## SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

## 3.4 Calculation of Distance

Usage charges for mileage sensitive services vary based on the type of service subscribed to by the Customer. For services utilizing switched access, mileage measurements for rate schedules are based on the distance in airline miles between rate centers associated with the originating and terminating stations. For services utilizing dedicated access, mileage measurements for rate schedules are based on the distance in airline miles between the Touchtone network access point associated with the station utilizing Dedicated Access Origination/Termination and the rate center associated with the called/calling station.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center or network access point serving the Customer's location and the called/calling station.
- Step 2: Obtain the difference between the "V" coordinates. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating locations of the call.

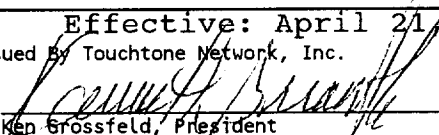

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

Calls may originate from any exchange in Kentucky and terminate to the Customer's location at no charge to the calling party. Calls are billed in six (6) second increments.

Service is subject to volume discounts. The Customer's per minute rate is determined by the minimum monthly interstate and intrastate usage of the Customer for Touchtone Network 800 Service.

If a Customer fails to meet the minimum combined monthly usage level for the discount option provided by the Company, the Company reserves the right to re-evaluate the Customer's billing history and to convert the Customer, upon thirty days written notice to the discount option which best matches the Customer's monthly billing.
