RULES AND REGULATIONS

The farm tap system has or will be constructed according to all applicable rules and regulation of the Public Service Commission; 807 KAR 5:006, 5:022 and 5:026.

The design and pressure tests have or will be submitted to the PSC. All fusing has or will be done by Jackie Keeton, Paul Mills and Jimmy Curd (a copy of their certifications is included and made a part of this filing). The pipe that has or will be used will meet the PSC's quality standards. The contractors that have be or will be used is P&J Field Services, Inc., Highway 25W North, Corbin, Kentucky and Gas Line Services P.O. Box 87, Versailles, Kentucky 40383.

The system will be operated according to the requirements of the aforementioned regulations. It is estimated that at no time will the throughput pressure will exceed 75 psi. CitiPower, L.L.C. will perform all necessary functions that pertain to the operation of said gathering system. The operational office will be located at 12 Courthouse Square P.O. Box 1309, Whitley City, Kentucky, 42653. All customer complaints and questionable billings and collections, meter and line maintenance records and all additional manuals and procedures required by the PSC will be handled by this office.

GAS SERVICE CONTRACT

CitiPower, L.L.C. is to provide natural gas to the undersigned customer according to the following terms as stipulated by the Kentucky Public Service Commission Regulation 278.485:

- (1) The gas service shall be furnished at rates and minimum monthly charges determined by the Public Service Commission.
- (2) The Applicant for such gas service, shall construct or cause to be constructed, and shall maintain and keep in good repair, the service lines, and shall provide or install or cause to be installed, and keep in good repair, the necessary automatic gas regulators, and shall pay the entire cost thereof. The Company, at its own expense, shall provide, install and maintain the necessary gas meters.
- (3) The construction of each service line, the installation, type and number of automatic gas regulators and gas meter(s) and the connection thereof with the gas producing well or pipeline shall be under the supervision of the Public Service Commission or an agent thereof; and, shall conform to such standards of safety, location and convenience as may be prescribed by said commission.
- (4) Neither the gas producer nor the gas pipeline company shall be responsible for maintaining any fixed or specified gas pressure. Neither the gas producer nor the gas pipeline company shall be liable for any accident or accidental injuries or damages which may result from any defect or failure of any automatic gas regulator or for any leakage or other defect or failure of any service line installed or constructed by the applicant.
- (5) Nothing in this section shall be construed as requiring any gas pipeline company to serve any such owner of property or applicant from any line(s) that have been held to be subject to federal jurisdiction by order of the federal energy regulatory commission or a court of competent jurisdiction. The provisions of this section shall apply only to producing gas wells and to gas pipelines commonly known as gathering lines.
- (6) Nothing in this section shall be construed to restrict the right of any gas pipeline company to abandon any gas well or any gathering pipeline, or any part thereof, and to remove any such abandoned pipeline(s). If service to any customer is terminated because of lack of gas for a period of six (6) months in a pipeline(s) which serve him, the company shall remove a portion of the main line so as to render it inoperable.
- (7) Subject to the rules and regulations of the Public Service Commission, service may be disconnected and discontinued by the company for non-payment by customer to pay any bill as and when due and payable.
