East Daviess County Water Association
(Name of Utility)

CANCELLING P.S.C. KY. NO. _____

_____ SHEET NO. _____

RULES AND REGULATIONS

Leak Adjustments. A customer may make a request for a bill adjustment in the event of a leak under the following conditions:

1. The customer must request a leak adjustment in writing to the utility.
2. The customer's bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. The second step will be to deduct the customer's average monthly usage (as calculated in the above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate, as set forth in the rates and charges portion of the utility's approved tariff. All water passing through the meter must be accounted and paid for by the customer. So the customer will owe the amount of his/her average bill plus the per thousand gallon leak adjustment rate for the remainder of the water that passed through the meter.
3. If meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a twelve-month average of actual meter readings can be calculated.
4. Only one (1) leak adjustment will be made per twelve-month period.
