C. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY

1. Availability of Facilities

The Telephone Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary pole lines, circuits and equipment.

2. Interruptions of service

If service is interrupted for more than 48 hours other than by the negligence or willful act of the subscriber, an allowance at the minimum rate for the telephone facilities and class of service affected at the time of the interruption shall be made for the time such interruption continues, after notice and demand to the Company. No other liability shall in any case attach to the Company on account of interruptions of service.

3. Directory Errors and Omissions

- a. The Telephone Company, except as provided herein, shall not be liable for damage claimed on account of errors in or omissions from its directories nor for the result of the publications of such errors in the directory nor will the Telephone Company be a party to controversies arising between subscribers or others as a result of listings published in its directories. Claims for damages on account of interruptions to service due to errors or omissions in directory listings will be limited to a pro rata abatement of the charge for such of the subscriber's service as is affected, the maximum abatement not to exceed one-half the service charges for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listing.

These applications become contracts when accepted in writing by the Telephone Company, or upon the establishment of service. Applicants for service are required to pay in advance at the time application is made, all charges accruing for the first billing period for exchange service and equipment, and the service connection charge if applicable. The terms and conditions specified in such contracts are subject to these General Rules and Regulations, the General Exchange Service Tariffs and the Local Exchange Service Tariffs for the particular exchange from which service is to be furnished. G. ESTABLISHMENT AND MAINTENANCE OF CREDIT

1. Establishment of Credit

The Telephone Company is not obligated to furnish service to any individual or firm that owes for service previously rendered at the same or a different address, until arrangements have been made to liquidate such previous indebtedness to the Company.

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- a. By furnishing references acceptable to the Telephone Company.
- b. By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- c. By means of a cash deposit.

2. Amount of Deposits

The Company may require a minimum cash deposit or other guaranty to secure payment of bills.

Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

2. Amount of Deposits (Continued)

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Company may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the Company. If the customer has no previous history with the Company, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.

If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Company may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

The amount of the security or deposit shall not exceed an amount equal to two-twelfths (2/12) of the average annual bill of a residential or business customer served by the Company.
