The Customer, after approval by the Company of the plans, shall install at its cost all facilities necessary for the extension of service to the designated development.

The Company shall have the right to inspect the installation of the facilities and the materials at all times during construction. No facilities shall be covered or backfilled until approved by the Company.

If the Customer fails to complete the project or fails to complete the project according to the approved plans, the Company may complete the project or correct any deficiencies in workmanship or materials. The Company shall give Customer sixty (60) days notice to correct any deficiencies. The Customer shall be liable for any costs incurred by the Company for completion of such work.

The final project cost for the extension shall be the actual invoiced cost of materials, equipment, labor and other associated costs. Final documentation of the total project costs shall be presented to the Company within ninety (90) days of completion of the construction, along with "as built" plans of the construction certified by the Customer's engineer that all construction was performed as required by the plans and specifications. Upon receipt of the final project costs from the Customer, the Company shall review those costs and once accepted shall approve the project costs as the amount to be refunded as specified below.

For each customer connected to this main extension, the Company will refund to Customer a sum equivalent to fifty (50) feet of the final project cost of this extension. Total refunds shall not exceed the final project cost. This refund applies only to customers connected to the water main shown on the attached plat.

Refunds to the Customer shall be made in December of each year for those customers connected to this water main extension.
