RULES AND REGULATIONS

7. DISCONTINUANCE OF WATER SERVICE

The Company will not discontinue the service of any Customer for violation of any rule or regulation of the Company or for non-payment of bills, except on written notice of at least ten (10) days mailed to such Customer at his address as shown upon the Company's records or personally delivered to him or a member of his household, advising the Customer in what particular manner such rule has been violated, for which service will be discontinued if the violation is permitted to continue; provided, however, discontinuance of service shall be effected not less than twenty (20) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the Company a written certificate, signed by a physician, registered nurse or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the effected premises, in which case discontinuance may not be effected until the effected resident can make other living arrangements or until not less than ten (10) days elapse from the date of the Company's notification; provided, further, that where unauthorized use of water is detected or where the Company's regulating or measuring equipment has been tampered with, or where a dangerous condition is found to exist on the Customer's premises, service may be shut off without notice in advance.

Subject to the foregoing provisions, service rendered under any application, contract or agreement may be discontinued by the Company for any of the following reasons:

- (1) For willful or indifferent waste of water due to any cause which adversely effects either water service to other Customers or the Company's utility operation.
- (2) For failure to protect from injury or damage the meter and connections, or for failure to protect and maintain the service pipe or fixtures on the property of the Customer, in a condition satisfactory to the Company.

RULES AND REGULATIONS

(a) Whenever a meter in service is found upon periodic request or complaint test to be more than two percent (2%) fast, additional tests shall be made at once to determine the average error of the meter. Said tests shall be made in accordance with the Commission's regulation applicable to the type of meter involved.

(b) Determination of Meter Error for Bill Adjustment Purposes. When upon periodic request or complaint test, a meter is found to be in error in excess of the limits allowed by the Commission's regulations, three additional tests shall be made; one at 75% of rated maximum capacity; one at 50% of rated maximum capacity; one at 25% of the rated maximum capacity. The average meter error shall be the algebraic average of the errors of the three tests.

(c) If the result of test on a Customer's meter shows an average error greater than two percent (2%) fast, then the Customer's bill, for the period during which the meter error is known to have existed, shall be recomputed and the account adjusted on the basis of the test.

In the event the period during which the meter error existed is unknown, then the Customer's bill shall be recomputed for one-half (½) of the elapsed time since the last previous test but in no case to exceed twelve (12) months. (See exception in Section f of this rule.)

(d) If the result of tests on a Customer's meter shows an average error greater than two percent (2%) slow, then the Customer's bill for the period during which the meter error is known to have existed, may be recomputed and the account adjusted on the basis of the test.

In the event the period during which the meter error existed is unknown, then the Customer's bill may be recomputed for one-half (½) of the elapsed time since the last previous test but in no case to exceed twelve (12) months.

PUBLIC SERVICE COMMISSION

 ISSUED BY Harold C. Ward TITLE: President

C-9-92

Garrard County Water Association, Inc.

P.S.C. Ky. No. 2
Original Sheet No. 20
Cancelling P.S.C. Ky. No. 1
Second Revised Sheet No.

RULES AND REGULATIONS

(e) It shall be understood that when a meter is found to have an error in excess of two percent (2%) fast or slow the figure for calculating the amount of refund or the amount to be collected by the utility shall be that percentage of error as determined by the test; i.e., it is the duty of the utility to maintain the accuracy of its measuring device as nearly 100% as is commercially practicable. Therefore, percent error shall be that difference as between 100% and that amount of error as is indicated by the test.

(f) The burden of maintaining measuring equipment so that it will register accurately is upon the utility; therefore, if meters are found upon test to register fast and if time for periodic test has overrun to the extent that one-half ($\frac{1}{2}$) of the time elapsed since the last previous test exceeds twelve months, the refund shall be for the twelve (12) months as specified in Section C of this rule and in addition thereto, a like refund for those months exceeding the periodic test; provided, however that the Commission may relieve the utility from this requirement in any particular case in which it is shown that the failure to make the periodic test was due to causes beyond the utility's control.

14. TERMS AND CONDITIONS OF BILLING AND OF PAYMENT

(a) Bills for water service by meter will be rendered monthly and ending at such dates as may be determined by the Company.

(b) Bills for private fire hydrants shall be payable yearly.

(c) Special charges shall be payable upon demand.

(d) All bills for water and service are due and payable at the office of the Company or at a designated branch collecting agency when rendered, and are considered delinquent if not paid within ten days thereafter. Failure to pay will render the Customer subject to discontinuance of service and subject to charge for disconnecting and reconnecting service. If any bill for water service is not paid within ten days following the
