RULES AND REGULATIONS

The utility may terminate service for nonpayment of tariffed charges after a five- (5) day written notice of intent to terminate. Service will not be terminated before twenty (20) days after the mailing date of the original bill. If a medical certificate is presented service will not be terminated for thirty (30) days beyond the termination date.

If the customer has been given proper notice and fails to pay the bill, the utility will first attempt to have water service shut-off at customer's location through cooperation with the utility providing water service at the customer's location. If water service is shut-off, the customer will be subject to any and all appropriate charges imposed by the water utility for disconnection and reconnection of service. These charges will be billed by and paid to the water utility.

If the water utility does not cooperate with the aforementioned process, then the sewer utility will be forced to disconnect the sewer service. The amount of the charge to be assessed when the sewer utility disconnects service for non-payment of service shall be the actual cost the sewer utility incurs to disconnect the sewer service. The customer shall be given a billing summary itemizing the amounts of the bill for disconnection.

Once the sewer has been disconnected, the local health department will be notified to declare the residence uninhabitable.

The sewer utility may file a complaint in court against a customer with a delinquent account and may request in its complaint that all court costs be included in any judgement amount awarded to the sewer utility.
