DIRECTORY LISTINGS

(C)

F.1. General

The alphabetical section of the telephone directory consists of a list of names of end users in alphabetical order and is designed solely for the purpose of informing calling parties of the telephone numbers of end users and those entitled to use the end user's service as an aid to the use of the telephone service. Any restrictions, changes or additions are provided for in this section.

F.2 Conditions and Limitations

- a. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory.
- b. The company has the right to limit the length of any listing to one line in the directory by the use of abbreviations when the clearness of the listing or the identification of the customer is not impaired thereby.
- c. A listing must conform to the Company's specifications with respect to its directories.
- d. Listings are regularly provided in connection with all classes of exchange service except public telephone service.
- e. The length of the contract period for directory listings where the listing actually appears in the directory is the directory period. The directory period is from the day that the directory is distributed to the customers to the day the succeeding directory is distributed to the customers, unless the listing no longer services the customer because of disconnection, removal, etc., of the service, the minimum contract period will be for at least 30 days. When the listing appears on information records only, the minimum contract period will be for at least 30 days.
- g. The Telephone Company shall not be liable for damage claimed on account of errors in or omissions from its directories; nor for the result of the publications of such errors in the directory; nor will the Telephone Company be a party to controversies arising between end users or others as a result of listing published in its directories.
- h. In cases of extra listing in the alphabetical section of the directory for which a charge is made, the Telephone Company's liability shall be limited to cancellation of the charges and refunding of any charges to the customer in question.
- i. Listings are furnished only as specified for the various services mentioned in this section. Listings which, in the opinion of the company, are not necessary in connection with any services or facilities not specifically mentioned in this section are not furnished either with or without charge.

DIRECTORY LISTINGS

(C)

F.3. Primary Listings

A Primary Listing, which may include the name, address and telephone number of the individual, organization, firm or corporation for whom the service has been contracted will be furnished at no charge.

- a) Listings will be limited to such information as is necessary for the proper identification fo the customer.
- b) The length of a listing may be limited to the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.
- c. The Company may refuse to insert any listing, which in its judgment does not facilitate the use of the directory.
- d) Primary business listings must be the name under which the subscriber is conducting business.
- e) Business listings may include a designation descriptive of the business or profession if the name does not indicate the nature of the business.
- f) Titles are permitted in business or residence primary service listings where required for the purpose of identification.

When two or more main station lines or private branch exchange trunk lines are consecutively operated, the first number of the group is considered the primary listing. Where two or more main station lines or private branch exchange trunk lines are consecutively operated, a primary listing may be made for each line. DID trunk numbers and trunk hunting lines listed will be charged the applicable listing charges for regular or additional listings.

F.4 Additional Listings
General

- a) Additional listings for which a charge is made, are available to business and residence customers and are subject to the same regulations as Primary listings.
- b) Additional listings must bear the same address and telephone number as the primary or regular listing. An exception to this may be made in the case of off-premises access lines that are located in other premises solely occupied by the customer, in which case, a different address may be listed. This exception is not permitted when the off-premise access line is located in the residence of an employee of the customer.

DIRECTORY LISTINGS

(C)

F.5 Non-Published and Non-Listed Numbers

a). General

At the request of the customer, a listing or listings (including name, address and telephone number) may be omitted or deleted from the telephone directory. The divulgence of the customer's telephone number to the public is dependent upon the type of service provided.

1. Non-Published Numbers

The customer listing is omitted or deleted from the telephone directory. Only the name and address of the customer will be carried in the telephone company records, and the number will not be given to any calling party.

2. Non-Listed Numbers

The customer listing is omitted or deleted from the telephone directory, but such listings will be carried in the telephone company information records and the number will be given to any calling party upon request.

b) Regulations

1. The Company shall not be liable should a non-listed or non-published telephone number be divulged inadvertently. When a non-published or a non-listed number is inadvertently published in a directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges that the customer has incurred for such service.

F.6 Rates

- a) Listing charges date from the day information records are posted and are payable in the same manner as are charges for exchange service.
- b) All listing charges are automatically discontinued upon the termination of the main service. Charges for additional listings are also discontinued when, (a) the listed party dies, (b) when the listed party subscribes for similar exchange service, and/or (c) when the listed party moves from the premises at which the exchange service is furnished. The minimum charge for additional listings is the amount of such charges for one full directory period.
- c) The following monthly charges may apply:

	<u>Monthly Rate</u>	
1. Additional Listing, per listing ¹	\$1.00	
2. Non-Published Number, per listing	\$2.25	(l)
3. Non-Listed Number, per listing	\$1.00	

¹ Includes Alternate listings, Duplicate Cross Reference listings, Shared Tenant, Temporary, Office Hours, Dual Name, Indented & Caption listings.

PAYSTATION SERVICE

G.1 PAYSTATION SERVICE

G.1.1 GENERAL

Paystation Service provides telephone service to a customer-leased or owned paystation with or without coin collecting devices. A Paystation Access Line permits providers of such service to provide pay telephone service to the public.

G.1.2 DEFINITIONS

Coin Supervision - Provides signaling capability from the central office for paystations that do not have signaling capability within the telephone. This signaling capability provides operators and/or operator systems coin control.

Customer - For the purposes of this tariff, the customer is the Paystation Service Provider.

Network Interface Device - A company-provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the customer. For the purposes of this tariff, the network interface device will be installed at a location mutually agreed upon by the customer and the Company.

Originating Line Screening (OLS) - Enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned paystations, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available.

Paystation Access Line - A basic coin transmission dial tone line. It is a line side connection from the local exchange switch to the point of demarcation at the customer premises.

Selective Class of Call Screening - Enables the customer to restrict outgoing operator-handled calls, placed over the Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card. Selective Class of Call Screening will be provided at the customer's option, where such facilities are available.

G.1.3 RULES AND REGULATIONS

1. Paystation Service will be considered a business service for the purpose of applying the terms, rates and conditions found elsewhere in this tariff.
2. Only one paystation instrument may be connected to each Paystation Access Line. Off-Premise Extensions are not permitted.

3. The customer shall be responsible for the installation, operation and maintenance of any paystation instrument used in connection with this service.
4. Requests to Directory Assistance Service originated from paystations will be charged the applicable rate of the Directory Assistance Service Provider.
5. Directory listings may be provided under the regulations that govern the furnishing of listings for business customers.
6. Coin-free operator and emergency 911 access must be available from all paystations.
7. One directory will be distributed to the customer without charge for each paystation business exchange line.
8. The customer is responsible for the provision of booths, shelves, directories and all other ancillary equipment.
9. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls. The Company shall not be liable for shortages of coins collected and deposited at the customer's paystation instrument.
10. The Company reserves the right to disconnect service when the customer does not comply with the F.C.C. and state rules and regulations related to paystation service and equipment.
11. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all paystation access lines.

H1.1 Rules and Regulations (Continued)

- G. The customer shall be responsible for providing interception of calls to vacant and nonworking assigned DID numbers by means of attendant interce3pt or recorded announcement service.
- H. DID numbers are provided in blocks consisting of a minimum of 20 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block. The Company will be responsible for interception and administration of reserved numbers.
- I. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

FOREIGN EXCHANGE SERVICE ⁽¹⁾ (C)

I.1 DEFINITION

Foreign exchange service is exchange service furnished to a customer from an exchange other than one from which the customer would normally be served.

I.2 REGULATIONS

1. Foreign exchange service is not in accord with the general plan of furnishing telephone service and such service is furnished only under conditions where warranted by the circumstances involved and provided facilities are available.
2. The service is furnished in connection with individual access line service or key system/private branch exchange service only.
3. The service is furnished subject to the same conditions and restrictions as to the use of the service by others than the customer and his/her representatives as applies in connection with other classes of basic local exchange service.
4. All negotiations for the establishment of foreign exchange service will be initiated by the prospective customer with the exchange from which he/she would normally receive service, and the customer will be required to contract for local service in this exchange.

I.3 CONDITIONS

1. When the service involves exchange areas not served by this Company, its establishment will depend on the ability and willingness of the other company to provide and maintain the required lines and apparatus that fall within its territory.

(1) This service is grandfathered to existing customers effective September 3, 2015. The service will not be available to new customers after this date. (C)

FOREIGN EXCHANGE SERVICE ⁽¹⁾ (C)

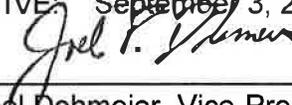

1.3 CONDITIONS (Continued)

2. All rates and charges imposed by the other participating company will be in addition to those that apply to this Company's facilities. All such charges will, however, be paid by the Company and incorporated in the statement issued to the customer so that only one monthly bill will be used for the overall facilities.
3. Miscellaneous services, equipment and facilities used in connection with foreign exchange service are furnished subject to the rates and regulations applying in the foreign exchange from which the customer is served. This also includes service connection, move and change charges.
4. The Company's accepted method for serving subscriber to Foreign Exchange Service is by use of our Central Office and existing distribution plant. Connection with the foreign exchange will be facilitated by a route from central office to central office. The Company will not provide or permit provision of foreign exchange service by the extension of distribution plant across exchange boundaries.
5. In accordance with PSC order dated February 21, 1981, Administrative Case 218, the Company will no longer provide or permit Foreign Exchange Service by extension of local exchange facilities "cross-boundary", the Company, also recognizes that it has a responsibility to continue serving existing Foreign Exchange customers served in this manner. Since rates and charges for Foreign Exchange assumes a proper serving method, those "grandfathered" Foreign Exchange customers will be charged Foreign Exchange mileage from their residence to the point of connection with the serving company. Customers who presently have Foreign Exchange service under these arrangements are "grandfathered" only at their existing premises. The Company will deny re-establishing this form of Foreign Exchange if the customer discontinues service or relocates service to another premise.
6. All Foreign Exchange Service, whether terminating in the Companies territory or served solely within its boundaries, will require a terminating agreement for a period not to exceed six months. (M)
7. Installation charges for Foreign Exchange service are in addition to the service charges in Section V. (M)

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)
PRIMARY RATE INTERFACE (PRI) ⁽¹⁾

(C)

A. GENERAL DESCRIPTION

Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) is a local telecommunications service that provides customers who have PBX or PBX-like equipment to transmit circuit switched voice and data simultaneously over the same digital facility. Primary Rate services are delivered over a channelized 1.544 Mbps DS1 carrier (T1 facility).

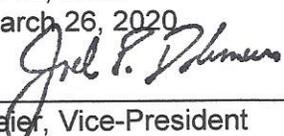

B. PRIMARY RATE INTERFACE (PRI) SERVICE ARRANGEMENT

1. The ISDN-PRI arrangement provides a total of twenty-four digital communications channels within a single physical facility. Twenty-three of these channels are called Bearer, or B Channels. The other channel is called the Delta or D Channel. This standard PRI configuration is referred to as 23B+D.
 - a. **B Channel** - The B Channel is a bi-directional synchronous channel capable of supporting digital transmission speeds of 64 kilobits per second (kbps). Each B Channel of a PRI may carry Circuit-Switched Voice or Circuit-Switched Data.
 - b. **D Channel** - The D Channel is a 64 kbps digital channel that carries signaling and control for the B Channels associated with a PRI arrangement.
2. **Multiple PRI Arrangement** – For applications which require more than 23 B Channels, multiple PRI facilities can be assigned to a PRI arrangement. With a multiple PRI arrangement, the D Channel in the first PRI facility is used for signaling for all PRI facilities. The first PRI would be configured as 23B+D and the other PRIs would be configured as 24B. This use of Non-Facility Associated Signaling (NFAS) allows the overhead of the D Channel to be distributed over multiple PRI facilities, thereby increasing channel efficiency.
3. **D Channel Backup** - In Multiple PRI Arrangements, a second D Channel can be assigned (where available) as an automatic backup to the primary D Channel. This is available when more than one PRI is provided to the same customer in order to provide redundancy of the signaling channel.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

C. CIRCUIT SWITCHED SERVICES

Circuit Switching is a switching arrangement in which an entire circuit or B Channel is dedicated to a given call. The circuit is connected on a per call basis and can carry circuit-switched voice or circuit-switched data.

1. **Clear Channel Capability** - Clear Channel Capability allows the full bandwidth on the "B" channel (64 kbps) to be available to the customer with no constraint on quantity or bit sequence. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 kbps.
2. **Dedicated Trunk Groups** - The B Channels of a PRI can be dedicated for calls to and from the public network including: Incoming, Outgoing, 2-way, Direct Outward Dialing (DOD) or Direct Inward Dialing (DID).
3. **Call-By-Call Service** - Call-By-Call (CBC) feature offers access to additional services such as Foreign Exchange and Tie Trunks via the B Channels of an ISDN-PRI. With this feature, any B Channel on the PRI can be used to offer the above services on a per-call basis in addition to trunk calls to/from the public network (i.e., DOD/DID).
4. **Multiple Directory Numbers** - Each PRI includes an individual directory number. Additional directory numbers, a range of Direct Inward Dial (DID) directory numbers, or several ranges of DID directory numbers can be optionally added.
5. **Advanced Calling Services** - ISDN-PRI can support access to the following Advanced Calling Services (also called CLASS services) from suitably equipped CPE:
 - a. **Caller ID - Basic**- This feature allows the central office and the customer's equipment to communicate the calling party's directory number on calls carried by the Primary Rate service. The number can then be made available to be displayed on a properly equipped telephone set or adjunct equipment.
 - b. **Caller ID - Deluxe** - This feature allows the central office and the customer's equipment to communicate the calling party's name and number on calls carried by the Primary Rate service. The name and number can then be displayed on a properly equipped telephone set or adjunct equipment. If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID-Deluxe subscriber.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

(C)

D. REGULATIONS AND CONDITIONS

- 1. Unless specifically exempted, ISDN services shall be subject to all general regulations applicable to the provision of service by the Telephone Company as stated in the general tariff.
- 2. ISDN-PRI is provided at the option of the Company. These services are furnished subject to central office switching capacity, capability, and the availability of outside plant facilities.

The availability, functionality, and capabilities of ISDN-PRI may vary, or may not be available, dependent upon type of serving central office switch, related software controlling that switch and associated outside plant.

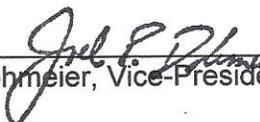

- a. Where facilities are not available, or unusual expenditures are involved in making them available, the customer may be required to pay additional charges to cover the unusual expenditure, or to contract for services beyond the normal service term, or both.
- b. Mileage Charges: Provision of the underlying PRI Access facility (T1) is mileage sensitive. As such, additional mileage charges may apply.
- c. If a customer requests a special service or feature not specified in this tariff, additional rates for that service or feature may apply.
- 3. The minimum charge period for services provided under this tariff is one month.
- 4. The customer may choose to pay for the service on a month to month basis or with a 36 or 60 month term agreement.

36 months.....	\$650.00
60 months.....	\$600.00
- 5. Suspension of service is not allowed.
- 6. One directory listing is provided without charge for each ISDN-PRI arrangement. Additional listings may be provided as specified for Additional Listing Service in the Rates & Charges section of this ISDN-PRI tariff.
- 7. Normal toll charges shall apply to calls that are made outside of the Local Service Area.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

8. Customer Premises Equipment (CPE):
- a. This tariff does not include terminal equipment on the customer's premises. Terminal equipment may be covered under a separate tariff, sold or leased separately by the Telephone Company (under a separate contract), or may be provided by the customer. The CPE must be compatible with the Company's ISDN-PRI offering.
 - b. The Telephone Company shall not be responsible for changes in any of the equipment, operations, or procedures of the Company utilized in the provisioning of ISDN services, which render any facilities provided by the customer obsolete or require modification of such equipment or system, or otherwise affect its use or performance.
 - c. The customer is responsible for providing the power required for any and all CPE connected to an ISDN-PRI.
9. The Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure, or malfunctions of ISDN services or associated equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.
10. Service Establishment Charges do not apply for the establishment of the Communication Channels when the customer signs an agreement to subscribe to ISDN-PRI for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 or 5 year agreement, the customer will incur a disconnection charge equal to the Service Establishment Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace ISDN-PRI service.

- (1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

CENTREX SERVICE

L.1 General

- L.1.1 Centrex Service is a premium service offered only where appropriate central office and outside network facilities exist. The company reserves the right to refuse a request for Centrex Service based on availability of Central Office or Outside Plant Facilities.
- L.1.2 Centrex is provided in association with individual line business and residence exchange services. Centrex is not provided in association with public or semi-public pay telephone service.
- L.1.3 All lines will include the below itemized services and features as part of the monthly rates.
- i. TouchTone
 - ii. Call Forward - Variable
 - iii. Call Hold
 - iv. Call Transfer (Internal) with Three-Way Calling
 - v. Directed Call Pick-up
 - vi. Speed Dialing - Eight Numbers
- No discount is given on a line if any of the above are removed from any or all lines.
- L.1.4 All lines in a Centrex group must have the same billing arrangement, i.e., either flat rate or measured services (where offered).
- L.1.5 Suspension of Centrex lines is not allowed. Vacation and Seasonal rates do not apply to Centrex Service.

M.2 RELOCATION FORWARDING SERVICE

(N)

M.2.1 GENERAL

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customers premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

M.2.2. CONDITIONS AND LIMITATIONS

- a) RFS service is offered subject to availability of suitable facilities.
- b) RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.
- c) Only one call will be forwarded at one time. Another call will not be sent through until the previous call is completed.
- d) Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.
- e) One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.
- f) The minimum service period is one month.
- g) RFS service is not offered where the terminating station is a coin telephone.
- h) Service is not available on ported numbers or to Internet Service Providers.

M.3 Rotary Line Service

M.3.1 General

Any individual lines arranged for rotary, level hunting or similar service which allows an incoming call to a line that is called to be completed over another line by means of central office equipment will be classed as rotary lines. Lines used as trunks to PBX are not classed as rotary lines. Rotary main service is restricted to a single premises.

M.3.2 Rates

Monthly Rate

- Key Trunk w/ Rotary Hunt Service (Section C) *
- Business or Residential One Party - Rotary Line Service
Additional Charge per Line \$3.00

* As set forth in Section C, Local Exchange Service Rates.

M.4 Suspension of Service

M.4.1 General

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

M.4.2 Conditions

1. Service can be temporarily suspended for a minimum of one (1) month. (D)
2. Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities. (D)
3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service. (D)
4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
- 7.

M.6. OPERATOR SERVICES

(N)

M.6.1. General Description

Operator Services allow customers to complete calls within the local calling area with the assistance of an operator. The Customer dials "0" or "0+ NXX LINE" to get the operator. Charges include a per-call rate as well as a per-minute rate.

M.6.2 Definition of Calls

- A. Billed to Third Number
When the Customer dialing the Operator requests the call to be billed to a third-party. The third party will need to accept the charges before the caller and the called party can be connected.
- B. Collect Calls
When the Customer dialing the Operator requests the call to be billed to the called number.
- C. Person-to-Person
When the Customer requests the Operator to complete the call to a specific telephone number and in addition requests to speak to a specific person, department, extension of an office, etc. Once the requested person, department, extension, etc. joins the call, the Operator will connect the call.
- D. Station-to-Station
When the Customer requests the Operator to complete the call to a specific telephone number and is willing to speak to whoever answers the called number.
- E. Call Completion
When the Customer requests the Operator to complete the call to a called number. This charge is in addition to other charges that may be assessed.

M.6.3. Terms and Conditions

- A. Operator Services are available 24 hours, 7 days a week. Rates apply to any time of the day and any day of the week
- B. Qualified customers with disabilities will not be assessed the charges
- C. This service is not available on payphones.

M.6.4 Rates

Mc.1 DIGITAL TRANSPORT SERVICE⁽¹⁾

(C)

Mc.1.1 General

Digital Transport Service (DTS) provides customers with a more cost-effective option to deliver voice grade service from the serving Central Office to a customer's premises. DTS is only provided with a DS1 Channel (1.544 Mbps) as provisioned in the Local Private Line tariff. DTS supports Direct Inward Dialing (DID) Service, Dedicated 800 Service, and Local Exchange Business Trunks. The primary users of this service include Internet Service Providers and owners of PBX Systems.

Mc.1.2 Definitions

DS0 - One voice grade circuit. This circuit generally has a 64 Kbps transmission speed.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Mc.1.3 Regulations

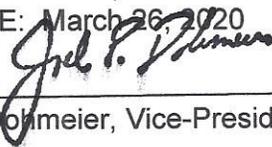

1. DTS is subject to the availability of central office equipment and appropriate outside plant facilities.
2. The rate structure for DTS requires charges for Trunk Terminations, DS1 facility, Digital Interface Termination and Subscriber Line Charges (SLC).
3. The Digital Interface Termination rate is available on a month to month basis or under variable rate periods with rates based on lengths of 12 months, 36 months and 60 months.
4. The total number of Trunk Terminations activated by the customer may not exceed the capacity of each DS1 facility.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

(C)

Mc.1.3 Regulations (Continued)

- 5. Additional charges for Central Office services and features such as Direct Inward Dialing (DID) Service are applicable when appropriate, as specified elsewhere in this tariff.
- 6. Calls will be subject to any applicable usage charges for services provisioned on the DTS channels. Message Telecommunications charges will apply to calls outside the Local Service Area.
- 7. Touch-tone signaling is required for DTS.
- 8. Unless specifically exempted, DTS is subject to all general regulations applicable to the provision of service by the Company as stated in the general tariff.
- 9. As a result of any interface or technical changes required of the Company due to the possible future adoption of FCC rules under Part 68, the Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of DTS render any customer premises equipment provided by a customer obsolete or require modification or alteration of such equipment or systems or otherwise affect its use or performance.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.

N.1

REGULATIONS

Customer-provided communications systems may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided communications systems will be constructed, maintained and operated as to work with the facilities of the Company, and to meet all published standards of the Federal communications Commission (FCC).

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon the consent of the Company.

Where telecommunications service is available under this tariff for use in connection with customer-provided communications systems, the operating characteristics of such equipment, wiring or system shall be such as not to interfere with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment, wiring or system does not endanger the safety of Company employees of the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment, wiring or system is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such interference.

N.1 REGULATIONS (CONTINUED)

The customer shall be responsible for the payment of Company charges in Section D, "Maintenance of Service Charge", for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment, wiring or system.

The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems. Telecommunications service is not represented as adapted to the use of customer-provided equipment, wiring or systems and where such are connected to the Company facilities the responsibility for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service; subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment, wiring or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment, wiring or systems.

The Company shall not be responsible to the customer if changes in the criteria outlined herein or in any of the facilities, or procedures of the Company render any customer-provided equipment or communications systems inoperable or otherwise affect its use or performance.

The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or connection with the use of facilities of customers and not caused solely by the negligence of the Company.

N.1

REGULATIONS (CONTINUED)

Where any customer-provided equipment, wiring or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment, wiring or system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in termination of the customer's service.

Customer-provided systems which serve a location which the Company considers impracticable to serve because of hazard of inaccessibility may be connected with Telecommunications service by means of connecting equipment furnished by the Company.

The customer indemnifies and saves the Company harmless against claims for infringement of patents rising from combining such equipment, wiring or system with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omissions of the customer in connection with facilities provided by the Company.

N.1 REGULATIONS (CONTINUED)

No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, except as provided in this Tariff. In case unauthorized attachments or connections are made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connections; or to terminate service.

N.2 NETWORK PROTECTION CRITERIA

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance message telecommunications network must comply with the following minimum network protection criteria;

N.2.1 Where the customer-provided communications systems is connected, the customer-provided communication systems must comply with the following criteria:

- a. To prevent excessive noise and crosstalk in the network it is necessary that the power of the signal at the central office not exceed 12 db below one milliwatt when averaged over any three second interval. To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12 db below one milliwatt at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.

N.2 NETWORK PROTECTION CRITERIA (CONTINUED)

N.2.1 (Continued)

- b. To protect other services it is necessary that the signal which is applied by the customer-provided equipment located on the customer's premises meets the following limits:
- i. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in N.2.1.a.
 - ii. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.
 - iii. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.
 - iv. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 24 db below one milliwatt.
 - v. The power in the band above 40,000 Hertz shall not exceed 50 db below one milliwatt.
- c. To prevent the interruption or disconnection of a call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment located on the customer's premises at no time has energy solely in the 2450 to 2750 Hertz band, it must exceed the power present at the same time in 800 to 2400 Hertz band.

DATA SERVICE ⁽¹⁾

(C)

0.1. CONCURRENCE

Lewisport Telephone Company, hereinafter called the concurring utility, assents to, adopts and concurs in the Data Transmitting and Receiving Equipment Tariff, filed with the Kentucky Public Service Commission by South Central Bell Telephone Company, hereinafter called the issuing utility, as such Tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues, for data services furnished by the issuing utility and concurring utility, and hereby makes itself a party thereto and obligates itself to observe each and every provision thereof.

0.2. EXCEPTIONS

Minimum service period for Data Service is twelve months. Customers of this Company or those of other connecting customers will be required to enter into a termination agreement with this Company, covering cost of establishing service for the minimum service period. Termination Agreement must be signed and in the possession of the Company before service will be established.

(1) This service is grandfathered to existing customers effective March 26, 2020. This service will not be available to new customers after this date.
