 SERVICE COMMISSION

Owen Electric Cooperative, Inc.  
 (Name of Utility)

**DSM**

(T)

**Direct Load Control Program – Commercial**

**Purpose**

The Direct Load Control Program will encourage the reduction in growth of peak demand, enabling Owen Electric Cooperative to utilize its system more efficiently, manage market purchases, and defer the construction of new generation.

(T)

**Availability**

The Direct Load Control Program is available to commercial members in the service territory of Owen Electric Cooperative and will include the control of air conditioners and existing water heaters.

Availability may be denied where; in the judgment of Owen Electric Cooperative, installation of the load control equipment is impractical.

**Eligibility**

To qualify for this Program, the new participant must be located in the service territory of Owen Electric Cooperative and have a central air conditioning unit or heat pump units. The appliance may be electrically cycled or interrupted in accordance with the rules of this Tariff.

(T)

The participant is responsible for obtaining the permission of the commercial property owner to participate in the load control program. Owen Electric Cooperative may require that a rental property agreement be executed between Owen Electric Cooperative and the owner of the rented commercial property.

**Program Incentives**

Owen Electric Cooperative will provide an incentive to the participants in this program for the following appliances:

**Air Conditioners and Heat Pumps:** The incentive will be based on the tonnage of the air conditioning unit. Units up to and including five (5) tons will receive \$20.00 per unit. Units over five (5) tons will receive an additional annual credit of \$4.00 per ton per unit. Owen Electric Cooperative will credit the commercial-member power bill of the participant annually at the applicable incentive credit. The participant will receive the incentive regardless of whether the air conditioner is actually controlled during any program month.

(T)

**Water Heaters:** Owen Electric Cooperative will provide the existing participating commercial-member \$10.00 per water heater annually. The participant will receive this credit regardless of whether the water heater is actually controlled.

(T)

**Direct Load Control Program - Commercial**

**Time Period for Direct Load Control Program**

**Air Conditioners and Heat Pumps:** A load control device will be placed on each central air conditioning unit or heat pump that will allow the operating characteristics of the unit to be modified to reduce demand on the system. The member must have internet for communication. Utility or member supplied Wi-Fi enabled thermostat programs may also be available. Communication to the load control device or thermostat will be accomplished via AMR, AMI, Wi-Fi or similar communication technologies.

(T)

EKPC will control the air conditioning units only during its summer on-peak billing hours listed below and up to four (4) hours per event:

(T)

Months  
May through September

Hours Applicable for Demand Billing - EPT  
10:00 a.m. to 10:00 p.m.

**Water Heaters.** Existing load control switches may be electrically interrupted for a maximum time period of six (6) hours per event during the May through September months indicated below and for a maximum time period of four (4) hours per event during the October through April months indicated below.

(T)

(T)

(T)

EKPC will cycle the water heaters only during the hours listed below:

Months  
October through April  
  
May through September

Hours Applicable for Demand Billing - EPT  
6:00 a.m. to 12:00 noon  
4:00 p.m. to 10:00 p.m.  
10:00 a.m. to 10:00 p.m.

(T)

Direct Load Control Program - Commercial

Terms and Conditions

1. Prior to the installation of load control devices, Owen Electric Cooperative may inspect the participant's electrical equipment to insure good repair and working condition, but Owen Electric Cooperative shall not be responsible for the repair or maintenance of the electrical equipment.
2. EKPC, on behalf of Owen Electric Cooperative, will install, in some cases, own, and maintain the load management devices controlling the participant's air conditioner or heat pump. The participant must allow Owen Electric Cooperative, or their representative, reasonable access to install, maintain, inspect, test and remove load control devices. Inability of Owen Electric Cooperative to gain access to the load management device to perform any of the above activities for a period exceeding thirty (30) days may, at Owen Electric Cooperative's option, result in discontinuance of credits under this tariff until such time as Owen Electric Cooperative is able to gain the required access. (T)
3. Participants may join the program at any time during the year. For air condition and heat pump unit participants, the annual \$20 bill credit represents a \$5 credit for each month of the cooling season: June, July, August, and September. Members not participating during the entire four months of the cooling season will not receive the full \$20 annual credit. They will receive a \$5 credit for each full calendar month of participation. (T)
4. If a participant decides to withdraw from the program, Owen Electric Cooperative will endeavor to implement the withdrawal as soon as possible. If a participant decides to withdraw from the program, the participant may not to rejoin the program for a period of six (6) months. (T)
