RECEIVED PUBLIC SERVICE COMMISSION MAR 3 1 1965 by R.D. ENGINEERING DIVISION

Conformed Excerpt from the Public Service Commission's Order Dated November 26, 1957, in Case No. 3300

The rates authorized herein (Case No. 3300—November 26, 1957) are based upon the wholesale cost of gas to the Applicant (Louisville Gas and Electric Company) as computed upon rates of its wholesale suppliers then currently in effect under Federal Power Commission tariffs for interstate business or under wholesale tariffs of this Commission. For the purpose of this purchased gas adjustment clause, these rates shall be considered as the base rate for purchased gas. In the event there is any change in this base rate, either increase or decrease, the Applicant (Louisville Gas and Electric Company) shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rates and a statement relative to the effective date of such proposed change.
(2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
(3) A balance sheet as of the end of the twelve months period and a statement of operating expenses and revenues in the same detail as reported to this Commission in the Utility's Annual Report.
(4) A forecast showing the estimated gas purchases from all of the Utility's contract suppliers for the next twelve months period together with an estimate of the cost thereof.
(5) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information this Commission will review the effect of the revised base rate on the operations of the Applicant (Louisville Gas and Electric Company) and will prior to the effective date of the revised base rate, but not less than thirty days from date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the utility shall apply to its rates and/or such refunds as may be proper.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve months period, greater than the difference between the purchased gas billed at the then existing rate and the purchased gas billed at the revised rate.
