M.1 Directory Assistance

M.1.1 General

The telephone company furnishes Directory Assistance Service whereby customers may request assistance in determining telephone numbers.

M.1.2 Rates

Calls to local Directory Assistance, each \$0.75 (I)

- maximum of two requests per call

(T)

M.1.3 Conditions

1. Directory Assistance service does not provide listing information on non-published number (private) listings but does furnish listing information on unlisted number (semi-private) listings.

2. The customer will be charged for each call to Directory Assistance up to the maximum number of requests per call Section M.1.2.

3. Charges are not applicable to customers who have been certified by a physician or appropriate agency as unable to use a telephone directory because of a visual or physical handicap, however this provision is not intended to allow the exemption for business subscribers who employ only a few handicapped employees.

4. The company shall not be liable for any errors or omissions in the company's database information or from other DA provider's database(s), whether through negligence or otherwise, in the listing information furnished or not furnished; and the customer shall indemnify and save the company harmless against all claims (including costs and attorney's fees) that may arise from the use of such information.

5. Customers provided with incorrect or no listings will receive credit for such listings upon request.

M.3 Employees Telephone Service

M.3.1 General

1. Upon approval of proper officials of the Telephone Company, Employees Concession Telephone Service is available to employees of the Telephone Company in connection with telephone service at their residence.
2. The primary listing provided with the service is permitted only in the name of the employee. Extra listings for other Telephone Company employees residing at the same address are permitted but no other listed are provided.
3. Concessions to employees are allowed only at one location and only with the telephone equipment in the employee's residence.

M.3.2 Rates

1. One hundred percent (100%) discount or concession may be granted upon approval of the proper officials of the Telephone Company, to certain employees of the company where the telephone service at such discount is, and only for so long as it is, considered by the officials of the Telephone Company as being necessary or advantageous in the operation of the telephone system.
2. Concession will not be allowed for toll messages.

M.4 Off Premise Line

M.4.1 General

1. Any telephone located more than 150 feet from the premise where the telephone is located, and the Company is requested to provide a line, the telephone shall be considered off premise subject to charges in addition to a regular leased telephone.
2. For the purpose of definition, off-premise line is any line extended off-premise by use of service wire or cable pair, but does not interconnect of "bridge" with other pairs in the central office.

M.4.2 Monthly Charge

1. Each pair will be charged at the rate of \$3.00 for the first quarter mile, and \$.75 for each quarter mile or fraction of a quarter mile thereafter. The measurement of distance will be made in route mileage.
2. Each termination of each pair will be charged at the rate of \$1.75 per termination.

M.4.3 Conditions

1. May be located on the premise of another customer and restricted to answering incoming calls only provided the other has his own separate service at the same location.
2. Business off-premise line may be provided at residence location of the same customer where residence main station service is also provided.
3. Residence off-premise lines may be provided at a business location of the same customer where business main station service is also provided.
4. Mileage charge will be based upon the route measurement mileage between locations of the telephones.

Joint use of service permits a person, firm or corporation to share the use of telephone service provided to a business customer.

M.5.2 Rates

Monthly Rate

Joint User Service

50% of applicable
Business Rate

M.5.3 Conditions

1. Joint use of service will be furnished with the approval of the Company only with business individual line or PBS trunks.
2. Joint use of service will be furnished to a customer who is in a business of a secretarial nature, or of renting, or leasing space to transient or permanent tenants.
3. The joint user must be located on the premises, or in the same office, or in the same suite of offices as the customer, or in an office adjacent to and directly accessible from the customer's office.
4. A joint user will be furnished one directory listing without a charge.
5. Applications for joint use of service shall be made by the customer.
6. The customer will be responsible for all charges incurred by the joint user.
7. Additional listings and supplemental service may be furnished to the joint user at the regular rates when requested by the customer.
8. After the listing for the joint user has been included in the directory, joint use of service may not be discontinued during the life of the directory, except under the following conditions:
 - A. The customer's service is discontinued.
 - B. The joint user moves from the premise where the customer's service is located.
 - C. The joint user establishes his own primary service on the same premises.

M.6 Directory Number Hunt/Rotary Line Service

M.6.1 General

Any individual lines arranged for rotary, level hunting or similar service which allows an incoming call to a line that is called to be completed over another line by means of central office equipment will be classed as rotary lines. Rotary main service is restricted to a single premises.

M.7 Seasonal and Vacation Service

M.7.1 General

Seasonal and Vacation service is basic local exchange service temporarily suspended at the request of the subscriber. This service is provided to customers in all the Company's exchanges, except key system, PBX and PABX customers.

M.7.2 Rates

1. The monthly rate will be based upon 50% of the customers total Local Exchange Service, including, but not limited to extensions, and directory listing. Service may be suspended for a minimum of 30 days and a maximum of 90 days.
2. Regular service charges will apply for the suspension and subsequent reconnection of service.

M.7.3 Conditions

Seasonal and vacation services will be furnished at the company's discretion under the following conditions:

1. Service is available to all classes and grades of exchange service where the usage is of a seasonal nature.
2. During the period when the customer is billed at the reduced rate, no installation, moves, changes or maintenance will be provided by the Company.

MISCELLANEOUS SERVICES

M.9 Call Screening & Restriction Services

M.9.0 Customized Code Restriction (CCR)

M.9.1 General

Customized Code Restriction is a service which enables customers to restrict certain types of outgoing/incoming calls from being placed over their exchange lines/trunks. This capability is provided only by means of recorded announcement restriction. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with individual line residence or business service or PBX trunks.

M.9.2 Regulations

1. Customers may subscribe to whichever option meets their needs, but only one option may be provided on a line/trunk or group of lines/trunks.
2. CCR is furnished only from central offices where facilities permit.
3. CCR does not provide restriction of non-chargeable calls to Company numbers, such as repair service, public emergency service numbers (911), or 1+800 calling.
4. Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.
5. Customers who subscribe to CCR options which restrict operator access are required to place stickers on each restricted telephone indicating the operator cannot be reached. In addition, it is the responsibility of the customer to notify all station users of their service that an operator cannot be reached. (L)
6. The company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes specified for the options.
7. CCR - Options - The codes shown for CCR options are not to be considered all inclusive. Codes may be changed and new or different codes may be added as deemed appropriate by the Company.
 - a. Option #1 Restricted Codes
1+, 0+, 00-, (1+/0+) 411, 976, NPA 900, IDDD 01+, IDDD 011+
 - b. Option #2 Restricted Codes
0-, 0+, 00-, IDDD 01+, 976
 - c. Option #3 Restricted Codes
1+, 0-, 0+, 00-, IDDD 01+, IDDD 011+, NPA 900, 976
 - d. Option #4 Restricted Codes
NPA 900, 976
 - e. Option #5 Restricted Codes
!800 Restricts - 800 and local calls can be completed. All other toll is blocked.

M.10 Teen Service

M.10.1 General

A. Teen service will enable a subscriber to have one extra telephone number associated with a single line. Customers subscribing to this service will be able to receive calls dialed to two separate telephone numbers without having a second or third line. A distinctive ringing pattern will be provided for each one of the additional telephone numbers to facilitate identification of incoming calls. A distinctive Call Waiting tone for the additional telephone number will be provided, where facilities permit, to customers subscribing to Call Waiting service.

B. Teen service is offered in the following format. Teen service consists of one additional telephone number associated with a single line.

M.10.2 Regulations

A. This service is available to individual line residence and business customers.

B. This service is not compatible with ESSX service, PBX trunk service, Prestige service, Personal paging service, Company or customer provided public telephone service, lines equipped with hunting arrangements, foreign exchange service, or with access lines terminating in customer premises switching or key equipment. Teen service may not be compatible with all types of customer provided telephone equipment.

C. Teen service is provided subject to the availability of facilities.

D. Teen service subscribers will be entitled to one listing for teen service. Other listings will also be provided under the terms and conditions described in Section F of this tariff.

E. All telephone numbers associated with a line equipped with service must originate from the same central office switching machine.

F. When establishing Teen service, Call Forwarding service subscribers must choose one of the following options. When Call Forwarding service is activated:

1. All telephone numbers associated with one line will be forwarded to a single number when Call Forwarding service is activated.
2. The main telephone number only will be forwarded when Call Forwarding service is activated. The additional teen service number will continue to ring and may be answered at the subscriber's premises.

G. Appropriate nonrecurring charges will apply when changing from one option to the other subsequent to the establishment of Teen service.

H. This Tariff sets forth rates for Teen service as described in M.10.3 following.

N.1 Regulations

Customer-provided communications systems may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided communications systems will be constructed, maintained and operated as to work satisfactorily with the facilities of the Company, and to meet all published standards of the Federal Communications Commission (FCC).

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon the consent of the Company.

Where telecommunications service is available under this tariff for use in connection with customer-provided communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the service offered by the Company. Such use is subject to with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment or system does not endanger the safety of Company employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment or system is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charge in Section D, "Maintenance of Service Charge," for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or system.

The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems. Telecommunications service is not represented as adapted to the use of customer-provided equipment or systems and where such are connected to the Company facilities the responsibility for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service; subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or system.

GENERAL SUBSCRIBER SERVICES TARIFF

Logan Telephone Cooperative
Incorporated

PSC 2
Section N
Original Sheet 3

The Company shall not be responsible to the customer if changes in the criteria outlined herein or in any of the facilities, or procedures of the Company render any customer-provided equipment or communications systems inoperable or otherwise affect its use or performance.

The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or connection with the use of facilities of customers and not caused solely by the negligence of the Company.

Where any customer-provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in termination of the customer's service.

Customer-provided systems which serve a location which the Company considers impracticable to serve because of hazard of inaccessibility may be connected with telecommunications service by means of connecting equipment furnished by the Company.

The customer indemnifies and saves the Company harmless against claims for infringements of patents rising from combining such equipment or system with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omissions of the customer in connection with facilities provided by the Company.

No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, except as provided in this Tariff. In case unauthorized attachments or connections are made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connection; or to terminate service.

N.2 Network Protection Criteria

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance

message telecommunications network must comply with the following minimum network protection criteria;

1. Where the customer-provided communications system is connected, the customer-provided communications systems must comply with the following criteria:

A. To prevent excessive noise and crosstalk in the network it is necessary that the power of the signal at the central office not exceed 12 db below one milliwatt when averaged over any three second interval. To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12 db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.

B. To protect other services it is necessary that the signal which is applied by the customer-provided equipment located on the customer's premises meets the following limits:

a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in N.2.1.1.

b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.

c. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.

d. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 24 db below one milliwatt.

e. The power in the band above 40,000 Hertz shall not exceed 50 db below one milliwatt.

C. To prevent the interruption or disconnection of a call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment located on the customer's premises at no time has energy solely in the 2450 to 2750 Hertz band, it must be exceed the power present at the same time in 800 to 2450 Hertz band.

2. Where the customer-provided communications system is connected, the customer-provided communication system must comply with the following criteria:

A. To prevent excessive noise and crosstalk in the network it is necessary that the power of the signal which is applied by the customer-provided equipment located on the customer's premises be limited so that the signal power at the output of the network control signaling unit (i.e., at the input of the Company line) does not exceed 9 db below one milliwatt when averaged over any three second interval.

B. To protect other services it is necessary that the signal which is applied by the customer-provided equipment located on the customer's premises meet the following limits at the output of the network control signaling unit (i.e., at the input to the Company line):

a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified above in N.2.2.1.

b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.

c. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.

d. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 db below one milliwatt.

e. The power in the band above 40,000 Hertz shall not exceed 50 db below one milliwatt.

C. To prevent the interruption or disconnection of a call, it is necessary that the signal applied by the customer-provided equipment located on the customer's premises be limited so that the signal at the input to the Company line shall at no time have energy solely in the 2450 to 2750 Hertz band. If there is signal power in the 2450 to 2750 band, it must not exceed that power present at the same time in the 800 to 2450 Hertz band.

N.3 Customer-Provided Communications Systems

Customer-provided systems may be connected, at a service point of the customer, on a voice grade basis with telecommunications service furnished by the Company, through customer-provided equipment which affects such connections externally to the a Company by means of physical connection for transmitting and/or receiving. The customer-provided system shall comply with the minimum protection criteria contained in N.2.2 and N.2.3.

S.1 Basic Custom Calling Service

S.2 Definition of Feature Offerings

A. Call Waiting

Provides the user, busy on a call, with a private signal which alerts him to an unanswered call waiting to be completed to his number. The user may, then, hold the existing call, answer the incoming call and alternately talk on both calls until one has been terminated.

B. Call Forwarding

Provides for transferring incoming calls to another telephone number by dialing a code and the telephone number of the service to which calls are to be transferred. Satisfactory transmission levels cannot be assured on calls forwarded outside of the local calling area.

C. Three-Way Calling

Permits an existing call to be held, and by dialing, a second telephone call can be established and added to the connection. Two toll points may be connected on a Three-Way Calling. Normal transmission performance cannot be assured on all calls.

D. Three-Way Calling with Transfer

Allows a subscriber to transfer an incoming call to another telephone number by hook flash, getting dial tone, dialing the number that the call is to be transferred to, and then hanging up if desired.

(N)
—
(N)

E. Speed Calling

Provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. The arrangement available has an eight (8-code) and thirty (30-code) number capacity.

S.3 Provision of Service

A. The services are limited to those areas served by central offices arranged for Custom-Calling Services.

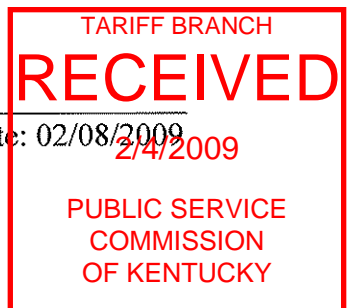

B. The services are furnished only in connection with individual line service. The service is not available in connection with private branch exchange, coin telephone service and some special types of station instrumentation.

B. Feature Packages

1. A discount of \$.50 on each service after the first feature will apply when two or more service features are ordered in a package.
2. Regular service connection charges apply as set forth in Section D on initial or subsequent installations.

S.5 Advanced Custom Calling Services**S.6 Applications**

- A. Advanced custom calling services are a family of incoming and outgoing call management services offered in addition to basic telephone service that allow business and residential subscribers to screen, redirect or return selected calls.

S.7 Definition of Feature Offerings**A. Anonymous Call Rejection (ACR)**

This feature allows subscribers with or without Calling Number Delivery and/or Calling Name Delivery to reject calls for which the caller has intentionally blocked Calling Name/Number Delivery information. If the display information is not available due to network restrictions or any other reasons, the receiving CPE (telephone or adjunct), if equipped, is presented with a message to indicate the unavailability of the calling information.

Rejected calls are sent to a telephone company-supplied announcement that informs the calling party why the call was rejected. Anonymous Call Rejection can be overridden by an operator in case of an emergency.

Effective Date: 02/08/2009

GENERAL SUBSCRIBER SERVICES TARIFF

Logan Telephone Cooperative
Incorporated

PSC
Section S
First Revised
Sheet 4

S.7 Definition of Feature Offerings (Continued)

B. Automatic Call back (ACB)

By dialing the ACB activation code, a subscriber directs the switch to recall the DN of the last outgoing call from his set. The switch will set up the call to that DN whether or not the called party answered the original call. Therefore, without having to redial the DN, the subscriber can use ACB either to contact a party he has been unable to reach or continue an interrupted discussion.

(L)

If the called line is busy, the switch queues the ACB request and delays processing of the call until both the called and calling parties are idle. Once both lines are idle, the switch first applies distinctive ringing to the calling line to alert the subscriber that the requested callback is ready to be set up.

When the calling subscriber goes off-hook in response to the distinctive ring, the switch processes the call and applies normal ringing to the called line. An ACB request is removed from the queue when the switch successfully set up the call (i.e., rings the called party) or when the request times out (after 30 minutes).

C. Automatic Recall (AR)

By dialing the AR activation code, an AR subscriber directs the switch to recall the DN of the last incoming call to his set. Beyond the convenience of having the switch automatically set up the call, the subscriber can return a missed call without having to know the DN of the calling party.

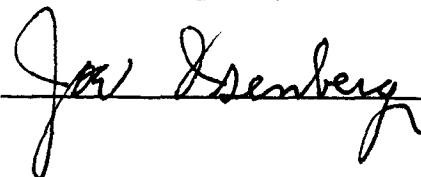

If the called line is busy, the switch queues the ACB request and delays processing of the call until both the called and calling parties are idle. Once both lines are idle, the switch first applies distinctive ringing to the calling line to alert the subscriber that the requested callback is ready to be set up. When the calling subscriber goes off-hook in response to the distinctive ring, the switch processes the call and applies normal ringing to the called line. An ACB request is removed from the queue when the switch successfully set up the call (i.e., rings the called party) or when the request times out (after 30 minutes).

PSC
Section S
First Revised
Sheet 5

S.7 Definition of Feature Offerings (Continued)

D. Automatic Recall-Block to Private

This feature prohibits a call being returned to a number which (N)
was delivered with a "private" delivery status. This modification
prevents subscribers being called back using AR and identified
upon answer.

E. Calling Number Delivery (CND)

With Calling Number Delivery (CND), the subscriber can view the
DN of an incoming call before answering. After the first ring
to alert the subscriber, the switch sends the ten-digit calling
DN and the current month, day, hour, and minute.

The CND feature requires a terminal capable of recognizing and
displaying the calling DN sent from the switch.

Any customer subscribing to Calling Number Delivery will be
responsible for the provision of a display device when will
be located on the customer's premises. The installation,
repair and technical capability of that equipment to function
to conjunction with the feature specified herein will be the
responsibility of the customer. The Company assumes no (L)
liability and will be held harmless for any incompatibility of
this equipment to perform satisfactorily with the network
features described herein.

Calling Number Delivery (CND) is not available on operator-
handled calls.

F. Calling Number Delivery Blocking (CNDB)

1. Calling Number Delivery Blocking - Per Call

For outgoing calls, a CNDB subscriber can prevent delivery of
his DN to the called party. On a per-call basis, the subscriber
blocks display of his DN by dialing the CNDB activation code.
Upon receiving the code, the switch returns dial tone again,
and the subscriber enters the DN to be called. If the call is
completed (i.e., the called party's line is rung), the
terminating CLASS office sends a "P" (indicating private number)
to the called party's terminal in place of the calling DN.

This feature will be available without presubscription.

Sheet 6

S.7 Definition of Feature Offering (Continued)

F. Calling Number Delivery Blocking (CNDB) (Continued)

2. Calling Number Delivery Blocking - Per Line

This feature enables a customer to make all calls with the delivery of their calling number marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the preassigned activation code for Calling Number Delivery Blocking-Per Line is dialed on the line, the calling number may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Nonprofit, tax exempt, private and public social welfare agencies such as domestic violence intervention agencies, (b) federal, state and local law enforcement agencies. (L)

Operator services and 9-1-1 service takes precedence over Calling Number Delivery Blocking - Per Call and Per Line service with all calling numbers available regardless of the privacy status.

G. Calling Name/Number Delivery (CNAM)

Calling Name Delivery displays the name and ten digit telephone number associated with an incoming call as well as the date and time on the telephone set or adjunct unit after the first ringing cycle. The first fifteen characters of the customer's name will be displayed, beginning with the last name. This service will be offered in conjunction with Calling Number Delivery. Name/Number display allows the subscriber to answer the call with a personalized greeting. With this service, the subscriber has more specific information upon which to base the decision to answer or not. (N)

CNAM requires a telephone set or an adjunct to the set, capable of displaying an alphanumeric set of characters.

Sheet 7

S.7 Definition of Feature Offerings (Continued)

G. Calling Name/Number Delivery (CNAM) (Continued)

Any customer subscribing to any of the services that required a display device or any adjunct piece of equipment which will be located on the customer's premises, will be responsible for that equipment. The installation, repair and technical capability of that equipment to function in conjunction with these features specified herein will be the responsibility of the customer. The company assumes no reliability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

H. Calling Name Delivery Blocking (CNAB)

1. Calling Name Delivery Blocking - Per Call

Calling Name Delivery Blocking is an originating CLASS feature which provides the capability to the calling party to suppress his/her name so that the called party with Calling Name Delivery does not receive the information. The called party will receive a "private" message instead of the calling party's name.

CNAB allows the subscriber to temporarily change the status of his/her line suppression status on a per-call basis. CNAB is made available to all subscribers on an office-wide basis without presubscription.

2. Calling Name Delivery Blocking - Per Line

This number suppression feature enables a customer to make all calls with the delivery of their calling name marked as "private". The feature is applicable on all outgoing calls placed from the customer's line; however, if the preassigned activation code for Calling Name Delivery Blocking - Per Call is dialed on the line, the calling name may be delivered.

This service is only available upon request to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers where the head of the agency certifies to Telephone Company management a need for blocking upon health and safety concerns: (a) Non-profit, tax exempt, private and public social service agencies such as domestic violence intervention agencies; (b) federal, state and local law enforcement agencies. Section S
Second Revised
Sheet 8

S.7 Definition of Feature Offerings (Continued)

H. Calling Name Delivery Blocking - Per Call (Continued)

Operator services and 911 services take precedence over CNAB - Per Call and Per Line service with all calling names available regardless of privacy status.

Although the caller's name can be blocked from display by CNAB Per Call and Per Line, the name is still transmitted to the terminating CLASS end office. Therefore, the called party (if a CLASS customer) can still use the Automatic Recall, Customer Originated Trace and CLASS screening features against the calling party.

I. Calling Identity Delivery and Suppression (CIDS)

For subscriber convenience, Calling Identity Delivery and Suppression (CIDS) lets the subscriber determine whether calling name and number will be delivered within a specific call. When the CNND access code is entered followed by a valid directory number, the privacy status for the calling party name and number is marked "public" and the calling name and number are delivered to the terminating party. When the CNNB access code is entered followed by a valid directory number, the privacy status for the calling party name and number is marked "private" and a "P" is delivered to the terminating party.

1. Calling Identity Delivery and Suppression Blocking - Per Call

CIDS allows the subscriber to temporarily change the status of his/her line suppression status on a per-call basis. CIDS is made available to all subscribers on an office-wide basis without presubscription.

2. Calling Identity Delivery and Suppression - Per Line (Private Number)

This feature is applicable on all outgoing calls placed from the subscriber's line; however, if the preassigned activation code (*67) for Calling Number Delivery Blocking - Per Call is dialed on the line, the calling number may be delivered.

Sheet 9

S.7 Definition of Feature Offerings (Continued)

J. Customer Originated Trace (COT)

Customer Originated Trace (COT) allows a subscriber to initiate a trace of a harassing or obscene call without first having to obtain legal authorization or telephone company assistance.

The subscriber starts the trace by dialing the COT activation code. The switch retrieves the DN of the last incoming call. The switch immediately outputs the DN to a terminal at local telephone company. An announcement will be provided to the subscriber informing him of the successful trace.

The customer using this feature would be required to contact their servicing law enforcement agency and have presented to the Telephone Company a District Court order authorizing results of traces initiated by the customer to be released directly to the proper authorities for legal handling. There will be a charge (L) to the customer for each annoyance call reported provided. The customer acknowledges their understanding that under no circumstances will trace results be provided directly to the customer.

K. Distinctive Ringing/Call Waiting (DR/CW)

DR/CW provides special treatment for calls received from customer specified telephone numbers. The customer creates a screening list containing up to 12 DN's through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern or call waiting tone. Calls from telephone numbers not included on the screening list will produce a normal ringing pattern or call waiting tone.

SHEET 10

S.7 Definition of Feature Offerings (Continued)

L. Local Data Base Service (LDBS)

Local Data Base Service offers subscribers protection against unauthorized 900 and other toll calls placed from their telephones, and allows name-based dialing without additional customer premises equipment.

LDBS feature provides two originating call control features that can be made available to any subscriber with a touchtone phone. All features work with a four-digit Personal Identification Number (PIN) that subscribers can change from their phones at any time. If a subscriber buys one feature and later buys others, the same PIN can be used for the additional features.

The two features provided by LDBS are:

1. 900 RESTRICTION allows subscribers to control the access to 900 numbers from their phone keypad. All 900 numbers can be restricted or allowed by entering an activation/deactivation code which includes the subscriber's PIN. A list of 900 NXX codes can also be restricted or allowed.

2. ONE-PLUS PER CALL RESTRICTION requires a PIN to be dialed before any toll call can be completed. Once the PIN has been validated by the LDBS, dial tone is returned to the subscriber and dialing can continue. This feature allows subscribers to control billable calls originating from their phone by requiring the PIN to be dialed with each toll call. This feature is not compatible with Super Speed Calling.

M. Selective Call Forwarding (SCF)

Selective Call Forwarding allows the customer to transfer selected incoming calls to another telephone number. A screening list containing up to 12 DN's is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded only if the calling number can be obtained and is found to match a number on the screening list.

GENERAL SUBSCRIBER SERVICES TARIFF

LOGAN TELEPHONE COOPERATIVE, INC.

PSC 2
SECTION 5
SECOND REVISED
SHEET 11

S. 7 Definition of Feature Offerings (Continued)

N. Selective Call Rejection (SCR)

This feature allows the subscriber to have the switch automatically reject calls from DN's on the customer's predesignated screening list. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

O. Selective Call Acceptance (SCA)

Selective Call Acceptance screens incoming calls against a list of subscriber-specified directory numbers (DN's) and then accepts any calls from those numbers. Calls from other DN's are denied access to the subscriber's line and are routed to a recording. A screening list of up to 12 members is created by the subscriber.

P. Voice Mail (Deleted Section)

Q. Call Waiting Deluxe (CWD)

Provides the user, busy on a call, with a private signal to another incoming call and, when available, provides the name and number of the caller. This feature requires equipment, at the customer's expense, that is capable of recognizing and displaying the alphanumeric characters sent from the switch. The user may then choose to hold the existing call, answer the incoming call and alternately talk on both calls until one or both has been terminated.

S. 8 Regulations and Limitations of Service

A. The services are provided subject to the availability of facilities and technical limitation and limited to the Company's central offices specifically equipped to provide such service. Also, feature screening list can only contain telephone numbers of subscribers served out of the Company's properly equipped offices.

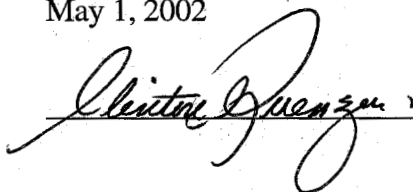

B. Advanced Custom Calling Services are available to single party and multiple-line resident and business customers who have rotary dial or touchtone service.

S.8 Regulations and Limitations of Service (Continued)

C. Advanced Custom Calling Services will not be provisional on Company provided public and semi-public telephone service.

D. Operator-assisted calls are designed to override the feature calls for emergency purposes.

E. Advanced Custom Calling Services are not available for the trunks, (i.e., business groups that exist in multiple offices interconnected by tie trunks).

F. Calling Number Delivery Blocking - Per Line is available upon request, at no charge, as set forth in Section S.7 H.2 of this Tariff.

G. The Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-Published Listing Service as described in Section F of the Tariff. (L)

H. The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of these services, including without limitation, the delivery or non-delivery of calling numbers.

I. Telephone numbers transmitted via Calling Number Delivery described in S.7 E previously, are intended solely for the use of the Calling Number Delivery subscriber. Resale of this information is prohibited by this Tariff.

SECTION X – POLE ATTACHMENTS (cont'd)

X.2. Definitions

1. Attacher – a cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit requesting to attach new or upgraded facilities or who is legally attached to a pole owned or controlled by the Company. Attacher does not include a utility with an applicable joint use agreement with the utility that owns or controls the pole to which it is seeking to attach or a person seeking to attach macro cell facilities.
2. Attachment – any attachment by a cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit to a pole owned or controlled by the Company.
3. Make-ready – the modification or replacement of the Company pole, or of the lines or equipment on the Company pole, to accommodate additional facilities on the Company pole.
 - (a) Complex Make-ready – any Make-ready that is not Simple Make-ready, such as the replacement of the Company pole; splicing of any communication attachment or relocation of existing wireless attachments, even within the communications space; and any transfers or work relating to the attachment of wireless facilities.
 - (b) Simple Make-ready – Make-ready in which existing attachments in the communications space of a pole could be rearranged without any reasonable expectation of a service outage or facility damage and does not require splicing of any existing communication attachment or relocation of an existing wireless attachment.
4. Poles – All references to “poles” of the Company shall mean poles which are either solely owned by the Company, are jointly owned by the Company and another, or are owned by another who has granted the Company exclusive use and control of space upon its poles.
5. Pole Attachment – This term means any attachment by an Attacher firm to a pole owned or controlled by the Company.

SECTION X – POLE ATTACHMENTS (cont'd)

X.2. Definitions (cont'd)

6. Joint User – All references herein to “joint user” shall mean a utility company or municipality which, together with the Company, jointly provides poles for common use in the provision of service of the respective entities, and shall also include a utility company or municipality which, together with the Company, owns a percentage of a pole, or which owns a pole upon which the Company has obtained exclusive use and control of specified space.
7. Red Tagged Pole – a pole that the Company owns or controls the pole that:
 - i) Is designated for replacement based on the pole’s non-compliance with an applicable safety standard;
 - ii) Is designated for replacement within two (2) years of the date of its actual replacement for any reason unrelated to a new Attacher’s request for attachment; or
 - iii) Would have needed to be replaced at the time of replacement even if the new attachment were not made.

SECTION X – POLE ATTACHMENTS (cont'd)

X.3. Scope

1. Subject to the terms and conditions contained in this tariff, the Company will provide Attacher pole attachments and permit an Attacher, for the purpose of furnishing Attacher service, to install its equipment upon the Company's poles.
2. The Attacher shall secure from the proper franchising authority, a franchise to erect and maintain its equipment within public streets, highways and other thoroughfare, provided such franchising authority exists and shall secure any and all consents, permits, licenses, easements or rights-of-way that may be legally required for its operation hereunder. The Attacher shall additionally provide to the Company a map depicting the franchised area in which pole attachments may be applied for by the Attacher.
3. The Attacher shall assist in, and bear the expense of securing any additional consents, permits, or licenses that may be required by the Company because of Attacher pole attachments.
4. The franchises, consents, permits, licenses, easements and rights-of-way of the Company are for its own facilities and the provision of its other services. No rights in such franchises, consents, permits, licenses, easements or rights-of-way are conferred upon any Attacher hereunder.

X.4. Attachment Specifications

The Attacher, at its own cost and expense, shall construct, maintain and replace its attachments on the Company's poles in accordance with (1) such requirements and specifications as the Company shall prescribe and have on file with the Commission, (2) reserved for future use, (3) the requirements and specifications of the National Electrical Safety Code, as currently accepted by the KY Public Service Commission, (4) and Rural Utility Service Specifications and Standards, and (5) in compliance with any rules or orders now in effect or that hereafter may be issued by the Public Service Commission of Kentucky or other authority having jurisdiction. The Attacher shall comply, at its sole risk and expense, with changes and revisions in the above specifications and requirements.

X.5. Rights of Way and Legal Authority

1. Upon application for attachment, the Attacher shall submit evidence satisfactory to the Company of its authority to erect and maintain its equipment within public streets, highways, and other thoroughfares and shall secure any necessary franchise, license, permit, consent, easement or rights-of-way from Federal, State or Municipal authorities or owners of property now or hereafter required to construct and maintain such equipment at the location of facilities of the Company which it desires to use. In the event any such franchise, license, permit, consent, easement or right-of-way is revoked or is thereafter denied to the Attacher for any reason, permission to attach to Company poles so affected shall immediately terminate, the Attacher shall forthwith remove its equipment from Company facilities.
2. Upon notice from the telephone company to the Attacher that the removal or cessation of the use of any pole has been requested or directed by Federal, State, or Municipal authorities, or property owners, permission to attach to such pole shall immediately terminate and the Attacher shall forthwith remove its equipment there from.

X.6. Protection against Claims from Libel and Slander, Copyright and Patent Infringement

The Attacher shall indemnify, protect, and hold harmless the Company from and against any and all claims for libel and slander, copyright, and/or patent infringement arising by reason of attachment of Attacher equipment to Company poles pursuant to this tariff.

X.7. Limitations

1. No use, however extended, of the Company's poles under this tariff shall create or vest in the Attacher any ownership or property right in said poles. Nothing herein contained shall be construed to compel the Company to maintain any of its facilities for a period longer than that demanded by its other service requirements.
2. The Company reserves to itself, its successors and assigns the right to maintain its poles and to locate and operate its facilities in such manner as will best enable it to fulfill its other public service requirements. The Company shall not be liable to the Attacher for any interruption to the service of the Attacher or for any interference with the operation of the equipment of the Attacher, if such interruptions are beyond the control of the Company.
3. The Company reserves the right to provide pole attachment to more than one Attacher and to make such space available to other entities. This tariff shall not limit the rights and privileges previously granted to others to use any poles covered by this tariff, and the privileges provided by this tariff shall at all times be subject to such previously granted rights.
4. Failure to enforce or insist upon compliance with any of the terms or conditions of this tariff shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in effect.
5. In order to assure confident coverage of the indemnity and insurance requirements, the Attacher shall not assign, transfer or sublet any rights to make pole attachments hereunder without notification to the Company.
6. The Company may deny access to any pole, duct, conduit, or right-of-way on a nondiscriminatory basis if there is insufficient capacity or for reasons of safety, reliability, or generally applicable engineering purposes.
7. The Company shall not be required to provide access to any pole that is used primarily to support outdoor lighting.

X.8. Indemnities and Insurance

1. The Attacher shall indemnify, protect, and hold harmless the Company and other joint-users of said poles from and against any and all loss, costs, claims, demands, damage and/or expense arising out of any demand, claim, suit or judgment for damages to property and injury to or death of persons, including the officers, agents and employees of the Attacher, the Company and any joint-user, including payment made under any Workmen's Compensation Law or under any plan for employees' disability and death benefits which may arise out of or be caused by the installation, maintenance, presence, use or removal of said equipment or by the proximity of Attacher equipment to the cables, wires, apparatus and appliances of the Company or any joint user, or arising out of any act, omission or negligence or alleged act, omission or negligence of the Attacher or the joint negligence of the Attacher and the Company and /or any joint users. The Company shall not be held harmless merely because of Attacher attachments to its poles.
2. The Attacher shall maintain in full force and effect the following insurance policies or bond in lieu thereof providing an equivalent protection: (1) Workers' Compensation and Occupational Disease covering the Attacher's full liability under the Worker's Compensation Laws of the Commonwealth of Kentucky. This shall include Employer's Liability insurance in the amount of \$500,000. (2) Comprehensive General Liability insurance, in the amounts of \$1,000,000 Combined Single Limits or \$1,000,000 each occurrence, and \$1,000,000 aggregate for any accident resulting in bodily injuries to or the death of one or more persons and the consequential damages arising there from together with Property Damage Liability in the amount of \$500,000 each occurrence, with an aggregate total limit of \$500,000.

3. All policies of insurance shall contain written endorsements to the effect that the amount of coverage of the insurance provided thereby will not be reduced or terminated without thirty (30) days written notice first being given to the Company. Certificates of insurance, incorporating the above described endorsement, shall be delivered to a designated officer of the Company and shall be approved by the Company before the Attacher firm is permitted to perform any work authorized pursuant to this tariff. Failure of the Attacher to provide notice of renewals, changes in carrier, or a reduction in or termination of insurance coverage will be just cause for the Company to terminate the Attacher's right to continue its pole attachments. If renewal premiums are not paid by the Attacher prior to said 30-day notice, the Company shall have the right to pay said premiums and be reimbursed by the Attacher upon demand.
4. The Attacher shall promptly notify the Company of all claims and potential claims relating to damage to property or death of persons arising or alleged to have arisen in any manner by or associated with, directly or indirectly, the presence or use of the Attacher's equipment upon any facility of the Company.
5. The Attacher shall exercise special precautions to avoid damage to facilities of the Company on said poles and hereby assumes all responsibility for any and all loss for such damage. The Attacher shall make an immediate report to the telephone company of the occurrence of any such damage and shall reimburse the Company for the expense incurred in making repairs necessitated thereby.

X.9. Surety

The Attacher shall furnish a bond for each individual Attacher system utilizing pole attachments under this tariff to guarantee the payment of any sum which may become due to the Company for rental and penalty charges pursuant to this tariff, for the benefit of the Attacher or as a result of default or forfeiture by the Attacher. The amount of such bond shall be based upon the following:

- (1) For attachments to 500 poles or less, a bond of \$5,000 shall be furnished, except as provided in (3) below.
- (2) For attachments to poles in excess of 500, further surety in the amount of \$5,000 for each additional 500 poles, or any increment thereof, shall be furnished except as provided in (3) below.
- (3) After one year following the completion of construction of an individual Attacher system and its placement into operation, the Attacher may request that the required amount of bond be reduced. Upon the Company's receipt of satisfactory evidence that all mechanics, workmen, and material men who furnished services, labor or materials in the construction of such Attacher system, and all taxing authorities, have been paid all amount due them, the Company will reduce the amount of bond required to the following:
 - (a) For attachments to 500 poles or less, a bond of \$2,000 shall be furnished.
 - (b) For attachments to poles in excess of 500, further surety in the amount of \$2,000 for each 500 poles, or any increment thereof, shall be furnished.

X.10. Payment of Bills

All amounts payable by the Attacher to the Company under the provision of this tariff shall, unless otherwise specified, be payable within thirty (30) days after presentation of bills. Non-payment of any such amount when due shall constitute grounds for termination of the pole attachment usage rights under this tariff.

X.11. Termination of Attachments

1. Unless otherwise permitted pursuant 807 KAR 5:015, Section 6(1)(b), if the Attacher shall fail to comply with any of the provisions of this tariff, including compliance with the specifications previously referred to, the maintenance of required insurance coverage and surety bond requirements, and the timely payment of any amounts due, and shall fail for sixty (60) days after written notice from the Company to correct such non-compliance, the Company, at its option, may terminate the Attacher's right to continue any or all use of poles provided under this tariff and may act to remove the Attacher equipment at the Attacher's sole risk and expense. The Company shall be responsible for its own negligence in the event such action becomes necessary.
2. Upon valid objection being made by or on behalf of any governmental authority properly asserting jurisdiction, the Company may without notice, or, where circumstances permit, upon five (5) days written notice to the Attacher, terminate the provision of pole attachment space as provided in this tariff.
3. The Attacher may at any time remove its equipment attached to any pole or poles of the Company and shall immediately give the Company written notice of such removal.

Any notice required or authorized by this tariff to be given by the Company or the Attacher to the other party shall be deemed to have been fully given when made in writing and deposited in the United States mail, postage prepaid, and addressed to such other party's principal business address last furnished by such party.

X.13. Rental Charges

1. The Attacher shall pay to the Company, annually in advance, the rental charges specified below.
2. From the effective date of the permit for previously unbilled attachments which shall be the date when the Company's facilities are made available for use by the Attacher, to the date of the next annual billing, the annual rental rate shall be payable on a prorated basis with such fractional amount submitted with the application for attachment.

X.14. Penalty Charges

Where pole attachments have been made without receipt of authorization from the Company, a penalty charge of twice the amount of the annual rate, from the date of the last previous physical inventory of pole attachments or inspection required pursuant to the rules of the Kentucky Public Service Commission, whichever is most recent. Additionally, a special "make-ready" charge, equal to twice the amounts that would have been due and applicable if the attachment or usage had been properly authorized, shall apply.

X.15. Overlashing

1. No less than thirty (30) days prior to a planned overlash, the existing Attacher shall provide advance notice to the Company of its intent to allow overlashing of its Attachments. The Notice shall include at a minimum, the name and address of the proposed overlasher, the specific routes / poles being sought for overlashing, and the equipment / cable that shall be overlashed onto the existing Attacher. The advance notice must also include confirmation that the overlasher has met its insurance requirements under this tariff.
2. Subject to paragraphs 3 and 4 below, the Company shall not require prior approval for an existing Attacher that overlashes its existing wires on a pole; or a third party overlashing of an existing Attachment that is conducted with the permission of an existing Attacher.
3. The Company shall not prevent an attacher from overlashing because another existing Attacher has not fixed a preexisting violation unless failing to fix the preexisting violation would create a capacity, safety, reliability, or engineering issue.
4. If, after receiving advance notice, the Company determines that an overlash would create a capacity, safety, reliability, or engineering issue, it shall provide specific documentation of the issue to the party seeking to overlash within the thirty (30) day advance notice period and the party seeking to overlash shall address any identified issues before continuing with the overlash either by modifying its proposal or by explaining why, in the party's view, a modification is unnecessary.
5. A party that engages in overlashing shall be responsible for its own equipment and shall ensure that it complies with reasonable safety, reliability, and engineering practices.
6. If damage to a pole or other existing attachment results from overlashing or overlashing work causes safety or engineering standard violations, then the overlashing party shall be responsible at its expense for any necessary repairs.

7. Notices and Inspections / Correction of Completed Overlashes. An overlashing party shall notify the Company within fifteen (15) days of completion of the overlash on a particular pole.
- (a) The notice shall provide the Company at least ninety (90) days from receipt in which to inspect the overlash.
 - (b) The Company shall have fourteen (14) days after completion of its inspection to notify the overlashing party of any damage or code violations to its equipment caused by the overlash.
 - (c) If the Company discovers damage or code violations caused by the overlash on equipment belonging to the Company, then the Company shall inform the overlashing party and provide adequate documentation of the damage or code violations.
 - (d) At its sole discretion the Company shall either (i) Complete any necessary remedial work and bill the overlashing party for the reasonable costs related to fixing the damage or code violations; or (ii) require the overlashing party to fix the damage or code violations at its expense within fourteen (14) days following notice from the Company.

1st Revised Sheet 15

SECTION X – POLE ATTACHMENTS (cont'd)

X.16. Procedure for New Attachers to Request Pole Attachments. Timelines provided herein are subject to change should conditions outlined in Section X.20 exist.

1. Application Review

- a) All requests for Pole Attachments must be made in writing by the new Attacher and include payment of the per pole Survey Charge provided if applicable. The Company shall review a new Attacher's pole attachment application for completeness before reviewing the application on its merits and shall notify the new Attacher within ten (10) business days after receipt of the new Attacher's pole attachment application if the application is incomplete.
- b) The Company shall not require a new attacher to submit a survey or pole loading analysis as a filing requirement for an application.
- c) The Company shall complete a review of an application of 500 poles or less within ten (10) business days after receipt of the application. The Company shall have an additional one (1) business day to complete its review for each additional 500-pole increment in an application.
- d) If the Company notifies a new Attacher that its attachment application is not complete, then it shall state all reasons for finding it incomplete, including lack of applicable fees.
- e) If the Company rejects an application the rejection shall state the reason for the denial and shall include specific citations to this regulation and the utility's tariff that form the basis of the rejection.
- f) If the Company does not respond within the time prescribed in subparagraph c. of this paragraph after receipt of the application, or if the Company rejects the application as incomplete but fails to state any reasons in the Company's response, then the application shall be deemed complete and the time for the Company's next procedural step begins to run.
- g) A new Attacher, if it submits an application while a previous application is still under review, may prioritize the order in which the Company shall review the applications. Prioritizing a new application resets the respective review time period of the new attacher's deprioritized applications currently under review over which the new application is being prioritized.

2. Survey and Application Review on the Merits

- a) A new attacher may submit a survey with an application of 500 poles or less, which the Company shall accept if the new attacher used an approved contractor listed on the Company's website and the survey was conducted no longer than thirty (30) days prior to submission. The Company shall conduct the survey for applications exceeding 500 poles. (C)
- b) The Company shall complete a survey of poles for which access has been requested within forty-five (45) days of receipt of a complete application to attach facilities to its poles for the purpose of determining if the attachments may be made and identifying any Make-ready to be completed to allow for the Attachment. (C)
- c) The Company shall use commercially reasonable efforts to provide the new and existing Attachers with advance notice of not less than five (5) business days of any field inspection as part of the survey and shall provide the date, time, and location of the inspection, and name of the contractor, if any, performing the inspection. The Company shall allow the new Attacher and any existing Attachers on the affected poles to be present for any field inspection conducted as part of the Company's survey.

3. Payments

- a) Survey Charges. The new Attacher shall be responsible for the costs of surveys made to review the New Attacher's pole attachment application even if the new Attacher decides not to go forward with the attachments.
- b) Payment of Make-Ready Estimates. Within fourteen (14) days of providing a response granting access pursuant to Section X.16(2)(e), the Company shall send a new Attacher whose application for access has been granted a detailed, itemized estimate in writing, on a pole-by-pole basis if requested and reasonably calculable of charges to perform all necessary make-ready.
 - 1) The Company shall provide documentation that is sufficient to determine the basis of all estimated charges, including any projected material, labor, and other related costs that form the basis of the estimate.
 - 2) The Company may withdraw an outstanding estimate of charges to perform make-ready beginning fourteen (14) days after the estimate is presented.
- c) A new Attacher may accept a valid estimate and make payment any time after receipt of an estimate, except a new Attacher shall not accept the estimate after the estimate is withdrawn. Invoices for estimates shall clearly identify the application or project for which payment is requested.
- d) Payment for the estimate shall clearly identify the application(s) or project(s) for which payment is made.

SECTION X – POLE ATTACHMENTS (cont'd)

X.17. Make-Ready. Upon receipt of payment for survey costs owed pursuant to the Company's tariff and the estimate specified in Section X.16 (3) the Company shall, as soon as practical but in no case more than seven (7) days, notify all known entities with existing attachments in writing that could be affected by the make-ready.

1. For make-ready in the communications space, the notice shall:

- State where and what make-ready will be performed;
- State a date for completion of make-ready in the communications space that is no later than forty-five (45) days after notification is sent (or up to 105 days in the case of larger orders as established in X.20.)
- State that any entity with an existing attachment may modify the attachment. Modification shall be consistent with the specified make-ready before the date established for completion;
- State that, if make-ready is not completed by the completion date established in this paragraph 1, the new Attacher may complete the make-ready, which shall be completed as specified pursuant to this paragraph 1; and
- State the name, telephone number, and email address of a person to contact for more information about the make-ready procedure.

2. For make-ready above the communications space, the notice shall:

- State where and what make-ready will be performed;
- State a date for completion of make-ready that is no later than ninety (90) days after notification is sent (or 135 days in the case of larger orders, as established in Section X.20.
- State that any entity with an existing attachment may modify the attachment. Modification shall be consistent with the specified make-ready before the date established for completion;
- State that the Company may assert its right to up to fifteen (15) additional days to complete make-ready;
- State that if make-ready is not completed by the completion date established in this paragraph 2 (or, if the Company has asserted its fifteen (15) day right of control, fifteen (15) days later), the new Attacher may complete the make-ready, which shall be completed as specified in this paragraph 2; and
- State the name, telephone number, and email address of a person to contact for more information about the make-ready procedure.

X.17 Make-ready (cont'd)

3. Once the Company provides the notices required in paragraphs 1 or 2 of this Section, it shall provide the new Attacher with a copy of the notices and the existing Attachers' contact information and address where the utility sent the notices. The new Attacher shall be responsible for coordinating with existing Attachers to encourage completion of make-ready by the dates established by the Company pursuant paragraph 1 for communications space attachments or paragraph 2 for attachments above the communications space.
4. The Company shall complete its make-ready in the communications space by the same dates established for existing Attachers in paragraph 1 or its make-ready above the communications space by the same dates for existing Attachers in paragraph 2 (or if the Company has asserted its fifteen (15) day right of control, fifteen (15) days later).
5. An attacher shall, within fifteen (15) business days following completion of all attachments within an application, provide written notice the Company in the manner and form listed on its website per X.1.3 of this tariff.

(C)
(C)

X.18. Final invoice

1. Within a reasonable period, not to exceed 120 days after the Company completes its make-ready, the Company shall provide the new Attacher:
 - A detailed, itemized final invoice of the actual survey charges incurred if the final survey costs for an application differ from any estimate previously paid for the survey work or if no estimate was previously paid; and
 - A detailed, itemized final invoice, on a pole-by-pole basis if requested and reasonably calculable, of the actual make-ready costs to accommodate attachments if the final make-ready costs differ from the estimate provided pursuant to Section X.16.3(b).
2. To the extent that the final invoice indicates an overpayment of survey charges and / or make-ready costs, such overpayment shall be refunded to the attacher.

X.19. Limitations on Make Ready Charges

1. The Company shall not charge a new Attacher, as part of any invoice for make-ready, to bring poles, attachments, or third-party or Company equipment into compliance with current published safety, reliability, and pole owner construction standards if the poles, attachments, or third-party or Company equipment were out of compliance because of work performed by a party other than the new Attacher prior to the new attachment.
2. The Company shall not charge a new Attacher, as part of any invoice for make-ready, the cost to replace any Red Tagged pole with a replacement pole of the same type and height.
3. If a Red Tagged pole is replaced with a pole of a different type or height, then the new Attacher shall be responsible, as part of any invoice for make-ready, only for the difference, if any, between the cost for the replacement pole and the cost for a new utility pole of the type and height that the Company would have installed in the same location in the absence of the new Attachment.
4. The make-ready cost, if any, for a pole that is not a red tagged pole to be replaced with a new Pole to accommodate the new Attacher's attachment shall be charged the Company's cost in accordance with the Company's tariff or a special contract regarding pole attachments between the Company and the new Attacher.

X.21. Self-help Remedy

1. Surveys. If the Company fails to complete a survey as established in Section X.16, then a new Attacher may conduct the survey in place of the Company by hiring a contractor to complete a survey, which shall be completed as specified in Section X.23.
 - a) A new Attacher shall use commercially reasonable efforts to provide the Company and existing Attachers with advance notice of not less than five (5) business days of a field inspection as part of any survey the Attacher conducts and shall include the date and time of the survey, a description of the work involved, and the name of the contractor being used by the new Attacher.
 - b) A new Attacher shall allow the Company and existing Attachers to be present for any field inspection conducted as part of the new Attacher's survey.
2. Make-ready. If make-ready is not complete by the applicable date established in Section X.16, then a new Attacher may conduct the make-ready in place of the Company and existing Attachers by hiring a contractor to complete the make-ready, which shall be completed as specified in Section X.23. The make-ready shall be performed in compliance with this administrative regulation, the Company's tariff, and the construction standards listed on the Company's website per X.1.3 of this tariff.
 - a) A new Attacher shall use commercially reasonable efforts to provide the Company and existing Attachers with advance notice of not less than seven (7) days of the impending makeready and shall include the date and time of the make-ready, a description of the work involved, and the name of the contractor being used by the new Attacher
 - b) A new Attacher shall allow the affected utility and existing Attachers to be present for any make-ready.
3. The new Attacher shall notify the Company or existing Attacher immediately if make-ready damages the equipment of the Company or an existing Attacher or causes an outage that is reasonably likely to interrupt the service of the Company or existing Attacher.
4. Pole replacements. Self-help shall not be available for pole replacements.

X.22. One-touch make-ready option. For Attachments involving Simple Make-ready, new Attachers may elect to proceed with the process established in this subsection in lieu of the attachment process established in Section X.16.

1. Attachment Application. A new Attacher electing the one-touch make-ready process shall elect the one-touch make-ready process in writing in its attachment application and shall identify the simple makeready that it will perform. It is the responsibility of the new Attacher to ensure that its contractor determines if the make-ready requested in an attachment application is simple.
2. Application completeness
 - a) The Company shall review the new Attacher's attachment application for completeness before reviewing the application on its merits and shall notify the new Attacher within ten (10) business days after receipt of the new Attachers attachment application whether or not the application is complete.
 - b) An attachment application shall be considered complete if the application provides the Company with the information necessary to make an informed decision on the application.
 - c) If the Company notifies the new Attacher that an attachment application is not complete, then the Company shall state all reasons for finding the application incomplete.
 - d) If the Company fails to notify a new Attacher in writing that an application is incomplete within ten (10) business days of receipt, then the application shall be deemed complete.

SECTION X – POLE ATTACHMENTS (cont'd)

X.24. Notice of Changes to Existing Attachers.

Unless otherwise established in a joint use agreement or special contract, the Company shall provide an existing Attacher no less than sixty (60) days written notice prior to:

1. Removal of facilities or termination of any service to those facilities if that removal or termination arises out of a rate, term, or condition of the Company's pole attachment tariff or any special contract regarding pole attachments between the Company and the attacher; or
2. Any modification of facilities by the Company other than make-ready noticed pursuant to X.16, routine maintenance, or modifications in response to emergencies.
3. An existing attacher may request a stay of the action contained in a notice received pursuant to paragraph (1) of this section by filing a motion within fifteen (15) days of the receipt of the first notice provided pursuant to paragraph (1) of this section.

SECTION X – POLE ATTACHMENTS (cont'd)

X.25. Transfer of Attachments to New Poles

1. Unless an applicable tariff or special contract or Section 4 of this administrative regulation establishes a different timeframe, existing Attachers shall transfer their attachments within sixty (60) days of receiving written notice from the Company pole owner.
2. Existing attachers may deviate from the time limit established in paragraph 1 of this subsection for good and sufficient cause that renders it infeasible for the existing Attacher to complete the transfer within the time limit established. An existing Attacher that requires such a deviation shall immediately notify, in writing, the Company and shall identify the affected poles and include a detailed explanation of the reason for the deviation and the date by which the attacher shall complete the transfer. An existing Attacher shall deviate from the time limits established in paragraph 1 of this subsection for a period no longer than is necessary to complete the transfer.
3. If an existing Attacher fails to transfer its attachments within the timeframe established in paragraph 1 of this subsection and the existing Attacher has not notified the Company of good and sufficient cause for extending the time limit pursuant to paragraph 1 of this subsection, the Company pole owner may transfer attachments and the transfer shall be at the existing Attacher's expense.
4. The Company pole owner may transfer an existing Attacher's attachment prior to the expiration of any period established by paragraphs 1 or 2 of this subsection if an expedited transfer is necessary for safety or reliability purposes.

EXHIBIT A

PART II

CATV Annual Carrying Charge

The annual carrying charge as based on the 1982 Annual Report, Form M, to the Public Service Commission of Kentucky, and Commission Orders, as follows:

A. Depreciation

Depreciation on pole lines is stated at Page 31, Line 7, Column (d).

B. Taxes

The formula for calculating taxes is:

$$\frac{\text{Page 16, Lines 6 + 7, Column (b)}}{\text{Page 12, Line 10, Column (b)}}$$

C. Administration and Overhead

The formula for calculating administration and overhead is:

$$\frac{\text{Page 61, Lines 36 + 45 + 51 + 61, Column (b)}}{\text{Page 12, Line 10, Column (b + c)}} \times 2$$

D. Maintenance

The formula for calculating maintenance is:

$$\frac{\text{Page 60, Line 1, Column (b)}}{\text{Page 19, Line 11, Column (b + h)}} \times 2$$

E. The rate of return should be the most recent rate of return authorized by the Commission.

CATV ANNUAL CARRYING CHARGE

Cost Justification
12-31-82

I. Weighted Average Cost of 30-35 Foot Poles: Two User

	<u>Quantity</u>	<u>Cost</u>
30 foot poles	1050	152,376
35 foot poles	<u>291</u>	<u>42,777</u>
	<u>1341</u>	<u>195,153</u>

Average Cost/Pole = $\$195,153 \div 1341 = \145.53

Average Cost x Bare Pole Factor = $\$145.53 \times .78\% = \114.52

II. Annual Carrying Charges:

A.) Depreciation = 4.00%

B.) Taxes =

$\frac{\text{Page 16, Lines 6 + 7, Column (b)}}{\text{Page 12, Line 10, Column (b)}} = \frac{84,291}{8,481,603} = .99\%$

C.) Administration and Overhead =

$\frac{\text{Page 61, Lines 36+45+51+61, Column (b)}}{\text{Page 12, Line 10, Column (b + c)}} = \frac{342,842}{8,736,358} = 3.92\%$

D.) Maintenance =

$\frac{\text{Page 60, Line 1, Column (b)}}{\text{Page 19, Line 11, Column (b + h)}} = \frac{3,253}{448,275} = .72\%$

E.) Rate on Investment: From PSC Case No. 8020 7.93%

F.) Summary of Annual Charges:

Depreciation	4.00%
Taxes	.99%
Administration	3.92%
Maintenance	.72%
Return on Investment	7.93%
Total Annual Charge	<u>17.56%</u>

III. Calculation of Attachment Annual Charge:

PUBLIC SERVICE COMMISSION
OF KENTUCKY

= (Average Pole Cost) x (Bare Pole Factor) x (Annual ~~EFFECTIVE~~) x (.1818)

= $(\$145.53) \times (.78\%) \times (17.56\%) \times (.1818) = \3.62 MAY 25 1983

CATV ANNUAL CARRYING CHARGE

Cost Justification
12-31-82

I. Weighted Average Cost of 40-45 Foot Poles: Three User

	<u>Quantity</u>	<u>Cost</u>
40 foot poles	76	11,029.12
45 foot poles	<u>9</u>	<u>1,323.00</u>
	<u>85</u>	<u>12,352.12</u>

Average Cost/Pole = $\$12,352.12 \div 85 = \145.32

Average Cost x Bare Pole Factor = $\$145.32 \times .78\% = \113.35

II. Annual Carrying Charges:

A.) Depreciation = 4.00%

B.) Taxes =

$\frac{\text{Page 16, Lines 6 + 7, Column (b)}}{\text{Page 12, Line 10, Column (b)}} = \frac{84,291}{8,481,603} = .99\%$

C.) Administration and Overhead =

$\frac{\text{Page 61, Lines 36+45+51+61, Column (b)}}{\text{Page 12, Line 10, Column (b + c)}} = \frac{342,842}{8,736,358} = 3.92\%$

D.) Maintenance =

$\frac{\text{Page 60, Line 1, Column (b)}}{\text{Page 19, Line 11, Column (b + h)}} = \frac{3,253}{448,275} = .72\%$

E.) Rate on Investment: From PSC Case No. 8020 7.93%

F.) Summary of Annual Charges:	Depreciation	4.00%
	Taxes	.99%
	Administration	3.92%
	Maintenance	.72%
	Return on Investment	7.93%
	Total Annual Charge	<u>17.56%</u>

III. Calculation of Attachment Annual Charge:

= (Average Pole Cost) x (Bare Pole Factor) x (Annual Charges) x (.0759)
= $(\$145.32) \times (.78\%) \times (17.56\%) \times (.0759) = \underline{\underline{\$1.51}}$
