**RULES AND REGULATIONS**

The following are the rules and regulations of the Center Ridge Water System. The schedule of rates prescribed herein will be uniformly charged to all customers of the utility. No one will receive or be entitled to free service by the utility. No employee or individual commissioner of the utility is permitted to make an exception to these rates, rules, or regulations. These rules and regulations are subject to change by the utility at any time, subject to the approval of the Public Service Commission.

1. All connections will be at the customer's property line, and must have a shutoff valve at said point. The shutoff valve will be installed at the customer's expense.
2. A Tap-on/Connection Charge shall be assessed for new service connections. The amount of said charge will be set forth in the rates and charges section of this tariff. This charge will only be made when a new connection is made to the system. A current connection that has a change of ownership will not be assessed the charge.
3. All leaks must be reported immediately. Due to the fact that service is un-metered, there is no incentive for customers repair leaks. Therefore, water service may be disconnected if the customer fails to repair the leak on their side of the property line within forty-eight (48) hours of notification.
4. Each connection will be charged for service, and a single connection can serve no more than one residential or commercial unit.
5. Under no circumstances will a customer be allowed to resell or give away water except under the terms of a special contract executed by the utility and approved by the Public Service Commission. Due to the fact that service is un-metered, failure to comply with this rule will constitute grounds for disconnection of service.
6. All water lines must be underground and not exposed.

**RULES AND REGULATIONS**

7. All costs associated with lines, leaks, repairs, maintenance, etc., on the customer's property will be the responsibility of the customer.
8. The water must be shut off and lines drained prior to freezing weather on any dwelling left unoccupied for more than 72 hours.
9. Service can be disconnected due to non-payment, misuse, or non-compliance with the utility's or PSC rules. Due to the fact that service is un-metered, a disconnection of service requires the customer's water line to be physically separated from the system. Before service can be restored, a re-connection fee, in addition to any other fees owed to the utility, must be paid in full. The amount of the reconnection charge is set forth in the rates and charges section of this tariff.
10. The shut off valves outside the water system building are there for the customer's convenience. Tampering with any of the system's property can result in termination of service.
11. If a customer sells the property upon which water service is provided, or if a customer moves to a new address, proper notification must be given to the utility.
12. Customers may choose to pay ~~\$230.64~~ for the entire upcoming year's water usage at once. Otherwise, \$19.22 will be due on the 1<sup>st</sup> day of each month. If payment has not been received by the 1<sup>st</sup> day of the month, a delinquency notice will be sent informing the customer that service will be disconnected on the 15<sup>th</sup> day of the month if payment has not been received by then. In addition, a late payment penalty will be assessed. The amount of said penalty will be set forth in the rates and charges section of this tariff. The bill and the late payment penalty must be paid by the 15<sup>th</sup> day of the month to avoid disconnection. If water service is disconnected, the bill, the late payment penalty, and the reconnection charge must be paid before service can be restored.

If any of the above rules are not followed, proper notice will be given, and water service will be disconnected.

RULES AND REGULATIONS

The following are the rules and regulations of the Center Ridge Water District #2, Inc. The schedule of rates prescribed herein will be uniformly charged to all customers of the utility. No one will receive or be entitled to free service by the utility. No employee or individual commissioner of the utility is permitted to make an exception to these rates, rules, or regulations. These rules and regulations are subject to change by the utility at any time, subject to the approval of the Public Service Commission.

1. All connections will be at the customer's property line, and must have a shutoff valve at said point. The shutoff valve will be installed at the customer's expense.
2. A Tap-on/Connection Charge shall be assessed for new service connections. The amount of said charge will be set forth in the rates and charges section of this tariff. This charge will only be made when a new connection is made to the system. A current connection that has a change of ownership will not be assessed the charge.
3. All leaks must be reported immediately. Due to the fact that service is un-metered, there is no incentive for customers repair leaks. Therefore, water service may be disconnected if a leak is found to have been leaking on the customer's side of the property line for more than forty-eight (48) hours and the customer fails to notify the utility.
4. Each connection will be charged for service, and a single connection can serve no more than one residential or commercial unit.
5. Under no circumstances will a customer be allowed to resell or give away water except under the terms of a special contract executed by the utility and approved by the Public Service Commission. Due to the fact that service is un-metered, failure to comply with this rule will constitute grounds for disconnection of service.
6. All water lines must be underground and not exposed.

RULES AND REGULATIONS

- 7. All costs associated with lines, leaks, repairs, maintenance, etc., on the customer's property will be the responsibility of the customer.
- 8. The water must be shut off and lines drained to all unoccupied dwellings prior to freezing weather.
- 9. Service can be disconnected due to non-payment, misuse, or non-compliance with the utility's or PSC rules. Due to the fact that service is un-metered, a disconnection of service requires the customer's water line to be physically separated from the system. Before service can be restored, a re-connection fee, in addition to any other fees owed to the utility, must be paid in full. The amount of the reconnection charge is set forth in the rates and charges section of this tariff.
- 10. The shut off valves outside the water system building are there for the customer's convenience. Tampering with any of the system's property can result in termination of service.
- 11. If a customer sells the property upon which water service is provided, or if a customer moves to a new address, proper notification must be given to the utility.
- 12. Bills for the upcoming year will be issued on December 1 of the current year. Customer's will have until January 1 to pay the bill. If payment has not been received by January 1, a delinquency notice will be sent informing the customer that service will be disconnected on January 15 if payment has not been received by then. In addition, a late payment penalty will be assessed. The amount of said penalty will be set forth in the rates and charges section of this tariff. The bill and the late payment penalty must be paid by January 15 to avoid disconnection. If water service is disconnected, the bill, the late payment penalty, and the reconnection charge must be paid before service can be restored.

If any of the above rules are not followed, proper notice will be given, and water service will be disconnected.
