordance with a fuel cost adjustment provision in the Cooperatives wholesale power contract, the foregoing energy charges shall be adjusted each month by the same amount per KWH as the fuel cost adjustment per KWH in the Cooperatives wholesale power bill for the preceding month.

SPECIAL CONDITIONS:

1. Delivery Point: If service is furnished at secondary voltage, the delivery point shall be the metering point unless otherwise specified in the contract for service. All wiring, pole lines and other electric equipment on the load side of the delivery point shall be owned and maintained by the Consumer.
