Water District, hereinafter called the "District."

WITNESSETH

Whereas, the user desires to use the sewer services of the District,
and to enter into a sewer users agreement as required by the Bylaws of
the District.

NOW THEREFORE, in consideration of the mutual covenants, promises,
and agreements herein contained, it is hereby understood and agreed by
the parties hereto as follows:

The District shall furnish, subject to the limitations set out in
its Bylaws and Rules and Regulations now in force or as hereafter amended,
a sewer system in connection with users occupancy of the following
described property:

SECTION 9(1)

The user agrees to grant to the District, its ~~successors and assigns~~
a perpetual easement on the above described property ~~BY~~ ^{*Public Service Commission Manager*}
constructing and installing sewer line and appurtenant facilities; and
thereafter for the purpose of operating the sewer system; and also use
adjoining land for the purpose of ingress and egress from the above
described land.

Wastewater effluent discharge into the public sewer system shall only
be made through an approved septic tank maintained by the District.

Connection Fees

- A. Each domestic and commercial applicant for public sewer service will be required to pay a connection fee of \$300.00, plus all costs and other expenses incident to installation of the "building sewer", including septic tank. The connection fee shall be paid to the District at same time application for "building sewer" permit is filed.
- B. However, said connection fees and the septic tank portion of building sewer cost will not be required for connections made as a part of the basic public sewer construction contract, and the user connects to the public sewer. The user shall commence to use the sewer services upon notice that the sewer service is available.

The user agrees to comply with the Bylaws, Rules and Regulations of the District, now in force, or hereinafter duly and legally supplemented, amended or changed. The user also agrees to pay sewer charges at such rates, time and place as shall be determined by the District, and agrees to the imposition of such penalties for noncompliance as are now set out in the District's Bylaws and Rules and Regulations, or which may be hereafter adopted and imposed by the District. The monthly rates will be reasonable and the user shall comply with all rates, rules and regulations of the District which are approved by the Public Service Commission of Kentucky.

The District shall have final authority on any questions of location of any service line connection to this sewer system; and may shut off water to a user who allows a connection or extension to be made to such sewer lines for the purpose of supplying sewer service to another user.

The user shall install and maintain, at user's expense, service lines on users property and all other devices necessary to deposit user's sewage into the District's sewer. Service line material and installation must be in accordance with the State Plumbing Code as administered by the Division of Plumbing, Department of Housing, Building and Construction. All work is to be inspected by a representative of the District before the service line is backfilled. The user shall keep the service line and appurtenance in good working condition at all times and keep any infiltration from entering the service line. The user shall not deposit sewage in such a manner as to cause unusual fluctuations or disturbances to District's system. The District will use reasonable diligence in supplying sewer services, but shall not be liable for breach of contract in the event of injury, damage to persons or property, or for loss resulting from interruptions in service. The service connection supplied by the District for the user has a definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of the District. Failure to give notice of additions or changes in load and to obtain the District's consent for same, shall render the user liable for any damage to any of the District's lines or equipment caused by the additional or changed installation.

SECTION 9 (1)

BY: Chas. D. Hall

The user shall connect sewer service lines to the District's sewer system and shall commence to use sewer services of the system on the date sewer service is made available to the user by the District. Sewer user charges to the user shall commence on the date service is made available, regardless of whether the user connects to the system.

It is mutually understood and agreed upon that the failure of a user to pay sewer service charges duly imposed shall result in the automatic imposition of the following penalties:

1. Nonpayment within ten days from the date will be subject to a penalty of ten percent of the delinquent account.
2. Nonpayment within thirty days from the due date will result in the water being shut off from the user's property.
3. In the event it becomes necessary for the District to shut off the water from a user's property, a fee of \$20.00 will be charged for a reconnection of the service. The user will also be required to pay all delinquent accounts and pay the minimum sewer and water bill for the time the water meter was disconnected, unless otherwise agreed to in writing.

If the sewer system is constructed, and the user's property covered by this Agreement is not reached by the District's sewer line, the connection fee will be fully refunded to the user. Construction of sewer lines to serve the property covered under this Agreement depends upon feasibility, availability of funds for construction and approval of all local, State and Federal agencies having jurisdiction over this type of facility.

THE DISTRICT DOES NOT GUARANTEE SEWER SERVICE TO THE USER.
