RULES AND REGULATIONS

7. Customer service lines and connections must be inspected by Utility personnel to insure against cross-connections and inadequate materials for drinking water.
8. Customer service lines shall be of at least 3/4 inch pipe or larger, and shall be at least 160 pounds pressure with 200 psi preferred. Service lines shall be buried at least 24 inches to prevent freezing.
9. No galvanized fittings may used on Customer lines.
10. A cut-off valve outside the meter box must be installed on the Customer's service line for the Customer's use.
11. A check valve to prevent back flow in case of water outage must be installed in the Customer's service line.
12. A plumbing inspection permit from the local Health Department must be shown before installation of a meter.
13. The Utility agrees to supply potable water with adequate pressure to the Customer meter. If water must be off for a planned outage Customers will be notified. In Case of emergency, water line repair or unforeseen water outage, the Utility will restore service as soon as possible.
14. Upon fulfilling contract terms and desiring to discontinue water service, the Customer must give written notice in person or via telephone pursuant to 807 KAR 5:006 Section 12(1) of discontinuance at the Utility office at least three days prior to the date on which disconnection is desired. If such notice is not given, the customer will remain liable for water used and service rendered to the premises by the Utility until said notice is received by the Utility office.
15. Upon signing this contract, the Customer agrees to pay any collection and/or legal fees incurred in past due accounts.
