Button-Up Weatherization Program

Purpose

The Button-Up Weatherization Program offers an incentive for reducing the heat loss of a home. The retail member of Owen Electric Cooperative may qualify for this incentive by improving attic insulation and reducing the air leakage of their home. (T)

Availability

This program is available to residential members/homeowners in all service territory served by Owen Electric Cooperative.

Eligibility

This program is targeted at older single-family, multi-family, or manufactured dwellings. Eligibility requirements are:

- Home must be 2 years old or older to qualify for the incentive.
- Primary source of heat must be electricity.

The Button Up incentive will promote the reduction of energy usage through air sealing on the part of the retail members/homeowners. Typical air sealing could include caulking, improved weather stripping, sealing attic accesses, etc. To receive this incentive either an East Kentucky Power Cooperative approved contractor or an Owen Electric Cooperative representative must perform a "pre" and "post" blower door test to measure actual Btuh reduced. (T)

The attic insulation portion of the Button Up incentive will promote the reduction of energy usage on the part of the retail members. Heat loss calculation of Btuh reduced will be made by using either the Manual J 8th Edition or through other methods approved by EKPC. Heat loss calculations in Btuh are based on the winter design temperature. In order to receive an incentive for attic insulation, an air seal must be completed.

Incentives

The Button Up incentive will pay a total payment of \$40 per thousand Btuh reduced to the retail member up to the maximum rebate incentive of \$750.

Term

The program is an ongoing program.
