A100. OBSOLETE SERVICE OFFERINGS - GENERAL

A100.1 General

- A. Service offerings listed herein are classified as obsolete. Conditions applicable to these offerings are set forth in paragraphs following.
1. Basic local services
Coding to indicate those classes of basic local service which are not offered at all or which have been obsoleted *may be* shown in Section A3. of this Tariff with appropriate footnotes. The footnotes are keyed to the specific exchanges to which they apply. (C)
 2. Service offerings which have been made obsolete (other than *those shown in Section A3*) are classified according to the categories shown following: (T)
 - Type A - Not offered for new installations on and after the specified obsoleted date; any available units used only for additions to existing service at the same location.
 - Type B - Not available for new installations, additions or on transfers of service to new location.
 - Type C - Unit no longer being manufactured; offered for new installations only as obtainable from existing stock.
 - Type D - Any other arrangement; the specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.
- B. Obsolete services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offering were not obsolete. For convenience in use, a Tariff Reference is provided as an aid in referring the reader to a specific Section of the tariff having a bearing on the obsolete service offering.
- C. Unless additions are specifically provided for in the obsolete offering, rates and charges for all equipment which is ordered subsequent to its becoming obsolete will be based on estimated costs. However, when the same or a similar equipment is a current tariff offering, then the current tariff rate or charge applies instead. Regular service charges apply in addition.
- D. Items of equipment which are continued in service for existing customers only may be retained by a customer as long as the equipment is repairable and the Company is able to obtain repair parts under normal supply conditions. When this equipment becomes unrepairable or repair parts are unobtainable, the service will be discontinued and the equipment removed by the Company.
