Re: Phase VI Improvements
Grand Rivers Water System
Letter of Intent

Dear Mr. Beavers:

It is the intent of Grand Rivers to begin purchasing water from the Crittenden-Livingston County Water District immediately upon completion of the Phase VI Improvements. We are committing for a minimum of 60 million gallons per year (5 million per month) and in actuality we will be purchasing all our water needs no later than 2003.

Sincerely,
CITY OF GRAND RIVERS

Randall O'Bryan
City Manager

Livingston County

WATER PURCHASE CONTRACT

THIS CONTRACT, made and entered into this 25th day of April, 2000, by and between the CRITTENDEN-LIVINGSTON COUNTY WATER DISTRICT, organized as a water district under Chapter 74 of the Kentucky Revised Statutes, party of the first part, hereinafter referred to as the "Seller", and the CITY OF GRAND RIVERS, KENTUCKY, a municipal corporation of the 5th class, under the laws of the Commonwealth of Kentucky, party of the second part, hereinafter referred to as the "purchaser",

WITNESSETH :

WHEREAS, the Seller is in the process of arranging the construction of an addition to the waterworks system, including an enlargement of the water treatment plant and extending their distribution system, to serve across the South Side of the Cumberland River, and to finance the cost (not otherwise provided) of such construction.

WHEREAS, the Purchaser is in need of an additional source of water to serve the citizens and residents of its service area, and

WHEREAS, upon completion of the aforesaid addition to the water system, the seller will have a water plant or plants of sufficient capacity to provide for the currently anticipated needs and requirements of the customers of the Seller and further to serve the Purchaser a minimum of five (5) million gallons per month with no set maximum, of the water needed by the Purchaser, and

WHEREAS, the Seller is willing to sell the Purchaser a minimum supply of five (5) million gallons of available water which is reasonably expected to be available to the seller after providing for the reasonably anticipated water service obligations of the Seller to its own residents, and

WHEREAS, the governing bodies of the Purchaser and the Seller have duly authorized the execution of this contract,

NOW, THEREFORE, in consideration of the premises, of the mutual covenants and agreements herein contained, of the prompt payment of the rates as herein

agreed to and set out, and of the prompt delivery of the water supply as herein agreed to and set out, the parties hereto have agreed as follows:

1. The Seller agrees to sell and deliver to the Purchaser, and the Purchaser agrees to purchase and receive from the Seller, a minimum of five (5) million gallons per month with no set maximum for whatever purposes desired by the Purchaser and for such others as the Purchaser may contract with for the furnishing of water, subject to the terms and conditions set out herein.
2. This Contract shall become effective upon the completion of the construction of the addition to the waterworks system of the Seller to the extent sufficient to enable the Seller to begin serving water to the purchaser, and in no event later than July 1, 2001, and shall continue for a period of forty (40) years certain thereafter; provided, that in the event any court of competent jurisdiction shall ever hold that the duration of this Contract is illegal by reason of being in excess of twenty (20) years, then it is agreed by the parties that this Contract shall be effective for a period of twenty (20) years or for such shorter period as shall be determined to be valid by a final decision of such court; provided further, however, this clause is not to be construed as indicating any doubt as to the validity or effectiveness of said forty (40) years' provision or any other provisions of this Contract.
3. The effectiveness of this Contract is subject to the award by the Seller of contracts for the construction of the addition to its waterworks system after approval by the Public Service Commission of Kentucky, and the effectiveness of this Contract is also subject to the approval of said Public Service Commission and the Rural Development Administration.
4. The quality of water delivered by the Seller to the Purchaser hereunder shall meet the standards of the United States Public Health Service Limitations for Drinking Water.
5. The Seller shall install a twelve (12) inch water line from its water tank located on Heater Store Road, to its intersection with Ky. Hwy. 453, then south and parallel with Ky. Hwy. 453 to Newbern Rd. then an eight (8) inch water line parallel with Ky. Hwy. 453 to the "Connection Point" at or near Jake Dukes Rd. on the South

side of the Cumberland River, which Connection Point will intersect with the existing ten (10) inch water line of the Purchaser at Highway 453 and Jake Duke Road.

6. The Seller shall maintain water pressure of not less than 50 pounds per square inch at the Connection Point at all times, except in cases of unavoidable casualty, acts of God, strikes, or other instances beyond the reasonable control of the Seller.
7. The Seller shall use reasonable diligence and care to provide a regular and uninterrupted supply of water to the Purchaser and to avoid any shortage or interruption of service thereof. The minimum amount, which the Seller must furnish during any month, shall not be less than a total of five (5) million gallons. The minimum amount which the Seller must furnish during any 24 hour period shall be an amount not less than a total of seven hundred twenty thousand (720,000) gallons of water for such 24 hour period or not to be less than a rate of five hundred (500) gallons per minute during any 24 hour period. The Seller shall not be liable for any failure, interruption, or shortage of water or any loss or damage resulting therefrom occasioned in whole or in part by any cause beyond the reasonable control of the Seller.
8. That the Seller will, at all time, operate and maintain its system in an efficient manner and will take such action as may be necessary to furnish the Purchaser with quantities of water required by the Purchaser. Temporary or partial failure to deliver water shall be remedied with all possible dispatch. In the event of an extended shortage of water, or the supply of water available to the seller is otherwise diminished over an extended period of time, the supply of water to Purchaser's customer or consumer shall be reduced or diminished in the same ratio or proportion as the supply to the Seller's customer or consumer is reduced or diminished.
9. If the Seller fails to provide to the Purchaser the quality of water as stated in this contract or fails to comply with state and or federal standards concerning the quality of the water provided, the Seller agrees to pay to the Purchaser, the difference in the cost of purchasing water from the Seller and the seller

OF KENTUCKY

purchasing water from a third party and exceeding the Purchaser's reasonable ability to make.

10. The Seller's boundaries shall meet the Purchaser's boundaries in accordance with the metes and bounds description attached hereto as Attachment A.
11. A master meter or meters (the "Master Meter") shall be furnished and installed at the expense of the Seller and shall be located within the boundaries of the Purchaser at the connection point. Such master meter shall be equipped (also at the expense of the Seller) with a check valve or valves which shall be located at a reasonable place or places at or near the Connection Point, as shall be mutually agreed upon by the parties. Such Master Meter and check valve(s) shall measure the quantity of water furnished by the Seller and used by the Purchaser, on a monthly basis, and will determine the monthly amounts to be paid by the Purchaser to the Seller for such water, subject to all applicable conditions and limitations specified herein.
12. The Master Meter shall be checked by both the Seller and the purchaser through their authorized agent(s) or employee(s), and said Master Meter shall be maintained and tested according to any applicable rules and regulations of the Public Service Commission of Kentucky, and if found to be inaccurate, shall be corrected as soon as practicable (and adjustments based on such meter testings shall be made in previous payments to conform to the results of such tests).
13. The Master Meter shall measure the water furnished by the Seller and used by the Purchaser on a daily basis, and will determine the monthly amounts to be paid by the Purchaser to the Seller for such water. Said Master Meter shall be read periodically, at least once each ten days, by an officially designated employee of the Seller and such Master Meter shall be accessible at all reasonable times to an officially designated employee of the Purchaser for the purpose of reading and checking same. The official reading, which will determine the basis of the charges rendered to the Purchaser, will be the readings made by the Seller.
14. The Seller agrees that at its own expense, it will procure, furnish, install, operate, and maintain the necessary facilities, right-of-way, and easements required to

furnish the water service necessary to serve the Purchaser to the Connection Point.

15. The Purchaser agrees to pay for the water so sold and delivered to the Connection Point, for the first two years after the date of the initial delivery of water by the Seller to the Purchaser, which initial delivery shall begin no later than July 1, 2001, at the rate of one dollar eighty-three cents (\$1.83) per one thousand (1,000) gallons; provided however, that upon the expiration of such initial two-year period and in any year thereafter for the extent of this contract, such rate may be reviewed and/ or adjusted by the Seller upon 90 days' notice from either party to the other party, as follows:

16. Upon written request of either party, made at least ninety (90) days in advance of the proposed effective date of such adjustment, which requests shall not be made more frequently than once per year, such rates shall be adjusted based on any increase or decrease in the costs borne by the Seller since the beginning of the initial effective period of such rates, or since the last adjustment in rates between the parties, whichever is later, the cost increases or decreases so taken into account being the costs of producing and delivering water to the Master Meter of the Purchaser, such costs to be determined based upon the certified audit of the records of the Seller by a certified public accountant, a copy of which audit shall be furnished to the Purchaser. Any adjustment in rates shall be subject to review and final approval by the Public Service Commission of Kentucky. Such Costs per 1,000 gallons of producing water shall be based on the total number of gallons of water produced by the Seller, regardless of the amount of water sold by the Seller to the Purchaser.

17. As set out above, any increase or decrease in rates shall be based on a demonstrable increase or decrease in the costs of performance hereunder, but such costs shall not include increased capitalization (being defined as "increased valuation without capital expenditure") of the Seller's system. All provisions of this contract may be modified or altered by mutual agreement.

18. The Purchaser agrees to maintain and repair, and keep all of its mains, pipes, services and facilities in reasonably good condition to enable it to continue purchasing water from the Seller.
19. The Purchaser assumes all responsibility for its own billing and for maintenance of its own system, the responsibility of the Seller being solely to deliver water to the purchaser at the Connection Point. The Purchaser will assume the burden and cost of distribution of the water to its customers from the point of the Master Meter, including the cost of all-electric power, insurance, pumping, storage, and related expense. If any booster pumping station is required by the Purchaser in order to effect the distribution of water purchased from the Seller from the point of the Master Meter to the customers of the Purchaser, the entire cost of such booster pumping station will be borne by the Purchaser, provided, however, that if and to the extent that any such booster pumping station shall be required in order to enable the Seller to deliver water to the Connection Point, the cost thereof will be borne by the Seller.
20. In the event that the population of the territory of the Seller should increase to such an extent that the existing facilities of the Seller cannot adequately serve said population, and if same should occur before existing facilities can be extended by the Seller to meet such contingency, the quantity of water supplied to the Purchaser may then be reduced by the same percentage as such quantity is reduced to all other customers and consumers of the Seller, for a period of time sufficient to enable the Seller to expand.
21. The construction of the addition to the plant and water supply distribution system by the Seller is being financed by a loan made or insured by, and/or grant from, the United States of America, acting through the Rural Development Association of the United States Department of Agriculture, and the provisions hereof pertaining to the undertakings of the Seller are conditioned upon the approval, in writing, of the State Director of the Rural Development Association. All rights of the Seller herein are hereby assigned to the Rural Development Association so long as it is the owner of all of the outstanding Bonds of the Seller, provided that if and whenever any or all of such Bonds shall be sold to a different owner or

owners, such rights shall vest in such other owners. The Seller further agrees to transfer to any bona fide Receiver or other subsequent operator of the Seller's system, pursuant to any valid Court order in a proceeding brought to enforce collection or payment of the Seller's obligations under any Bonds outstanding against the Seller's System, all rights if the Seller under this Contract, conditionally, for such time only as such Receiver or operator shall operate by authority of the Court.

- 22. Nothing contained in this Contract is to be construed or intended by the parties as divesting the Public Service Commission of Kentucky of any of its authority, jurisdiction, control, or prerogatives in connection with either of the parties.
- 23. That in the event of any occurrence rendering the Purchaser incapable of performing under this Contract, any successor of the Purchaser, whether the result of legal process, assignment, or otherwise, shall succeed to the rights of the Purchaser hereunder.
- 24. If any section, paragraph, or clause of this Contract be held invalid, the invalidity of such section, paragraph, or clause shall not affect any of the remaining provisions of this Contract.
- 25. IN WITNESS WHEREOF, the seller, by resolution duly adopted by its Board of Commissioners, authorizing its Chairman and its Secretary, and Purchaser, by Ordinance duly enacted by its Commission, authorizing its Mayor and its City Clerk to affix their respective signatures, together with the seals of said respective parties, have hereunto executed this Contract, as of the date first hereinabove written.
