40. SINGLE-PHASE LOADS (T)

(T) An extension, via the least expensive route, to a permanent residence of 1,000 feet or less
(T) from the nearest existing Cooperative facilities shall be made by Shelby Energy to its
(T) existing distribution line without charge for a prospective member who shall apply for and
(T) agree to use the service for one (1) year or more and provides guarantee for such service. The
"service drop" to the structure from the distribution line at the last pole shall not be included
in the foregoing measurements. This distribution line extension shall be limited to service
(T) where installed transformer capacity does not exceed twenty-five (25) KVA. Any extensions
(T) to a member who may require multi-phase service or whose installed transformer capacity
(T) will exceed twenty-five (25) KVA will be required to pay, in advance, additional cost of
(T) construction which exceeds that for a single-phase line where the installed transformer
(T) capacity does not exceed twenty-five (25) KVA.

1. When an extension of Shelby Energy's line to service a member or a group of
(T) members amounts to more than 1,000 feet per member or the extension is made at the
(T) member's request, via a more expensive route, the total cost of the excessive footage
(T) over 1,000 feet per member or the increased expense of the route shall be paid by the
applicant or applicants based on the estimated cost of the total extension.

2. Each member receiving service under such extension will be reimbursed under the
following plan:

Each year for a period of ten (10) years, which for the purpose of this rule shall be the
refund period, the Cooperative shall refund to the member or members who paid for
the excess footage the cost of 1,000 feet of the extension in place for each additional
member connected during the year whose service line is directly connected to the

(N) Multi-phase service will be extended to members based on the following criteria:

(N) a. The multi-phase load will be a minimum of a thirty (30) kW connected load,

(N) b. The load will be a permanent installation and provide steady monthly revenue for the Cooperative.

(N) Consideration will be given for any portion of the facilities that are installed that will benefit the Cooperative's distribution system. An example of this type of benefit is a multi-phase line to a load center that would require multi-phase service in the near future.

(N) If the multi-phase extension is to serve a new multi-phase commercial/industrial load, the charges of extending the multi-phase service may be negotiable based on projected revenues and cost of facilities.

(N) The first 300 feet of the extension and a twenty-five (25) KVA transformer will be installed as overhead service, free of charge. If the extension exceeds 300 feet or the transformer capacity required for the service is greater than twenty-five (25) KVA or underground service is desired, a charge for the extension shall be required prior to construction. The charge may be negotiable based on projected revenues and cost of facilities.

(N) Temporary multi-phase service will be provided if the member pays the following charges:

(N) a. The entire cost of installation

(N) b. The entire cost of removal minus the salvage of materials

(N) c. The total charge must be paid prior to the temporary service being installed.

(N) For additional members connected to an extension or lateral from the distribution line, the utility shall refund to any customer who paid for excessive footage the cost of 300 feet of line less the length of the lateral extension.
