The customer will be required to pay any additional charges for Meter Connect Fees as shown on Sheet No. 7 in this tariff. The customer requesting a smaller size meter must accept the reduced flow volume at the service address and the District will not be responsible to know or calculate the impact to the customers plumbing demands or fixture flow rates.
- b. **Private Fire Line or Hydrant:** Customers who require a dedicated fire protection main or fire hydrant for their address for fire protection purposes must pay a monthly charge for this service. This charge recovers the cost to the District to pay for larger facilities than would normally be needed for potable, domestic water use and ensure that higher flow rates are available for those customers that demand stand-by fire protection. The charge also recovers the cost for the District to maintain, test, and replace any meters, valves, vaults, hydrants, back-flow prevention devices or other appurtenances which are required by District or state or national plumbing codes to provide a private fire service line or hydrant.
