HENDERSON COUNTY WATER DISTRICT

RULES AND REGULATIONS

SECTION 1. WATER CONNECTION CHARGES

Water connection charges are hereby established and shall be exacted for each connection with the waterworks system of the District, based on the respective dates on which application is filed and on the respective sizes of meter connection, as follows:

- A. For all customers who shall apply for a 3/4" water connection and who shall tender to the District the applicable connection charge, the connection charge is \$180.00
- B. For a 2" water connection, the connection charge is \$600.00

SECTION 2. MINIMUM USAGE OF WATER; DISCONNECTION PRIOR TO SUCH MINIMUM USAGE.

Each customer by signing an application for water service, agrees to pay to the District a total of \$180.00 in water connection charges and in monthly water charges. If, after having such water service made available to a customer, such customer fails to connect and actually purchase water and/or if, after making such connection, such customer disconnects such water service prior to the time that such customer will have paid to the District a total of at least \$180.00 in monthly water charges, then reconnection (or original connection) of water service to such customer shall not be made by the District unless such customer pays all charges and penalties owed, plus a disconnection charge in an amount equal to the difference between \$180.00 and the total amount paid by such customer to the District in monthly water charges.

SECTION 3. RIGHTS ON PAYMENT OF WATER CONNECTION CHARGES.

Water connections shall be brought to a point inside the property line or easement of the owners of any premises (residential, commercial or industrial) abutting upon any street, road, alley, public way or easement in which a water line is constructed by the District within 100 feet of the property line or easement of such owner. Such lines shall be considered available to any premises as to which the boundary line or easement is located within 100 feet of such water line.

Any and all property owners to whom such lines are so available shall be entitled to a water connection upon timely payment of the prescribed water connection charge as set out above, except the cost of boring a street or road will be in addition to the connection fee.

Any and all owners of properties where the property line or easement is located more than 100 feet from a water line shall be entitled to the same privilege by paying the additional cost of bringing a water line the additional distance, in excess of 100 feet, to his property line or easement.
