2.10 Payment of Charges

For the purpose of billing, the start of service is the day of acceptance by the Customer of the Carrier's service.

All recurring charges which are determinable in advance, including minimum charge, are billed monthly in advance. Charges based on actual usage during a month will be billed monthly in arrears. Installation and other nonrecurring charges are payable upon demand by Carrier. Subscriber will be billed for all usage accrued beginning immediately upon access to the service. For the purpose of computing charges, a month is considered to consist of 30 days.

When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month service was furnished may be calculated on a pro rata basis. For this purpose, every month is considered to have thirty (30) days.

2.11 Late Payment Charge

Customer bills for telephone service are due when they are rendered. A Customer is in default unless payment is made on or before the due date specified on the bill.

If payment is not made within 20 days of the date of the bill, a late payment charge of 1.5% (unless a lower rate is prescribed by law) per monthly billing period will be applied to all amounts previously billed under the Company's tariff(s).

2.12 Disputed Bills

The Customer shall give the Carrier prompt written notice of any disputed charges appearing on an invoice. After receiving notice of a dispute, the Carrier shall take reasonable steps to resolve such disputes. The Customer shall pay all non-disputed charges while resolution of the disputed charges is pending.

In the event that legal action is instituted by Carrier to recover any sums then due and Carrier prevails, Carrier shall be entitled to recover its costs of collection, legal costs, court costs and reasonable attorneys' fees, in addition to whatever other relief the court may award. Any sums then due shall earn interest at the rate of 1.5% simple interest per month (unless a lower rate is prescribed by law, in which event at the highest rate allowed by law), from the date these sums were accrued until the entire debt is paid in full. The Carrier will make no refund of overpayments by a Customer unless the claim for such overpayment together with proper evidence be submitted within one year of the date of alleged overpayment.

2. REGULATIONS (Continued)

2.17 Credits (Continued)

4. Credit is computed by multiplying the monthly rate for the service by the ratio that the number of hours (including fractional parts calculated to the nearest tenth of an hour) in the period of interruptions bears to 720. (For the purpose of this computation, each month shall be considered to have 720 hours). The monthly bill on which the credit will be based for message service shall be the nonusage sensitive billing for the month during which the interruption occurred. An interruption is measured from the time the Carrier detects trouble, or the Subscriber notifies the Carrier of the interruption by an expeditious means, until the trouble is cleared. Each interruption is considered separately for purposes of establishing credit allowance.

2.18 Special Customer Arrangements

In cases where a Customer requests special arrangements which may include engineering, installation, purchase or lease of facilities, and/or other special services not offered under this tariff, Carrier, at its option, will provide the requested services. Appropriate recurring and/or nonrecurring charges will be developed accordingly and filed with the Department for tariff approval.

2.19 Connection with Other Communications Services

A Subscriber may connect communications services provided by other duly authorized and regulated common Carriers to Carrier's service. A Subscriber may also connect with privately owned communications systems, subject to the technical limitations established by Carrier.

2.20 Returned Check Charge

A \$10.00 fee will be assessed for all checks returned by the drawee bank for: insufficient or uncollected funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank.

2.21 Special or Promotional Offerings

From time to time, the Carrier may provide certain special or promotional offerings to introduce a current or potential Subscriber to a service not being used by the Subscriber. These offerings may be limited to certain dates, times or locations and may waive or reduce recurring or nonrecurring charges. All such promotions will be filed with the Department for tariff approval.

.18 Direct Inward Dial (DID) Service

DID Service is an optional feature which can be purchased in conjunction with Company-provided PBX Trunks. DID Service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number. Charges for DID capability and DID number blocks apply in addition to charges specified for PBX trunks. One additive charge applies for each DID-equipped PBX trunk. Telephone numbers are only furnished in blocks of 20 numbers. Blocks of number groups will be determined at the sole discretion of the Company's resources. Whenever possible, the Company will attempt to provide telephone numbers arranged consecutively in a group, but will not guarantee nor accept responsibility for provision of such an arrangement within or between a block of 20 numbers. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine efficient telephone number utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers.

The Customer has no property rights to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or the end office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business.

Where all numbers in a number group have not been connected for service, the Customer is responsible for providing interception of calls to vacant or non-working assigned station lines or telephone numbers by means of attendant intercept or recorded announcement service. The Company will not terminate these numbers to an intercept message on the Customer's behalf.
