**CREDIT /DEBIT CARDS:**

All customers may pay their bill by credit or debit card. This method of payment may be made in person at the utility office or by telephone.

If on the bill due date an attempt to pay the credit card or debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late after that date. All late charges and penalties will be applied. If a customer is paying on our disconnect day and the card is denied, the same rules as above apply, in addition to service being disconnected.

When a customer makes a payment by credit card, the utility will assess a fee equal to that charged to the utility by the credit or debit card processing company to process the transaction. This fee is generally calculated using a formula applied to the balance of the amount charged to the credit or debit account but may be a flat fee per transaction. Prior to processing the transaction, the customer will be informed of the fee amount and, upon request by the customer, the formula employed to arrive at this fee amount.

**Partial Payment Plan**

(N)

Partial payment plans. The utility shall negotiate and accept reasonable partial payment plans at the request of residential customers who have received a termination notice for failure to pay, except that a utility is not required to negotiate a partial payment plan with a customer who is delinquent under a previous partial payment plan. Partial payment plans must be mutually agreed upon. Plans which extend for a period longer than thirty (30) days will be in writing and will advise customers that service may be terminated without additional notice if the customer fails to meet the obligations of the plan.

The customer is required to pay a minimum of \$15 towards the delinquent bill and must sign a form stating when the remainder will be paid. The customer will receive a copy of this agreement to keep for their records. If remainder payment has not been met by date indicated on agreement, then service will be terminated and a reconnect fee will be charged along with remainder to restore service. Once service has been turned off, no partial payment plan will be considered. The whole delinquent amount and reconnect fee will be due for restoration of service. Once the field operators have left the office to start cutoffs, no payment plans will be accepted.

### Installment Payment Plan

(N)

Installment Payment Plan. The utility shall negotiate and accept reasonable installment payment plans at the request of residential customers who have received a high bill, except that the utility is not required to negotiate an installment payment plan with a customer who is delinquent under a previous installment payment plan. Installment payment plans must be mutually agreed upon. Plans which extend for a period longer than thirty (30) days will be in writing and will advise customers that service may be terminated without additional notice if the customer fails to meet the obligations of the plan.

If the customer has a high bill and would like it spread out over multiple months, then an installment payment plan can be arranged. An agreement form will be signed by both the water office employee and the customer stating the terms of the installment. A copy of this form will be provided to the customer. This installment amount will be in addition to the customer's regular monthly water bill. If payment is not received by cutoff and no arrangements have been made, service will be disconnected. The reconnect fee will be charged to restore service. No more than two installment payment plans will be accepted at the same time.

SECOND PART may hereafter prescribe.

following penalties:

- A. Non-payment by the 10th of the month will be subject to a penalty of ten percent of the delinquent account.
- B. Non-payment by the 20th of the month will result in the water being shut off from the party of the FIRST PART'S property.
- C. In the event it becomes necessary for the party of the SECOND PART to shut off the water, a fee of \$25.00 will be charged  
for reconnection of the service. The party of the FIRST PART will also be required to pay all delinquent accounts and pay
