CLASSIFICATION OF SERVICE

Electric Service - All Electric Heating, Medicinal, and Farm Rate Application

Service territory covered: _____

Available for electric service to consumers in the territory covered are the following uses, including all appliances, refrigeration, water heating, air conditioning, and swimming pools, including all installations of electric heating, medicinal, and farm rate service.

RATE PER UNIT

RATE

Without electric water heater

- First 100 kWh or less per month @ \$3.00 per month
- Next 100 kWh per month @ .045 per kWh
- Next 100 kWh per month @ .050 per kWh
- Next 100 kWh per month @ .015 per kWh

With electric water heater

- First 100 kWh or less per month @ \$3.00 per month
- Next 100 kWh per month @ .07 per kWh
- Next 100 kWh per month @ .075 per kWh
- Next 100 kWh per month @ .01 per kWh
- Next 100 kWh per month @ .015 per kWh

All over 100 kWh per month used during the heating season (six months from September 1 through March 31 of each year) shall be at the rate of \$1.00 per kWh.

If no electric water heater used, the rate shall be \$2.00 per month.

General Notes

The minimum monthly charge under the above rate shall be \$3.00 net where a transformer of transformer capacity is required. Each consumer will require more than 4 kva of transformer capacity shall

CLASSIFICATION OF SERVICE

Schedule A-ER. All Electric Heating Residential and Farm Rate pay in addition to the above minimum, 75c for each additional KVA or fraction thereof required.

RATE PER UNIT

Consumers using all electric heat may guarantee a minimum annual payment of twelve times the required minimum monthly charge determined in this section in which case there shall be no additional monthly charge.

TERMS OF PAYMENT

The above rates are net, the gross rates being five (5%) higher. In the event the current monthly bill (due the 27th of each month) is not paid by the 15th of the following month, the gross rates shall apply.

SPECIAL TERMS AND CONDITIONS

Service under this schedule is subject to the Special Terms and Conditions set forth on rate Schedule A, & Operating Policy #27.

Special Terms and Conditions Relating to the Application of Residential and Farm Rate

Multiple Family Dwellings:

Residential and Farm Rates, (Schedule A), are based on service to single family units and are not applicable to multiple-family dwellings served through a single meter. Where premises include two or more residential or dwelling units, the residential rate may be applied only if separate circuits are provided without cost to the Distributor. A residential or dwelling unit shall be defined, for the purpose of applying this interpretation, as the space provided for the occupancy of a single family, including separate living quarters and kitchen. If it is not practical to provide for separate metering of each individual unit, the entire premises will be served under the appropriate commercial rate.

Commercial Use of Portions of Dwellings:

The residential rate is not applicable to the space in the dwelling which is regularly used for commercial purposes, such as offices, beauty shops, studios, tea rooms, or stores, or for other gainful activities. In such cases, if a separate circuit is provided at no cost to the Distributor, for the portion of the dwelling so used, the residential rate will be applied to the balance of the power requirements and the commercial rate will be applied to the portion of the dwelling used for commercial purposes. If a separate circuit is not provided, the entire power requirements of the premises must be billed under the commercial rate. If the premises are used primarily as a private dwelling and space in the dwelling is occasionally used for commercial purposes, such as

CLASSIFICATION OF SERVICE

Schedule A-BH - All Electric Heating Residential and Farm Rate

RATE PER UNIT

occasional rentals of surplus rooms, dress making, laundering, etc., the residential rate should be applied to the entire power requirements.

Domestic Power Use:

A farm on which is located a single dwelling and its appurtenances, including barns, domestic servants quarters, and outbuildings, and which processes only its own products, shall be considered a domestic farm and shall be entitled to the residential rate for all of its power requirements, including motors up to and including rated capacity of 5 H.P. Motors of capacities larger than 5 H.P. shall not be installed except by written permission of the Cooperative. Service to dwellings other than the main buildings such as tenant houses, etc., must be separately metered and billed under the residential rate. This interpretation is not applicable to commercial dairies as defined below.

Commercial Farm Use:

Farm service shall be metered and billed under the commercial lighting and power rate if other dwellings beside the main dwelling are not separately metered and are served through the same point of delivery, or if products of other farms are processed for sale. The main dwelling and domestic servants quarters may be metered and billed under the residential rate if a separate circuit is provided for all of the other farm uses in cases where products of other farms are processed for sale.

If a farm consumer's barn, pump house or other outbuildings are located at such distances from his residence as to make it impractical to supply service thereto through his residential meter, the separate meter required to measure service to such remotely located buildings will be considered a separate service contract and billed as a separate consumer.

All motors rated above 1/2 H.P. must be 240 volt motors. All motor installations, fluorescent and other gaseous lighting installations must conform with the Cooperative's power factor correction rule applicable thereto.

Three-phase service will not be made available under the residential and farm rate Schedule A.
