

Delta Natural Gas Company
Name of Utility

RULES & REGULATIONS

1. COMMISSION'S RULES AND REGULATIONS:

All gas service rendered by the Company shall be in accordance with the "Rules and Regulations for the Government of Gas Utilities" which have been adopted by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

2. COMPANY'S RULES AND REGULATIONS:

In addition to the Rules and Regulations prescribed by the Commission, all gas service rendered shall, also, be in accordance with the following Rules and Regulations adopted by the Company, provided same do not conflict with those of the Public Service Commission.

3. FILING OF RATES, RULES AND REGULATIONS:

A copy of all schedules of rates, rules and regulations under which gas service is rendered is on file for the public's benefit with the Public Service Commission of Kentucky and in the various offices of the Company.

4. APPLICATIONS FOR SERVICE:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the Customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location.

In cases where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for a minimum period of one (1) year.

5. OWNER'S CONSENT TO OCCUPY:

In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's service connection, it shall be the Customer's responsibility to obtain from the property owner or owners the necessary consent to install and maintain in, on or over said premises all such piping and other equipment as are required or necessary for supplying gas service to the Customer whether the piping and equipment be the property of the Customer or the Company.

6. SERVICE DEPOSITS:

The Company may require from any or all Customers as a guaranty or security, a cash deposit in an amount of up to 2/12 of the estimated annual revenue.

The maximum deposit shall be \$15.00 and the minimum deposit \$5.00.

Interest will be paid at the rate of 6% annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original Service Deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

7. ACCESS TO PREMISES:

The Company shall have the right of access to the Customer's premises at all reasonable times for the purpose of installing,

RULES AND REGULATIONS

9. CUSTOMER'S EQUIPMENT AND INSTALLATION:

The Customer shall furnish, install and maintain at his expense the necessary Customer's service line extending from the Company's service connection at the curb or property line to the building or place of utilization of the gas. ✓

All house service-line piping shall be new one inch or larger API-5L black line pipe, mill coated, ExTru coated, or equivalent. The above mentioned line shall be preferably welded. If screwed together, long couplings must be used. Joints and bare fittings must be cleaned, primed and taped, using Royston Roskote primer or equivalent covered with an approved polyethylene tape. N

When connected to bare mains, house service must be insulated at point of connection with distribution main, and at the house meter. Aforementioned insulating units to be furnished by the Gas Company, along with the one pound magnesium anode, which is to be used for cathodic protection. N

A metallic connection must be made when a service line is connected to a coated main, also, insulated at the house meter. No magnesium anode is required in this case. N

Large industrial installations will necessitate consideration of each particular case with a satisfactory solution arrived at by the Company Cathodic Engineer. N

Service lines shall have a minimum cover of twelve inches. On the meter riser proper, the coating shall exceed three inches above the ground level. N

All line must be inspected by the manager or his agent before covering the piping. ✓

The above policy concerns all new service line installations in Delta's entire system. If customer desires the Company to make installation of their service lines, application should be made to the local manager. Prices for company installations are available at the local office, and any questions concerning the above may be answered by the local gas manager. ✓

shall be consulted and its approval obtained before the installation is made.

In the installation of the service line the Customer shall not install any tees or branch connection and must leave the trench open and pipe uncovered until it is examined by an inspector of the Company and shown to be free from any irregularity or defect. The Customer shall not make any change in or interfere with his service line without the written consent of the Company.

In all cases where practical the Customer's service line shall not be installed entering a building underground but shall be brought up out of the ground with a riser and entrance made to the building through the wall or foundation a minimum of six (6) inches above the ground.

The Customer shall furnish, install and maintain at his expense the necessary housepiping, connections and appliances and same shall be installed in accordance with the requirements and specifications of "INSTALLATION OF GAS PIPING AND GAS APPLIANCES IN BUILDINGS" as compiled and approved by the American Standards Association, the National Board of Fire Underwriters, the American Gas Association and other similar bodies on December 5th, 1950 (ASAZ 21.30 - 1950), and any revisions thereof which are herewith incorporated by reference as a part of the Company's Rules and Regulations where applicable and when not in conflict with the requirements of the constituted authorities.

No appliances shall be used which are not of a standard design and which have not been approved by the American Gas Association or a similar or equally qualified agency.

Suitable pressure regulators shall be installed by, or at the expense of, the Customer on all heating appliances and special equipment which have an hourly input of 50,000 Btu or higher; pressure regulators shall also be installed on all appliances with lower inputs where provided or recommended by the manufacturer or

where necessary, at the discretion of the Company, to provide better and safer gas utilization and service.

All of the Customer's service line, piping, connections and appliances shall be suitable for the purposes thereof and shall be maintained by the Customer at his expense at all times in a good, safe and serviceable condition.

The Company shall not assume any responsibility and shall not be held liable in any way for the making of any periodic inspection of the Customer's service line, piping, connections or appliances, or for the Customer's failure to properly and safely install, operate and maintain same.

10. METERING - The gas consumed shall be measured by a meter or meters to be installed by the Company upon the Customer's premises at a point most accessible or convenient for the Company and all bills shall be calculated upon the registration of said meter or meters except as hereinafter provided. If more than one meter is installed for the same or different classes of service at different locations on the Customer's premises, each meter shall be considered separately in calculating the amount of any bills. Meters include all measuring instruments and equipment.

(a) All residences, stores, or other occupied buildings shall have separate meters even if under the same roof, except in cases of multi-occupants under the same roof with a common (T) entrance or within an enclosure where it is unreasonable or uneconomical to measure each unit separately.

(b) When customers are served from high pressure lines, and meters, regulator or regulators and safety devices shall be located as near to the utility's main as is practicable.

11. PROTECTION OF COMPANY'S PROPERTY - All meters, piping and other appliances and equipment furnished by and at the expense of the Company, which may at any time be in

or on Customer's premises shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the Customer shall protect such property from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or to tamper with or damage same.

12. EXCLUSIVE SERVICE:

Except in cases where the Customer has a special contract with the Company for reserve or auxiliary service, no other fuel service shall be used by the Customer on the same installation in conjunction with the Company's service connection, either by means of valves or any other connection.

The Customer shall not sell the gas purchased from the Company to any other Customer, Company or Person, and the Customer shall not deliver gas purchased from the Company to any connection wherein said gas is to be used off of Customer's premises or by persons over whom Customer has no control.

13. POINT OF DELIVERY OF GAS:

The point of delivery of gas supplied by the Company shall be at the point where the gas passes from the pipes of the Company's service connection into the Customer's service line or pipe of the Customer, or at the outlet of the meter, whichever is nearest the delivery main of the Company.

14. CUSTOMER'S LIABILITY:

The Customer shall assume all responsibility for the gas service in or on the Customer's premises at and from the point of delivery of gas and for all the piping, appliances and equipment used in connection therewith which are not the property of the Company, and will protect and save the Company harmless from all claims for injury or damage to persons or property occurring on the Customer's premises

or at and from the point of delivery of gas occasioned by such gas or gas service and equipment, except where said injury or damage will be shown to have been caused solely by the negligence of the Company.

15. CONTINUOUS OR UNIFORM SERVICE:

The Company will endeavor to supply gas continuously and without interruption, however, the Company shall not be responsible in damages or otherwise for any failure to supply gas or for any interruptions of the supply when such failure is without wilful fault or neglect on its part.

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to wilful fault or neglect on its part.

16. MONTHLY BILLS:

- (a) Bills for gas service will be rendered monthly unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive reading of the meter by the Company, such readings to be taken as near as practicable every thirty (30) days.
- (b) Bills are due upon rendition and shall be due and payable within a period not exceeding ten (10) days thereafter.
- (c) Service shall be subject to being discontinued if bills are not paid in full within fifteen (15) days after rendition of bills.
- (d) Failure to receive a bill does not exempt a Customer from these provisions.
- (e) When the meter fails to operate an on the spot settlement will be attempted, if impractical the Customer will be billed on

an estimated basis at the average of three (3) immediately preceding months, or similar months of utilization, and the billing adjusted as necessary when the meter is read.

17. MEASUREMENT BASE:

The rates of the Company are based upon gas delivered to the Customer on a basis of four (4) ounces per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch, or fourteen and sixty-five hundredths (14.65) pounds per square inch absolute pressure, at an assumed temperature of sixty (60) degrees Fahrenheit; provided, however, the Company reserves the right to correct as necessary the actual temperature to a sixty (60) degree F. basis in the cases of large volume industrial customers.

All gas measured at pressures higher than the standard pressure for low pressure distribution systems shall be corrected to a pressure base of fourteen and seventy-three hundredths (14.73) pounds per square inch absolute.

18. CHARACTER OF SERVICE:

The Company will normally supply natural gas having a heating value of approximately one thousand (1,000) Btu per cubic foot and a specific gravity of approximately six tenths (0.6), however, when necessary to supplement the supply of natural gas, the Company reserves the right, at its discretion, to supply an interchangeable mixture of vaporized liquified petroleum gas and air, or a combination of same with natural gas.

19. ASSIGNMENT OF CONTRACT:

The benefits and obligations of any service application or contract shall begin when the Company commences to supply gas service and shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of

the original parties thereto, respectively, for the full term thereof, provided, however, that no application, agreement or contract for service may be assigned or transferred without the written consent or approval of the Company.

When the gas supply has been disconnected for non-payment of bills or other violation of the Company's Rules & Regulations, the service will not be restored at the same location, or connected at another location, for the same or related occupants under a different contract or name when it is evident the change of name is a subterfuge designed to defraud or penalize the Company.

20. RENEWAL OF CONTRACT:

If, upon the expiration of any service contract for a specified term, the Customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

21. CUSTOMER'S DISCONTINUANCE OF SERVICE:

Any Customer desiring service discontinued or changed from one location to another shall give the Company three (3) day's advance notice in person, by phone or in writing, provided such notice does not violate contractual obligations.

The Customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) days time allowed to read the meter and render final bill.

22. COMPANY'S DISCONTINUANCE OF SERVICE FOR CAUSE:

The Company has the right to discontinue service to a Customer for violation of its Rules and Regulations or for non-payment of bills, however, service shall not be discontinued until the Company has diligently tried to induce the Customer to comply with its Rules and Regulations, or has diligently attempted to induce the Customer to pay the bills. **CHECKED** After such efforts on the part of the Company the

RULES & REGULATIONS

service may be discontinued only after at least twenty-four (24) hours written notice of such intention shall have been given to the Customer by the Company.

Where a dangerous condition is found to exist on the Customer's premises the service may be discontinued without notice.

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudulently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the Customer, may require the Customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the Customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the Customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

23. RECONNECTION CHARGE:

A Reconnection Charge of \$7.00 may be made by the Company to cover the cost incurred in reconnecting the meter or service when (a)

- (a) the Customer's service has been disconnected for non-payment of bills or for violation of the Commission's or Company's Rules or Regulations, and the Customer has qualified for and requested the service to be reconnected (b) the Customer's service has been disconnected at his request and at any time subsequently within twelve (12) months is reconnected at the same ^{WO} or any other premises.

This Reconnection Charge to be made by the Company and paid by the Customer before or at the time the service is reconnected shall be an amount as provided for in the applicable General Service Rate approved by the Public Service Commission.

24. MINIMUM BILLING:

- (1) No minimum charge shall be rendered under any condition when a meter has been removed for any cause.
- (2) A minimum charge shall be rendered against every meter in place unless service is discontinued in one customers name, not to be reserved at the location.
- (3) Special permission may be obtained from the local group manager for waiving of minimum charge only when initial service is being rendered and no gas except test gas has been passed by the meter.
- (4) A full minimum charge will be rendered whenever service has been used for more than 15 days of a billing month even if the consumption of the customer is 0.
- (5) If service is used less than 15 days in a given billing month and any consumption is recorded, the full minimum charge shall apply.

25. MOVING CONSUMERS:

When a consumer moves within the service area of the Company he shall be billed out at his original location and billed in at his new location. Therefore he will receive two bills for the month in which the move occurs.

26. REFUSAL OF SERVICE:

The Company will not render service to any Customer unless the Customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the Customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to Customers already connected and being served.

27. NOTICE OF ESCAPING GAS OR UNSAFE CONDITIONS:

Immediate notice must be given by the Customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in the piping and equipment of either the Company or the Customer which are on the Customer's premises.

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the Customer or his agents or representative.

28. TURNING OFF GAS SERVICE AND RESTORING SAME:

The gas service may be turned off at the meter when justified by the Customer or his agent or any constituted authorities but no person, unless in the employ of the gas Company or having permission from the gas Company, shall turn the gas on or restore service.

29. SPECIAL PROVISIONS - LARGE VOLUME CUSTOMERS:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall install and maintain at their expense adequate piping and suitable regulating and control equipment to provide reasonable and practical limitation of intermittance or fluctuation in the pressure, volume or flow of gas, and shall so regulate and control their operations and the use of gas hereunder so as not to interfere with gas service being furnished to them or to any other Customers, or with the proper and accurate metering of gas at their or any other location.

30. SPECIAL RULES FOR CUSTOMERS SERVED FROM TRANSMISSION MAINS:

In addition to the Standard Rules and Regulations the following special Rules and Regulations shall apply to all Customers served directly from high pressure transmission mains.

- (a) All meters, regulators, equipment and connections necessary to serve the Customer from a high pressure transmission line shall be installed on the Customer's premises at or as near the transmission line as is practical. No extension of Company facilities shall be made at Company expense to render service to a transmission Customer.
- (b) Suitable site or location for the equipment owned by the Company or the owner of the line shall be provided and furnished by the Customer without any expense to the Company. The Company shall have the right of ingress, egress and regress to and from this location at any time without any expense or charges from the Customer.

RULES & REGULATIONS

- (c) The Customer's service line extending from the outlet of the meter shall be installed and maintained by the Customer at his expense.
- (d) The Customer shall notify the Company promptly of any leaks in the transmission line or equipment, also, of any hazards or damages to same.

31. CURTAILMENT ORDER:

In case of impairment of gas supply or partial or total interruption and when it appears the Company is, or will be, unable to supply, at any time, the requirements of all its Customers in any system or segment thereof, due to any cause whatsoever, then the Order of Curtailment or Interruption of Service, insofar as practicable shall be:

- Step 1. Deliveries to industrial or other Customers under rate schedules providing for interruptible service and curtailment.
- Step 2. Deliveries to industrial Customers under contracts or rate schedules providing for firm service.
- Step 3. Deliveries to commercial Customers for space heating purposes.
- Step 4. Deliveries to commercial Customers for non-space heating purposes.

When the curtailments or interruptions of deliveries in the above steps fail to provide sufficient gas to meet the requirements of the remaining Customers, the Company shall exercise its best judgment and distribute as equitably as possible the gas that is available, taking into consideration the Customers affected and their gas utilization, the operation of its system and any other factors it deems necessary in the best interests of service, public health and safety.

RULES & REGULATIONS

When the causes or contingencies of the curtailments or interruptions cease to be operative the Company shall restore full service to all Customers as promptly as possible in the reverse order of the curtailments or interruptions insofar as is practicable.

Regardless of impairment of supply or other similar reasons, industrial and other Customers under contracts providing for interruptible service and curtailment will be interrupted or curtailed for "peak shaving" purposes to avoid an increased Maximum Daily Demand in the Company's gas purchases, and for other reasons as justified or necessary in accordance with the provisions of the contract.

The Company will curtail or interrupt these Customers on as equitable a basis as is practicable using its best judgment and taking into consideration its operations and related factors and the operations and gas utilization of the Customers affected.

32. DISTRIBUTION MAIN EXTENSIONS:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one Customer provided the existing mains are of sufficient capacity to properly supply the additional Customers and provided that the Customer contracts to use gas on a continuous basis for one (1) year or more and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per Customer the Company will enter into an agreement with the Customer or Subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the Customer or Subscriber and for a proportionate and equitable refund in the event other Customers are connected to the extension within five (5) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the Customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension.

DELTA NATURAL GAS COMPANY

Name or Issuing Corporation

CLASSIFICATION OF SERVICE

RATE SCHEDULE GS-1-AC DOMESTIC & COMMERCIAL AIR CONDITIONING	SERVICE	RATE PER UNIT
--	---------	---------------

Applicable within the following areas served:
Owingsville, Sharpsburg, Bath County - Camargo, Montgomery County - Frenchburg, Menifee County and environs of each.

This rate is available only for gas consumed by gas fired air conditioning equipment by consumers served normally under Rate Schedule GS-1 and subsequent revisions thereof, and is available only during the Seller's billing months of June through September.

This rate is available only to those consumers who have executed an applicable service agreement with the Seller.

The charge per thousand cubic feet for all gas consumed under this tariff shall be the Seller's current cost of gas to the nearest one-half cent ($\frac{1}{2}\text{c}$) plus ten cents (10c) delivery charge.

All other applicable terms and conditions of Rate Schedule GS-1 shall apply.

IS-1 INDUSTRIAL SERVICE (INTERRUPTABLE)

On December 1 of this year Delta will, as approved by the Commission, go from K.G.T.'s CDS-1 rate schedule to K.G.T.'s SGS-1 rate schedule. This change will mean that there is no longer a demand charge involved in their purchases of gas for this customer. During the past twelve months this customer purchased 5,327 MCF at a commodity cost to Delta, as adjusted to the present level, of \$1,661.00. The demand cost imposed on Delta by this customer was \$211.00, as adjusted to the present level. Therefore the total cost per MCF would be \$.3514. The average revenue on this customer for the same period was \$.52 per MCF.

The margin for this period, to Delta was \$.1686 per MCF, which is only slightly higher than that approved by the consumer in the attached rate. Therefore, the conversion to this rate will, in essence, reflect a slightly reduced margin from this customer.

C 5-2-69

FILED
NOV 19 1959
PUBLIC SERVICE
COMMISSION

November 13, 1959

IS-3 INDUSTRIAL SERVICE (INTERRUPTABLE)

The total gas consumed by this customer during the time that Delta and Delta of Stanton have served him was 1,616 MCF at a commodity cost to Delta of \$504.00 and a demand cost of \$26.00. The total revenue from this customer was \$901.00 for this period. Therefore the margin per MCF was \$.23, over and above the commodity cost only. The rate agreed to by this customer is therefore only a slightly reduced margin to Delta of Stanton.

5-2-69

FILED

NOV 19 1959

PUBLIC SERVICE
COMMISSION

November 13, 1959

CDS-3 CONTRACT DEMAND SERVICE

This rate is identical to that filed on January 19, 1959 designated as GS1-2, with the exception of the technical error in the demand charge recording. The change contained herein has been agreed to by the only customer involved.

The intent of the demand charge was to pass on the identical demand cost to the consumer as imposed on Delta of Stanton by the consumer by virtue of the contract quantity. At the time of the execution of the contract the demand charge was \$2.00, but to provide for escalation for both the demand cost and the commodity cost, this change in recording was made.

RATE SCHEDULE IS-3A SEASONAL INDUSTRIAL SERVICE (INTERRUPTABLE) RATE PER UNIT

Applicable within the following areas served:

Stanton, Powell County and environs.

Industrial use of gas by the customer under this rate schedule is completely prohibited from January 1 through March 15 and December 1 through December 31 of each calendar year.

This rate is available only to those organizations that are primarily involved in the producing of a product for sale to the general public and who has executed an applicable service agreement with seller.

The minimum charge for service under this rate is \$500.00 per month, applicable each and every month of the year. This charge does not entitle the customer to any gas whatsoever, but is a service charge only.

The charge per thousand cubic feet for all gas delivered shall be the seller's current commodity cost of gas to the nearest one-fifth cent plus a maximum of five and five tenths cents (5.5¢) delivery charge.

The maximum allowable daily consumption under this rate shall be 500 MCF.

The Company recognizes that its primary obligation is to the domestic and commercial consumers, therefore all gas delivered under this rate shall be subject to interruption only
