APPENDIX		A-1

1. DEFINITIONS APPLICABLE TO RULES & REGULATIONS

1.1 "Commission" means the Kentucky Public Service Commission.

1.2 "Company" shall mean the Kentucky-American Water Company acting through its officers, managers, or other duly authorized employees or agents.

1.3 "Customer" shall mean any person, firm, corporation, entity or municipality supplied with water service by Kentucky-American Water Company pursuant to these Rules and Regulations.

1.4 "Bona fide prospective customer" shall mean any owner or lessee who is to be the occupant of an existing developed premises having a curb line abutting on that part of a street or public highway in which there is, or is to be, located a distribution main of the Company, who shall file a signed application for a new street service connection and for water service to such premises to be occupied.

1.5 "Residential" – Sales to single premise residences, or to multiple premises residences where each premises is served through a single Meter. Sprinkler services added to existing premises coded as residential would also be coded as residential. For premises served through a single Meter with multiple owners, where usage is primary for residential purposes, and the water is billed to a homeowner association such as a condominium complex they will be classified as residential and charged the residential rate.

1.6 "Commercial" – Sales to multiple premises residences served through a single Meter or battery of Meters. This would include two (or more) family houses and apartment houses. Sales to private schools, colleges, hospitals, churches and other private educational, cultural, social or religious organizations. Sales to business or manufacturing establishments where the water is not used principally in manufacturing or processing functions. This would include commercial offices of public utilities. Examples under this category are: stores, laundries, cleaners, shoe repair and other service establishments, garages and service stations, office buildings, sales offices or manufacturing or processing establishments, retail florists, theaters, bowling alleys, swim clubs, golf courses, manufacturing or processing establishment where water is used principally for sanitary purposes, barber shops. Water used for irrigation for agricultural purposes would normally be coded as commercial. Sprinkler services added to existing premises coded as commercial or industrial would also be coded as commercial.

1.7 "Industrial" – Sales to manufacturing of processing establishments where the water is used principally in manufacturing or processing function. This would include public or private utility plants using water for steam generation, power production, etc.

1.8 Other Public Authority or "OPA" – Sales to municipal, county, state or federal agencies (other than the sales of water for resale). Examples under this category are: city buildings, public schools, public housing developments, libraries and hospitals, fire stations, county, state and federal buildings and agencies.

1.9 Sales for Resale or "Resale" – Sales to private or public water utilities where the water is to be resold to customers of the utilities.

1.10 "Meter" means a device which measures and records the quantity of water supplied to a Customer.

1.11 "Company Service Line" means that portion of the water service line and appurtenances from the main to the Customer Service Line that is paid for and/or owned by the Company.

1.12 "Customer Service Line" means that portion of the water service line and appurtenances from the Customer's Premises to the Company Service Line, which is paid for and/or owned by the Customer. When the Meter is outside the Premises, the Customer Service Line is from the Meter pit to the Premises. When the Meter is inside the Premises, the Customer Service Line is from the stop box to the Premises.

1.13 "Premises" as contemplated in these Rules, shall mean and include:

1.13.1 A building under one roof and occupied as one business or residence; or

1.13.2 A combination of buildings owned or leased by one party in one common enclosure or a single tract of land not crossed by public streets, roads, or ways, and occupied by one family or business; or

1.13.3 a building owned or leased by one party, having two or more apartments, offices, or suites of offices, and using one or more halls and entrances in common; or

1.13.4 a double house having a solid vertical partition wall or a building erected as a single family residence served through one street service connection and subsequently converted into apartments or offices or a combination of such, and where separate water supply plumbing would not be practicable; or

1.13.5 each residential or business single occupancy unit, served through one street service connection in a building which is not a premise otherwise defined in these Rules.

1.13.6 any other location at which the Company provides metered service to a Customer in

accordance with these Rules regardless of whether there is a structure or building at that exact location.

1.14 "Fire Service Connection" is one to which is attached fixtures from which water is taken only for the extinguishment of fire.

1.15 "Public Fire Hydrant" - All public fire hydrants contracted for or ordered by Urban County, Municipality, County, State or Federal Agencies or Institutions. These must be located on or immediately adjacent to public right-of-way.

1.16 "Private Fire Hydrant" – All hydrants contracted for or by private entities on private property for the use of that entity or on private right-of-way. Also for public agencies for hydrants not located on public right-of-way.

1.17 "New Private Fire Hydrant Service" is available to areas before such time as a unit of government shall agree to pay public fire protection charges thereon in accordance with Rule 11 herein.

1.18 "Private Fire Service" – All private and public fire protection service lines with hose connections or sprinkler systems charged by line size.

1.19 "Temporary Service Connection" is one which is installed for the temporary use of water, including service to individual mobile homes. Provided: They are located on lots having a curb line abutting on that part of a street or public highway in which there is, or is to be, located a distribution main of the Company extending for at least one-half of the frontage of the lot on said street or highway.

1.20 "Rate" means the Company's Schedules of Rates and Tariffs then in effect.

1.21 "Rules" or "Rule" means these Company Rules and Regulations applicable to water service.

2. SERVICE & APPLICATIONS

2.1 Rules and Regulations Governing Rendering of Service

(a) The Rules and Regulations in their entirety as hereinafter set forth or as they may hereafter be altered or amended in a regular and legal manner shall govern the rendering of water service and every Customer will be bound thereby. The Rules and Regulations and Service Classifications contained in this tariff apply in the service territory of Kentucky-American

Water Company.

(b) Except fire and some special connection services, all service will be rendered on a Meter basis. Residential, commercial, industrial and OPA service are only regularly available for single Premises as "Premises" is defined in these Rules.

2.2 Requests for Water Service

(a) All persons, entities, firms, corporations or OPA's desiring water service, must request service from the Company in a manner prescribed by the Company, setting forth all purposes for which water will be used at the Premises for which service is requested. All information provided by the Customer must be true, accurate and kept up to date.

(b) Any change in the identity of the Customer at a Premises will require a new request for water service and the Company may, after reasonable notice, discontinue the water supply until such new request has been made and accepted.

(c) A Customer who has requested service and been accepted by the Company, shall be held liable for all water service furnished to the Premises until such time as the Customer properly notifies the Company to discontinue the service for his/her account at the Premises.

(d) An activation fee will be charged in accordance with the Company's Tariff.

(e) No Customer receiving water service from the Company will be permitted to use water for any other purpose than that for which they shall have requested and the Company shall have approved.

(f) The Company may refuse service to a Customer with an outstanding, unpaid balance due until the Customer pays the balance due.

2.3 Special Arrangements for Water Service

(a) Water for building or construction purposes must be specially applied for.

(b) Connections for private fire service and private fire hydrant service must be specially applied for.

(c) Water for transient or temporary purposes must be specially applied for.

3. BILLING, ABATEMENTS & REFUNDS

3.1 Abatements and Refunds

Abatement shall be made for leaks in service pipes or fixtures belonging to the Customer in accordance to Tariff.

3.2 Meter Bill Adjustment

(a) Whenever a Meter in service is found upon periodic request or complaint test to be more than two percent (2%) fast, additional tests shall be made at once to determine the average error of the Meter. Said tests shall be made in accordance with the Commission's regulation applicable to the type of Meter involved. Meter testing shall be conducted in accordance with the then-applicable Rules.

(b) Determination of Meter Error for Bill Adjustment Purposes. When upon periodic request or complaint test, a Meter is found to be in error in excess of the limits allowed by the Commission's regulations, three additional tests shall be made; one at 75% of rated maximum capacity; one at 50% of rated maximum capacity; one at 25% of rated maximum capacity. The average Meter error shall be the algebraic average of the errors of the three tests.

(c) If the result of tests on a Customer's Meter shows an average error greater than two percent (2%) fast, then the Customer's bill, for the period during which the Meter error is known to have existed, shall be recomputed and the account adjusted on the basis of the test. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using the data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of a similar class of customers shall be used for comparison purposes in calculating the time period. (See exception in Section (f) of this Rule).

(d) If the result of tests on a Customer's Meter shows an average error greater than two percent (2%) slow, then the Customer's bill for the period during which the Meter error is known to have existed, may be recomputed and the account adjusted on the basis of the test. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using the data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of a similar class of customers shall be used for

PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

comparison purposes in calculating the time period. The Company will limit the period of recovery for under-billing to only the most recent twelve (12) months of under-billing, even if the under-billing occurred for a longer period.

(e) It shall be understood that when a Meter is found to have an error in excess of two percent (2%) fast or slow the figure for calculating the amount of refund or the amount to be collected by the Company shall be that percentage of error as determined by the test; i.e., it is the duty of the Company to maintain the accuracy of its measuring device as nearly one hundred percent (100%) as is commercially practicable. Therefore, percent error shall be that difference between one hundred percent (100%) and that amount of error as indicated by the test.

(f) The burden of maintaining measuring equipment so that it will register accurately is upon the Company; therefore, if Meters are found upon test to register fast and if time for periodic test has overrun to the extent that one-half (1/2) of the time elapsed since the last previous test exceeds twelve (12) months, the refund shall be as specified in Section C of this Rule and in addition thereto, a like refund for those months exceeding the periodic test period; provided, however, that the Commission may relieve the utility from this requirement in any particular case in which it is shown that the failure to make the periodic test was due to causes beyond the utility's control.

3.3 Terms and Conditions of Billing and Payment

(a) All fire service charges shall be payable monthly in arrears.

(b) Bills for water service by Meter will be rendered monthly with ending dates as may be determined by the Company.

(c) Bills for private fire hydrants shall be payable monthly in advance, except that the charges for private fire hydrant service shall be payable as set forth in Rule 11.

(d) Special charges shall be payable upon demand.

(e) All bills for water and service are due and payable when rendered and are considered delinquent if not paid in accordance with Tariff and Commission regulations. Failure to pay will render the Customer subject to disconnection and subject to payment of reconnection in Tariff. If any bill for water service is not paid in accordance with Tariff, the service may be discontinued in accordance with Rule 4, Disconnecting & Reconnecting Service.

(f) Customers are responsible for furnishing the Company with their correct billing

addresses (email or postal address). Failure to receive bills will not be considered an excuse for non-payment nor permit an extension of the date when the account would be considered delinquent.

(g) All bills will be sent to the billing address (email or postal address) provided when requesting water service unless the Company is notified in writing by the Customer of any change of billing address.

(h) The Company will not be bound by bills rendered under mistake of fact as to the quantity of service rendered.

(i) The use of water by the same Customer in different Premises or localities will not be combined.

(j) If for any reason service is discontinued before the expiration of twenty-five (25) days from commencement of service, a bill for a prorated portion of the minimum service charge for the month will be rendered.

(k) Residential Customers may elect to participate in a monthly budget billing payment plan. Under such a plan, Customers shall pay a fixed monthly amount determined by the Company based on historical or estimated usage. A Customer may enroll in such a plan at any time by contacting the Company. The Company will issue bills so as to bring each customer's account current once each 12-month period or through a series of levelized adjustments on a monthly basis if usage indicates that the account will not be current upon payment of the last monthly budget amount. If a Customer fails to pay bills as required under the plan, the Company reserves the right to remove the Customer from the plan, restore the customer to regular billing, and require immediate payment of any deficiency.

4. DISCONNECTING AND RECONNECTING SERVICE

4.1 Discontinuance of Water Service

(a) Water service will be discontinued to any Premises on account of temporary vacancy upon request of the Customer, without in any way affecting the agreement in force, and upon payment of all charges due as provided for in the Rates and Rules of the Company.

(b) The Company shall discontinue the Customer's service for violation of any Rule or for non-payment of bills upon providing the Customer with at least ten (10) days written notice

delivered by mail or personally delivered to him/her or a member of his/her household, advising the Customer of what Rule had been violated and for which service will be discontinued if violation continues. However, discontinuance of service shall be effected no less than twenty (20) days after the mailing date of the original bill unless, prior to discontinuance, a residential customer presents to the Company a written certificate, signed by a physician, registered nurse or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises. In that case, discontinuance may not be effected for thirty (30) days beyond the termination date as calculated above. Where fraudulent use of water is detected, or where the Company's regulating or measuring equipment has been tampered with, or where a dangerous condition is found to exist on the Customer's Premises, service may be shut off without advance notice. Subject to the foregoing provisions, service rendered under any application, contract or agreement may be discontinued by the Company for any of the following reasons:

i. For willful or indifferent waste of water due to any cause which adversely affects either water service to other Customers or the Company's utility operation.

ii. For failure to protect from injury or damage the Meter and connections, or for failure to protect and maintain the service pipe or fixtures on the property of the Customer, in a condition satisfactory to the Company.

iii. For interfering or tampering by the Customer, or others with the knowledge of the Customer, with any Meter, connection, service pipe, curb stop, seal or any other appliance of the Company controlling or regulating the Customer's water supply.

iv. For failure to provide the Company's employees free and reasonable access to the Premises or for obstructing the way of ingress to the Meter or other appliance of the Company controlling or regulating the Customer's water supply (with at least fifteen (15) days advance written notice).

v. For non-payment of any account for water supplied, for water service, or for Meter or service maintenance, or for any other fee or charge at the Premise accruing under these Rates and Rules. Discontinuation of service for non-payment on an account shall only be made at the Premise associated with that Account and will not occur for other accounts held by the same Customer that are current in payments unless the Customer has requested multiple accounts or premises be combined for billing purposes.

vi. In case of vacancy of the premises.

vii. For violation of any other Rule or Regulation of the Company or State and Municipal Rules and Regulations applying to the Company's water service.

(c) In cases where plumbing has been installed prior to adoption of and not in accordance with these Rules, and where water is being taken through a single service pipe to supply two or more Premises, the party making application shall be responsible for all water bills and other legitimate charges. Any violation of the Company Rules with reference to either or any of the said Premises or for the supply of water thereto, shall be deemed a violation as to all, and the Company may enforce compliance with these Rules by shutting off the entire service except that such action will not be taken until the innocent Customer who is not in violation of the Company's Rules, has been given a reasonable notice and opportunity to attach his pipes to a separately controlled curb stop, to be provided by and at the expense of the Company.

(d) Discontinuing the supply of water to a Premises for any such reason shall not prevent the

Company from pursuing any lawful remedy by action at law or otherwise for the collection of moneys due from the Customer.

4.2 Renewal of Water Service After Discontinuance

(a) When water service to a Premises has been terminated for any reason other than temporary vacancy, it will be renewed only after the conditions, circumstances or practices which caused the water service to be discontinued are corrected to the satisfaction of the Company, and upon payment of all charges due and payable by the Customer in accordance with the Rates and Rules.

(b) No Customer whose service has been turned off shall turn on same, or have same done by anyone other than the Company.

4.3 Reconnection Charge

When it has been necessary to discontinue water service to any Premises because of a violation of the Rules or on account of non-payment of any bill, a charge will be made to cover the expense as set forth in the Company's Schedule of Rates and Charges. This charge, together with any arrears that may be due the Company for charges against the Customer, must be paid before the water will be reconnected.

5. COMPLAINTS

5.1 Customer Complaints

Any complaint against the service or employees of the Company may be made at the office of the Company or by telephone, mail or email. The Company will handle all Complaints in accordance with regulatory requirements.

6. METERS, TESTING AND ACCURACY

6.1 Meters

(a) Water will be sold by Meter measurement only.

(b) All Meters, except private detector devices and/or private service line Meters, will be installed, maintained and replaced by, and at the expense of the Company, but in case of damage to such Meters by reason of any act, neglect or omission on the part of the Customer (such as damages occasioned by accident or misuse or purposeful actions) the Customer shall pay to the Company the cost of its repair on presentation of bill therefore.

(c) The Company reserves the right to determine the kind and size of Meter that shall be placed on any service pipe, and such Meters will be furnished, installed and removed by the Company alone, and shall remain its property.

(d) Each Premise shall be supplied through an independent Meter setting.

(e) If more than one Meter setting is installed upon a Customer's Premise, the usage of all Meters on a Premise may be combined for billing purposes if so requested by the Customer. Combined billing will be continued as long as the Premises criteria is met.

(f) All Meters are accurately tested before installation and are also periodically tested in accordance with the Public Service Commission's regulations. The Company may at any time remove any Meter for periodic tests or for repairs or replacement and may, at its option and expense, test any Meter when the Company has reason to believe that it is registering inaccurately.

(g) The Company shall make any test of any Meter upon written request of the Customer if the request is not made more frequently than once each twelve (12) months. The Customer shall be given the opportunity to be present at the requested test. The Customer may be billed the actual cost of making the test, but should the said Meter be found, upon said test, to be more than two percent incorrect to the prejudice of the Customer, the fee so charged shall be returned to the Customer.

(h) The Company reserves the right to put seals on any water Meter, or on couplings in and for any premises, and may shut off the supply if such seals are found broken or removed.

(i) Once any Meter has been placed, any change in location requested by the Customer will be done by the Company, at the expense of the Customer, if the location is acceptable pursuant to 6.1(k).

(j) Monitoring of Customer usage shall be in compliance with the then-applicable Rules and Regulations. The Company monitors Customer usage on a monthly basis through its collection of usage information. Upon the collection of that information, the Company compares usage for a particular month with a Customer's historical usage. To the extent the current month's usage shows an unusual deviation from historical usage, the Company will notify the Customer and take steps to determine the reason for the unusual deviation.

(k) Meters may be located either in an outdoor Meter box or vault, at the option of the Company. The location of the Meter must be acceptable to the Company and allow for the Meter to be easily examined, tested, repaired, read, removed or replaced. The Meter box or vault shall be located in a convenient and readily accessible location acceptable to the Company. The Meter box or vault must be constructed to protect the Meter from freezing and damage by vehicular traffic, and its location and design shall prevent, as far as possible, the inflow of surface water. After a Meter is installed by the Company, a Customer shall not tamper with, alter, repair or remove the Meter or allow anyone other than the Company to do so. Any plumbing, piping, grading or structural modification which could result in the relocation of the Meter or impact accessibility must first be approved by the Company.

6.2 Accuracy Requirements of Water Meters

(a) General. All meters used for measuring the quantity of water delivered to a customer shall be in good mechanical condition and shall be adequate in size and design for the type of service which they measure.

(b) Determination of Accuracy. No new, rebuilt or repaired meter shall be placed in service if it registers outside the parameters established in the then-applicable Rules and Regulations.

(c) As Found Tests. All meters tested in accordance with the rules for periodic, request or complaint tests, shall be tested in the condition as found in the Customer's service prior to any alteration or adjustment in order to determine the average meter error.

7. PROTECTION OF PUBLIC WATER SYSTEM

7.1 Intercepting and Storage Tanks

(a) Customer Service Lines shall not be connected to the suction side of pumps, unless approved by the Company. Customers who require a large quantity of water within a short period of time must have intercepting or intermediate storage tanks, pump discharge control valves, or other controls approved by the Company.

(b) The inlet connection for the tanks attached directly or indirectly to the Customer Service Line shall discharge at a point no less than two (2) times the diameter of the inlet pipe above the overflow of such tanks and must be approved by the Company.

7.2 Check Valves, Flush Valves and Vacuum Breakers

(a) Customers having boilers or hot water heating systems connected with mains of the Company must have a check valve in the supply pipe to the boilers and hot water heating systems, together with a relief valve at some point between the check valve and heating system. A vacuum valve should be installed, in accordance to applicable plumbing requirements, in the steam line to prevent collapse in case the water supply is interrupted. The Company, however, will not be responsible for accidents or damages resulting from the imperfect action or failure of said valves.

(b) Flush valve or direct flushing closets should not be installed in Premises where the service pipe supplying such Premises is connected to a main two inches or less in diameter. All flush valves shall be equipped with approved type vacuum breakers.

7.3 Plumbing Work Must Be Approved by Company

All plumbing work done in connection with pipe and fixtures connected with the Company's mains shall be submitted for the approval of the Company before such work is covered up. Whenever the Company determines that plumbing work is defective, the Company may require it be corrected before the water will be turned on.

7.4 Cross-Connections

(a) No cross-connection will be permitted unless an acceptable form of protection against contamination by backflow into the water distribution system is provided by a testable backflow prevention assembly. Acceptable forms of protection must comply with all applicable state and local requirements and approved by the Company. The required protective device or system shall be provided, installed and maintained by the Customer in good working condition, at the

Customer's expense, and shall be subject to testing and approval of the Company before being placed in service, and at such times thereafter as may be deemed necessary by the Company.

(b) Any cross-connection existing which is in violation of these Rules shall be immediately removed or corrected. Failure of the Customer to do so may result in immediate termination of water service in accordance with Rule 4.

8. RIGHTS AND RESPONSIBILITIES

8.1 Customers Requiring Uninterrupted Supply

(a) The Company will endeavor to give reasonable service but does not guarantee a sufficient or consistent pressure or an absolutely uninterrupted supply of water, and Customers are cautioned to provide sufficient storage of water where an absolutely uninterrupted supply must be assured, such as for steam boilers, domestic hot water systems, gas engines, etc.

(b) Fixtures or devices taking a supply of water directly from the service pipes, depending upon the hydraulic pressure of the pipe system of the Company for supplying same under working pressure, will do so at the risk of the parties making such attachments, as the Company will not be responsible for any accidents or damages to which such fixtures or devices are subject.

8.2 Interruptions in Water Supply

(a) The Company reserves the right at any time to shut off the water in the Mains without notice in case of accident or emergency, or for the purpose of making connections, extensions, improvements, alterations, repairs, changes, or for other proper business reasons, and may restrict the use of water to reserve a sufficient supply in its reservoirs for fire protection or other emergencies whenever the public welfare may so require in accordance with Commission Rules. Notwithstanding any other provision in these Rules or any contract or agreement between the Company and any Customer, when, in the judgment of the Company, sufficient supplies of water are not available to the Company, for any reason, to meet all existing and reasonably anticipated demands for service or to preserve and replenish its storage in amounts sufficient to provide fire protection on its system, the Company shall have the right to restrict, limit, curtail or interrupt water service to or water usage by any Customer or Customers.

(b) The temporary shutting off of water from any Premises for any cause, whether non-payment of bills, leaking pipes, fixtures, etc. shall not cancel a contract for water supply service except at the option of the Company or upon notice from the Customer.

8.3 Liability of Company

(a) The Company shall not in any way or under any circumstances be held liable or responsible to any person or persons for any loss or damage from any excess or deficiency in the pressure, volume, or supply of water, due to any cause whatsoever. The Company will undertake to use reasonable care and diligence in order to prevent and avoid interruptions and fluctuations in the service, but it cannot and does not guarantee that such will not occur.

(b) The Company will make every effort to maintain a pressure on the distribution system that is required for reasonable service and is compliant with federal and state requirements, but it does not guarantee to furnish at all times any given quantity for fire uses or for general purposes.

(c) The Company shall not be responsible for accidents or damages to boilers, hot water tanks, etc., resulting from the discontinuance of service, nor by reason of the breaking of any main, water pipe, fixture or appliance whether owned by the company or Customer, and no person shall be entitled to damages nor have any portion of a payment refunded for any interruption of service. The Company will exercise every care in this matter, and in the event of the necessity of turning off water, every reasonable effort will be made to notify the Customer.

(d) The Company shall not be considered in any manner an insurer of property or persons, or to have undertaken to extinguish fire or to protect any persons or property against loss or damage by fire, or otherwise. The Company agrees to furnish such supply of water as shall then be available and not other or greater, and it shall be free and exempt from any and all claims for damages on account of any injury to property or persons by reason of fire, water, failure to supply water or pressure, or for any other cause whatsoever.

8.4 Meters

No person shall turn the water on or off at any street valve, Company stop, curb stop or other street connection, or at meter setting or meter vault, or disconnect, remove or bypass any meter without the consent of the Company. The Company has the right to prosecute for any damage resulting from any unauthorized tampering with Company property.

8.4 Electrical Ground

No electric wires shall be grounded on the mains of the Company or on any Company Service Lines or pipes or fixtures of any kind which have a metallic connection with the mains of the Company. The Company has the right to prosecute for any damage resulting violation of this Rule.

PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

8.5 Limitations on Resale of Water

Water furnished to any customer, except for a customer classified as a "Sales for Resale" customer, is for the customer's use only and such water shall not be resold by the customer to any other person, firm, or corporation on the customer's premises or for use on any other premise. This restriction, however, does not preclude a customer from allocating the Company's billing to the customer to any other person, firm, or corporation provided the sum of such allocations does not exceed the Company's billing.

9. CUSTOMER AND COMPANY SERVICE LINES

9.1 Company Service Lines

(a) Subject to Rule 10 on Main extensions and subject to the terms of any applicable Main extension agreement, the Company will install a Company Service Line provided that it is required for the immediate and continuous supply of water in order to furnish general water service, and that the Premise to be served abuts a street, highway or right-of-way in which a Main is located.

(b) The Customer shall install the Customer Service Line to a point approved by an authorized employee of the Company, after which the Company will have the Company Service Line installed from the Main to the Customer Service Line upon payment by the Customer of the tap fee. Where the Company Service Line is already installed, the Customer Service Line shall be connected to the Company Service Line at a point approved by an authorized employee of the Company.

(c) The Company Service Line shall be sized, furnished, installed, owned and maintained only by the Company and shall remain under its sole control. Only the Company may make connections to its Mains. Nothing may be attached to the Company Service Line except a Customer Service Line. The connection to the Company Service Line must be made by an authorized employee or agent of the Company, or a licensed plumber.

9.2 Customer Service Lines

(a) The Company will specify the location of the connection to the Customer Service Line. The Customer Service Line shall be installed, maintained, and/or owned by the Customer, at the Customer's expense and risk. The Customer Service Lines shall be installed in accordance with applicable plumbing requirements.

(b) Each Premise shall be served by no more than one Customer Service Line unless otherwise approved by the Company. Customer Service Lines supplying the Premises shall not pass through or across any other Premises. No water pipes or plumbing in any Premises shall be extended from

there to any other Premises.

When a Customer Service Line is relocated at the Customer's request, or when no associated relocation of the Company's Service Lines or other infrastructure is occurring, the Customer shall be responsible for the cost of such relocation. In instances where a Customer Service Line is required to be relocated due to roadway construction or other causes not within Company control, and the Company's Service Lines or other infrastructure is also being relocated, the Customer shall not be responsible for the cost of such relocation unless the Customer requests a specific location different than that specified by the Company.

A Customer's Service Line which is irregularly located because there was no Main abutting the Premises at the time such Customer Service Line was installed shall, at the Customer's expense, be relocated and connected to a new Company Service Line on the Main abutting the Premises when it becomes necessary for such Customer Service Line to be repaired or replaced.

(c) A Customer, occupant, owner, or any agent thereof is not authorized to attach the Customer Service Line to Company property or shut the water line on or off. If a Customer, occupant, owner, or any agent thereof does so, and in making an attachment or in shutting off or turning on water does not properly replace the curb box cap or Meter lid, or damages the curb stop, curb box, copper setter, or other property of the Company, repairs shall be made only by the Company, but at the Customer's expense. If a Customer, occupant, owner, or any agent thereof takes any unauthorized action described therein, the Company shall not be liable for any personal and property damage caused to Customer's property.

(d) The Customer Service Line and all connections and fixtures attached thereto shall be subject to the approval of the Company before water will be turned on. All Premises receiving a supply of water and all Company Service Lines and Meters and appurtenances, including any and all fixtures within the Premises, shall at all reasonable hours be subject to inspection by any duly authorized employee or agent of the Company.

(e) Only an authorized agent of the Company may turn water on and off in the meter box. In case of emergencies, licensed plumbers may turn water on and off if a shut off valve is not available in the Premise and must notify Company within 24 hours of doing so.

10. WATER MAIN EXTENSIONS

10.1 General Main Extensions Rules

(a) In estimating the cost of an extension, the estimate shall be based on the diameter of the pipe to be

Approved:

KENTUCKY
PUBLIC SERVICE COMMISSION
Linda C. Bridwell
Executive Director
EFFECTIVE
12/16/2025
PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

used, provided, however, the estimated cost to the Customer or Customers shall not be based on a pipe diameter in excess of eight (8) inches, unless actual consumption estimated for the proposed Customer or Customers requires a larger pipe.

(b) No interest will be paid by the Company on the Applicant's payment or on any balances not refunded. At the expiration of said ten-year period, the refund account will be closed, and no further refunds will be made.

(c) Extensions made under this Rule shall be and remain the property of the Company.

(d) The Company reserves the right to further extend its water mains from and beyond the end of each Water Main Extension made under this Rule. The Applicant or the Applicant's agent paying for an extension shall not be entitled to any refund for the connecting of Customers to any further extension of mains installed.

(e) In determining the length of main extensions to be installed, the main shall be extended to fully cover the frontage of the property, and if the last lot to be served is a corner lot or a lot immediately adjacent to a corner lot, the terminal point of the extension made hereunder shall be located so that the main laid hereunder ties in with the existing main located in the intersecting street; and further provided that if there is no main located in the intersecting street, the terminal point of the extension made hereunder shall be located at the nearest street line of the intersecting street or to the edge of subdivision property, including common area.

10.2 Main Extensions for Other than in New Subdivisions

(a) For Free Extensions, the Company will, upon written request for Residential service by a prospective Residential Customer or a group of prospective Customers located in the same

neighborhood, make free of charge an extension necessary to give service, when the estimated total revenue, for a period of three (3) years from the prospective Customer or Customers is approximately equal to the cost of the extension; provided that the prospects are that the patronage or demand will be of such permanency as to warrant the capital expenditure involved.

(b) For Extension Above Limit, if the extension required in order to furnish general water service at any point within the corporate limits of the municipality or for any adjacent suburb of the municipality is greater than the cost of the free extension specified herein, such an extension will be made under the following conditions: the Company shall require a deposit of the cost of the extension above the free limit and will, in such case, for each additional Customer directly connected to the extension between its original beginning and original end within a period of ten

Approved:

(10) years from the making of such extension, refund an amount equal to three times the estimated annual revenue of the new Customer, but at no time shall the aggregate refund made to any Customer exceed the original deposit of such Customer.

(c) The free extension or refund amount shall not be reduced below that applicable to fifty (50) feet of main per Customer. A prospective Customer is one who will connect to such main extension within the refund period after the date the water is turned on in the main; provided further, that there is delivered to the Company a written guarantee by a financially responsible person or firm that such prospective Customer will take water service within the aforementioned refund period.

10.3 Main Extensions for New Subdivision

(a) Definitions

i. The term "new subdivision" as used herein shall mean any new subdivision of residential and/or commercial lots for which a preliminary or final plat has been approved by the local planning and zoning authority, and in which the owner thereof has the right, under the rules of said Authority, to construct streets, sidewalks, curbs and other improvements.

ii. The term "lot" as used herein shall mean any plot of ground laid out for building purposes, the front footage of which does not exceed one hundred feet. Should the frontage of any plot exceed one hundred feet, it shall, for the purposes of this Rule be considered as a single lot, if the average footage of all lots in the subdivision does not exceed one hundred feet. If the average frontage of all lots in the subdivision does exceed one hundred feet, the total number of lots in the subdivision shall be determined by dividing the total frontage of all the lots in the subdivision by one hundred feet.

iii. The term "on site facilities" as used herein shall include only those water mains and related facilities, if any, to be installed by Company and located within the boundaries of the new subdivision or part thereof as said boundaries are depicted on the preliminary (or final, if applicable) plat of such subdivision or part thereof approved by the local planning and zoning authority.

iv. The term "off-site facilities" as used herein shall include all water mains and related facilities, if any, to be installed by Company and located outside of the boundaries of said new subdivision as said boundaries are depicted on

the preliminary (or final, if applicable) plat of said subdivision as approved by the local planning and zoning authority, in order to deliver an adequate supply of water from existing mains of Company to such new subdivision.

v. The term "current estimated cost" as used herein shall mean that sum determined by Company as the estimated cost of installing one foot of water main, together with that sum determined by Company as the estimated cost of installing each type of appurtenant related facility based upon current materials costs, bids received, and other current project data. Such average cost per foot and such average cost per appurtenant facility shall be deemed to be the "current estimated cost" for such mains and facilities during the twelve month period immediately following such determinations, it being contemplated that the current estimated cost will be revised annually in order to keep same as current as practicable.

(b) Before water lines will be laid hereunder in any new subdivision, it is understood and agreed that the road surface shall be brought to the established sub-grade; and the developer or builder of such new subdivision shall furnish the Company with a right-of-way agreement suitable in form to the Company, unless the streets of the new subdivision have been dedicated to the public use.

(c) When an extension of Company's water distribution system into any new subdivision or part thereof as defined herein is requested by the owner of such subdivision, such extension will be made under the terms of a "New Subdivision Extension Deposit Agreement for Off Site Facilities" as hereinafter set forth in the Appendix, and/or a "New Subdivision Extension Deposit

Agreement for On Site Facilities" as hereinafter set forth in the Appendix, which Agreements shall be entered into upon the following basis:

i. Company shall have the exclusive right to determine the type, location and size of mains to be installed and of the related facilities required to render adequate service.

ii. The owner of the new subdivision may elect to develop it in sections or units and to have main extensions made into such sections or units from time to time as the same are ready for development and may elect further to have the entire subdivision considered as a whole for the purpose of making deposits and receiving refunds for off-site facilities under Company Rule No. 10. In such event, owners shall furnish Company with preliminary or final plats of the unit or units thereof to be initially developed, such plats to be

Approved:

KENTUCKY
PUBLIC SERVICE COMMISSION
Linda C. Bridwell
Executive Director
Linda C. Bridwell
EFFECTIVE
12/16/2025
PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

approved as hereinafter provided, such plats to be so furnished prior to the making of any extensions into said new Subdivision. As subsequent units of said subdivision are thereafter developed, preliminary or final plats so approved thereof shall be furnished to Company as hereinafter provided. Upon delivery to Company by the owner of such subdivision of four (4) copies of a preliminary or final plat of the subdivision or units thereof, duly approved by the Local planning and zoning authority, which plats shall depict the location and grade of all streets, sidewalks, building plots, building lines and utility easements contained therein, together with evidence of the owner's authority to construct streets, sidewalks, curbs and other improvements therein, Company shall prepare appropriate plans and specifications for the installation of necessary mains and related facilities to render adequate service therein, including where applicable, such off site facilities as deemed necessary and upon delivery to Company by the owner of such subdivision, any other information requested by the Company.

iii. Separate Extension Deposit Agreements, in the form provided in the Appendix, shall be entered into by the owner of the subdivision and Company for off-site facilities and for each separate unit in which on site facilities are requested, provided, moreover, that the ten (10) year refund period applicable in such agreements shall apply separately to each such transaction.

iv. When plans and specifications for installation of such mains and related facilities are completed, Company shall determine the presumed cost of construction and installation of such mains and related facilities which presumed cost shall be the aggregate of (1) the total number of feet of each size and grade of main required in such construction multiplied, respectively by Company's current estimated cost for each such size and grade of main, and (2) the total cost of installation of all related facilities required in such construction as determined by Company's current estimated cost for each of such facilities. In absence of actual cost data upon which to prepare a current estimated cost for any particular required related facility or size and grade of main, the presumed cost thereto shall be the best estimate of Company with respect to the cost of such mains or related facilities based on available information with respect to same. In

making such determinations of presumed cost of construction, Company shall separately compute the cost of installation and construction of on-site mains and facilities required and the cost of off-site mains and facilities required.

v. When such determination of presumed cost of on-site mains and facilities and presumed cost of off-site mains and facilities required has been completed, the sums to be deposited by the owner of such subdivision with Company under the terms of the "New Subdivision Extension Deposit Agreement for On Site Facilities" and the "New Subdivision Extension Deposit Agreement for Off Site Facilities" if applicable, shall be determined by Company and shall be (1) the total presumed cost of all on site mains and related facilities of the new subdivision or any part thereof to be constructed as determined as herein provided, and (2) (a) the presumed cost of ten (10) feet of off-site mains and facilities multiplied by the total number of building plots shown on and included within the whole of said new subdivision or (2) (b) the presumed cost of all required off site facilities, whichever be the smaller sum. The presumed cost per foot of off-site mains and facilities as used in this computation shall be determined by dividing the total presumed cost of all off site mains and related facilities by the total footage of such off site mains. In the event it is necessary to construct off site mains for a distance in feet greater than ten (10) times the number of building plots included within the whole of said subdivision as depicted on the initial submitted plat thereof, such excess off site extension will not be made under the "New Subdivision Extension Deposit Agreement for Off Site Facilities", but shall be made under an Extension Deposit Agreement as provided in the Appendix of these Rules.

vi. For each Premises served for which a street service connection shall be directly attached to such main extension between its original beginning or original terminus, excluding connections to further extensions or branches thereof, and crediting no more than one such service connection per building plot, Company shall refund to the owner of such subdivision under terms and provisions of New Subdivision Extension Deposit Agreements separately executed each for on-site and off-site improvements, amounts determined as follows:

a. For on-site facilities, the quotient obtained by dividing the total presumed cost of all on site mains and related facilities, determined as provided in Section (c) vi above for that part of the new subdivision then to be developed, by the total number of lots,

determined as provided in Section (a) ii herein, which will be served by the on-site facilities then to be developed and as shown

on the preliminary or final plat of the part of the subdivision to be developed.

b. For off-site facilities, the quotient obtained by dividing the deposit for off-site facilities, determined as provided in Section (c) iv above, by the total number of building plots shown on and included within the whole of said subdivision and shown on the preliminary or final plat of the whole subdivision delivered to Company as provided in Section (c) ii above.

vii. The owner of such subdivision, in consideration of an accelerated development of said subdivision to be obtained through Company's proceeding, on the basis of a preliminary plat, with its plans and specifications, and, at Company's option, with construction of its mains and facilities, shall, as a part of the New Subdivision Extension Deposit Agreements for both Off Site and On Site Facilities, warrant to Company that the location and grade of streets, curbs, sidewalks, building plots, building lines and utility easements as depicted on said preliminary plat will not be altered or changed in any respect in the final plat of said subdivision or part thereof, as finally approved by the local planning and zoning authority and recorded in the Office of the County Clerk. In the event the location or grade of streets, sidewalks, curbs, building plots, building lines or utility easements be altered, amended or changed in the final plat or in an amended plat of said subdivision or part thereof as approved by said Authority or as recorded in the office of said Clerk, whether such changes are made with or without the consent of said subdivider, and in the event such alteration,

amendment or change requires, in the sole judgment of Company, the relocation, removal, replacement, reconstruction, change in site or additions to the mains and related facilities, the subdivider shall indemnify and hold harmless Company of and from any and all damages and costs of such removal, replacement, relocation, reconstruction and any all other expenses or costs relating to Company because of the change of location or grade of streets, curbs, sidewalks, lots, building lines or utility easements in said subdivision or part thereof.

(d) Company shall, upon written request of any owner of a new subdivision, with who a contract has

been entered into under these Rules, made within thirty (30) days after effective date of these Rules, re-execute such agreements under terms of these Rules.

11. PUBLIC AND PRIVATE FIRE SERVICE

11.1 Application for Private Fire Service

(a) The extent of the rights of the Customer for private fire service is to receive, but only at times of fire at the Premises served by the private fire service, such supply of water as shall then be available. The Company shall not be considered in any manner an insurer of property or persons, or to have undertaken to extinguish fires, or to protect any persons or property against loss or damage by fire, or otherwise, and it shall be free and exempt from any and all claims for damages on account of any injury to property or persons by reason of fire, water failure to supply water or pressure, or for any other cause whatsoever.

(b) The applicant or its agent shall complete an "Application for Special Connection," which is available at the Company's offices. Service connections for water to be taken for the extinguishment of fire shall be made only upon the terms as provided for in the "Application for Special Connection," and then only after such application has been submitted by the Customer and approved in writing by the Company and the applicable Fire Department.

(c) A gate valve with post indicator controlling the entire supply shall be placed at the curb or property line of the street in which the main is located or at such other point as may be approved by the Company, and said valve and post indicator shall be furnished, installed and maintained by the Company at the expense of the Customer, and unless otherwise approved by the Company, said valve shall be installed which shall be furnished, installed and maintained by and at the expense of the Customer.

(d) The Company will make the connection to its mains at the cost and expense of the Customer, and the service connection from the main to the post indicator valve as described in Section 11.1 (c) will be furnished, installed, owned and maintained by the Company and at the cost and expense of the Customer.

(e) The entire private fire service system on the Customer's premises shall be installed by and at the expense of the Customer and shall be subject to the inspection, test and approval of the Company before the service is made effective, and at such time thereafter as may be deemed necessary by the Company.

(f) A private fire service connection is furnished for the sole purpose of supplying water for the testing of the system and the extinguishment of fires, and the use of water from such a connection for any other purpose is absolutely forbidden.

(g) Private fire protection service may at any time be furnished at the option of the Company through a line

guarded by an approved fire line meter or detector device which shall be furnished and installed by the Company at the expense of the Customer. The meter shall be set in an approved vault or chamber, properly drained and protected, located at a point as near as possible to the curb line, and said vault or chamber shall be constructed and maintained by the Company at the expense of the Customer. The private fire meter or private detector device will be maintained by the Company, but at the expense of the Customer.

(h) Hydrants and other fixtures connected with a private fire service connection may be sealed by the Company, and such seals shall be broken only in case of fire or as specially permitted by the Company, and the Customer must immediately notify the Company of the breaking of any such seal.

(i) No pipe or fixtures connected with a private fire service connection served by the Company shall be connected with pipes or fixtures supplied with water from any other source. An industry approved backflow prevention device reviewed by the Company must be installed on private fire service connections and such device must be tested annually thereafter.

(j) The entire private fire service connection and all parts of it which are located outside of the property line of the Customer and any meter or other indicating or controlling device and all parts and appurtenances thereof no matter where located shall be accessible and available in a safe manner to the Company at all times.

(k) The Company shall determine the size and location of any connections made to its mains for private fire service.

(l) The Customer shall furnish an accurate sketch or drawing showing the pipes, valves, hydrants, connections and appurtenances on the premises of the Customer and connected with the mains of the Company and also an accurate sketch of any other water pipe system and fixtures that may exist on the premises.

(m) Whenever a fire service system is to be tested under the regulations of the fire insurance underwriters, the Customer shall notify the Company of such proposed test, naming the day and hour when same is to be made, so that, if desired, the Company may have an inspector present during the test.

(n) All applications for private fire protection shall be subject to the written approval of the applicable Fire Department. It is the Customer's responsibility to obtain this approval.

(o) All subsequent owners of the property containing private fire service, assume all responsibilities under the original Application for Special Connection.

11.2 Terms and Conditions for New Private Fire Hydrant Service

(a) Applicants and Customers subject to this tariff are also subject to Rule 11.1(a), (b), and (f), which are

incorporated by reference as if set forth herein.

(b) The entire cost for labor, materials and other expenses incurred in installing the private fire hydrant connection, consisting of tapping the main and installing the hydrant branch and hydrant at a convenient point between the curb and property line, will be paid by the Applicant and any work done by the Company in connection therewith will be at the expense and risk of the Applicant.

(c) Advance payment of three years' private service rate in Service Classification No. 4 for each private fire hydrant by the applicant will be required at the time the contract is signed for private fire hydrant service.

(d) Water used for extinguishing fires will not be charged. Prompt notice of hydrant use is to be given to the Company in order that the installation may be inspected.

(e) Except for hydrants owned by private entities as set forth in their contract with the Company, title to the service connection and hydrant shall, upon completion of construction, become vested in the Company, which thereafter shall assume responsibility for maintenance. Regardless of ownership, all parts and appurtenances shall be accessible and available to the Company at all times.

(f) No private fire hydrant will be installed at a location where the normal flow from the hydrant is less than 500 gallons per minute with a 20 pounds per square inch residual pressure in the main serving the hydrant.

(g) After expiration of the initial three-year advance payment of the private service rate by the applicant, the applicant will continue to be responsible for charges for this service. The applicant may request the Company's consent to transfer responsibility for the private service rate to an entity in good standing in the state in which the entity was organized. Any such request must be approved by the applicant, the entity to which the responsibility is being transferred, and the Company in order to be effective.

(h) Failure to pay the private service rate shall be sufficient cause for discontinuance of water service after reasonable notice by the Company.

(i) The private service rate shall continue in effect until such time as a unit of government shall agree to pay public fire protection charges thereon.

11.3 Public Fire Hydrants

(a) No person, except for the legitimate purpose of extinguishing fires or for other purposes herein provided, shall open any fire hydrant without the consent of the Company.

(b) During freezing weather, the City or County shall notify the Company after it has opened any hydrant.

(c) Any expenses for repairs caused by the negligence of the employees of the municipality or by members of the fire department shall be paid for by the municipality.

(d) The use of fire hydrants will be restricted to the taking of water for the extinguishing of fires, and water shall not be taken from any fire hydrant for construction purposes, sprinkling streets, flushing trenches, sewers or gutters or for any other use, unless specifically permitted by the Company for the particular time and occasion.

(e) Inspections and tests of public fire hydrants will be made by the Company at convenient times and reasonable intervals.

(f) Whenever a change in location, size or type of a fire hydrant is ordered, requested, or made necessary due to change in line or grade of any roadway, curb or walk, said change will be made by the Company at the expense of the municipality or other party ordering, requesting, or making necessary such change.

(g) In the event that the City or County shall order in writing the installation of additional fire hydrants on existing mains having an internal diameter of six inches or larger, the Company will install such hydrants at its own cost and expense, provided that such mains are of adequate capacity to provide the required fire flows.

(h) Where pipe line installations are required to carry out a written order of the City or County to install fire hydrants, or where existing mains, in the opinion of the Company, are inadequate to provide required fire flows to such hydrants, and the City or County orders in writing the installation of a water main of adequate size to provide such flows to the hydrant or hydrants so ordered, the Company will install such mains and hydrants at its own cost and expense, provided that the estimated cost of the extension does not exceed the estimated total revenue for a period of three (3) years from such hydrant or hydrants and from prospective Customers who will connect to such main within thirty (30) days after the date that water is turned into the main; and provided, further, that there is delivered to the Company a written guarantee by a financially responsible person or firm that such prospective Customers will take water service at their premises within thirty (30) days after the date that water is turned into the main. If the estimated cost of the proposed extension and hydrants required in order to furnish fire service exceeds three (3) times the Company's estimate of immediate annual revenue, such extensions will be made under the following conditions: the Company may require a deposit in the amount by which the cost of the extension, including the cost of hydrants which might be connected thereto, exceeds three (3) times the annual revenue estimated to be received from the hydrant and prospective Customers and will, in such case, for each additional Customer directly connected to the extension between its original beginning and original end with a period of ten (10) years from the making of such extension, refund an amount equal to three (3) times the estimated revenue of the new Customer, but at no time shall the aggregate refund made exceed the original deposit.

12. SERVICE CLASSIFICATIONS AND TARIFFS/RATES/FEES

CLASSIFICATION OF SERVICE
SERVICE CLASSIFICATION NO. 1

Applicable
Applicable to the entire Service Territory of Kentucky-American Water Company unless otherwise noted.

Availability of Service
Available for Residential, Commercial, Industrial, Sales for Resale, Municipal and All Other Public Authority metered service.

Meter Rates
The following shall be the rates for consumption, in addition to the service charges provided for herein;

	Customer Category	Rate Per 1,000 Gallons All consumption	Rate Per 100 Gallons All Consumption	Rate Per Gallon All Consumption
(I)	Residential	$7.8656	$0.78656	$0.0078656

(I)	16" Diameter	891.50	10,698.00

Special Provisions
No charge shall be made for water used in extinguishing accidental fires or for Underwriters' tests, and water shall not be drawn from a private fire service connection for any other purpose.

Fire service connections are furnished for the sole purpose of supplying water for the extinguishment of fires. If the Company has reason to believe water is being used for other purposes, including that the connection or line is leaking, the Company may install a meter to monitor usage, and, in addition to the rates for fire protection listed above, all usage shall be billed at the Commercial rate in Service Classification No. 1. The applicable Service Charge listed in Service Classification No. 1 shall also be charged.

The charges under this provision are in addition to any general water service charges.

CLASSIFICATION OF SERVICE
SERVICE CLASSIFICATION NO. 4

Applicable
Applicable to the entire Service Territory of Kentucky-American Water Company unless otherwise noted.

Availability of Service
Available for municipal or private fire connections used exclusively for fire protection purposes.

Rates for Public Fire Service

		Rate Per Month	Rate per Annum
(I)	For each public fire hydrant contracted for or ordered by Urban County, County, State or Federal Governmental Agencies or Institutions.	$75.00	$900.00

Rates for Private Service

(I)	For each private fire hydrant contracted for by Industries or Private Institutions.	$120.00	$1,440.00

Fire service connections are furnished for the sole purpose of supplying water for the extinguishment of fires. If the Company has reason to believe water is being used for other purposes, including that the connection or line is leaking, the Company may install a meter to monitor usage, and, in addition, to the rates for fire protection listed above, all usage shall be billed at the Commercial rate in Service Classification No. 1. The applicable Service Charge listed In Service Classification No. 1 shall also be charged.
The charges under this provision are in addition to any general water service charges.

Special Provisions
A few hydrants are connected to mains by a "special connection." A "special connection" exists when a customer and the Company entered into a service contract in which the customer agreed to maintain an unmetered water line from a Company main to the customer's service line. If the Company has reason to believe water from a special connection is being used for purposes other than fire protection, including that the connection or line is leaking, the Company may install a meter and charge for usage under this tariff. The Company may require the customer to pay for the meter and its installation if:

(1) the Company gives the customer written notice of the usage problem, requests that the customer correct the problem, and informs the customer that failure to correct the problem within 90 days could

CLASSIFICATION OF SERVICE
SERVICE CLASSIFICATION NO. 5

Applicable

Applicable to the entire Service Territory of Kentucky-American Water Company.

Availability of Service

Available for Water Used for Construction, Street Washing, Pool Filling, and Similar Purposes.

Rates

Where a meter is installed on a fire hydrant or on a temporary service connection for construction, street washing, pool filling, and similar purposes, the minimum payment for water shall be the monthly service charge for general water service, payable in advance based upon the size of the meter installed. If more than one fire hydrant or temporary service connection is used, the service charge is to apply to each such hydrant or temporary service connection so used.

The Company may require an application to be signed and either the service charge paid in advance or, at the option of the Company, a meter deposit made, and the account handled in the same manner as any other metered account. This service charge will not entitle the Customer to any water and all water used shall be billed at the meter rate schedule. In addition to such charges the Customer shall pay all reasonable costs incurred in connection with the installation and removal of the meter.

BILLING OF LICENSE, OCCUPATION, FRANCHISE OR OTHER SIMILAR CHARGES OR TAXES INCLUDING SCHOOL TAX

Applicable

Applicable to all customers in the Service Territory of Kentucky-American Water Company.

Availability of Service

Available for Residential, Commercial, Industrial, Other Public Authority and Sales for Resale customers.

Rates

There shall be added to the Customer's bill, as a separate item, an amount equal to the proportionate part of any license, occupation, franchise, fee or other similar fee, charge or tax now or hereafter imposed upon the Company by local taxing authorities or the Kentucky River Authority, whether imposed by ordinance, franchise, statute or otherwise, and which fee, tax or charge is based upon Kentucky River water usage or a percentage of the gross receipts, net receipts, or revenues from sales of water or services rendered by the Company to the customer. Where more than one such charge, fee or tax is imposed, the total of such charges, fees or taxes applicable to a Customer may be billed to the customer as a single amount. Charges, fees or taxes herein referred to shall in all instances be billed to customers on the basis of Company rates or usage effective at the time of billing, and on the basis of the tax rate of usage effective at the time billing is made.

There shall be added to the Customer's bill, as a separate item, an amount equal to the proportionate amount of school tax in any county requiring a utility gross receipts license tax for schools under KRS 160.613.

There shall also be added to the Customer's bill, as a separate item, any fee, tax or charge imposed upon the customer by a municipality or governmental agency, the purpose of which is to allocate among those customers identified by ordinance, franchise, statute, or otherwise, the cost of fire hydrants imposed upon the municipality or governmental agency. Failure to pay this charge shall not constitute grounds for termination of service.

CLASSIFICATION OF SERVICE
PFAS LITIGATION UNIVERSAL SURCREDIT ("PLUS")

APPLICABILITY

Applicable to the entire Service Territory of Kentucky-American Water Company.

Kentucky-American Water Company sought compensation from various manufacturers of chemicals of Aqueous Film Forming Foam. This litigation was consolidated for the limited purpose of pursuing settlements into multi-district litigation No. 2873 ("MDL") which are overseen by the United States District Court for the District of South Carolina. Kentucky-American Water Company has entered into multiple settlements in the MDL and may enter into further agreements. These settlements may provide one or more payments. The proceeds will be net of any costs to be paid out of the settlement funds incurred to administer or achieve the settlement. The purpose of this tariff is to credit Kentucky-American Water Company customers the proceeds Kentucky-American Water Company receives from these MDL settlements.

The proceeds from the MDL shall be credited to customers as a one-time credit within a reasonable time after Kentucky-American Water Company receives payment of the funds. Kentucky-American Water Company shall provide notice to the Commission of the amount of proceed included and a workpaper showing the determination of the credit as outlined below. Kentucky-American Water Company may combine proceeds resulting from the MDL settlement.

Determination of the Credit

The litigation or settlement proceed credit shall be calculated as follows:

$$\text{PLUS Credit} = \frac{\text{MDL Proceeds}}{\text{Total Water Customer Count}}$$

$$\text{PLUS Credit} = \frac{(MDLP)}{CC}$$

Where:

PLUS Credit	Represents the proceeds credit each customer will receive as a result of proceeds paid from MDL settlements.
MDLP	Represents the proceeds received from the one or more MDL settlements.
CC	Total active water customer counts, inclusive of all customer classes at the time of credit calculation.

SERVICE CLASSIFICATION NO. 6
SERVICE LINE LEAK ADJUSTMENT RATE

Applicable
Applicable to entire Service Territory of Kentucky-American Water Company.

Availability of Service
Available for Residential, Commercial and OPA customers.

Rates
A charge of twenty-five (25) percent of the applicable tariff will be applied to all water usage determined to be the result of a service line leak.

Terms and Conditions
A service line leak is defined as a leak in the customer service line between the meter and the premises. Service line leak adjustments will be granted to residential, commercial, and OPA customers. The customer must provide a plumber's statement or list of materials showing that the leak has been repaired. After verification of repairs by the Water Company, the bill will be adjusted by comparing the usage during the leak billing period to the average usage for the past six billing periods. A reasonable estimate will be used in cases when six prior periods of information do not exist. The excess usage will be billed at the rate specified above. During the lifetime of a water service line only two leak adjustments will be permitted. Each adjustment may cover a maximum of two billing periods. Before a third adjustment can be considered, the entire water service line from the meter box to the premises must be replaced. Plastic pipe for repair of underground water service lines must be certified to withstand a working pressure of 160 pounds per square inch or greater.

SERVICES

Go Paperless: Save time. Save money. Sign up for **Paperless Billing** and **Auto Pay** on My Account at amwater.com/myaccount. Not registered? Log in and be sure to have your account number handy.

Water Quality: We take water quality seriously. When it comes to complying with federal drinking water standards, we consistently score better than the industry average. For a copy of the annual water quality report for your area, visit kentuckyamwater.com. Under Water Quality, select Water Quality Reports.

H20 Help To Others: This program helps low-income customers who qualify with their water bills. For more information, visit kentuckyamwater.com. Under Customer Service & Billing, select Low Income Program.

EXPLANATION OF OTHER TERMS

Payment by Check: Paying by check authorizes American Water to send the information from your check electronically to your bank for payment. The transaction will appear on your bank statement. The physical check will not be presented to your financial institution or returned to you.

Estimated Bill: This occurs when we are unable to read the water meter. Your usage from the same billing period the prior year is used to calculate the estimated bill. The next actual meter reading corrects any over or under estimates.

Disputes: If you have questions or complaints about your bill, please call us at 1-800-678-6301 before the due date. If your bill is unusually high, it may indicate that there is a leak in your plumbing. For tips on how to detect leaks and use water wisely, visit us online. You'll find helpful tools under the Water Information menu. Every drop counts!

Rates: A detailed listing of charges that make up your bill is available upon request by contacting Customer Service or visiting us online at kentuckyamwater.com. Under Customer Service & Billing, select Your Water Rates.

Correspondence: Please send written correspondence to PO Box 578, Alton, IL 62002-0578. Be sure to include your name, account number, service address, mailing address and phone number including area code. Please do not send correspondence with your payment, as it may delay processing your payment and correspondence.

Understanding Your Bill

The information below defines some of the new terms you may find on your bill:

- **Service Related Charges:** This section includes charges for services related to water, wastewater and fire protection.
- **Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges. Additionally, any credit or debits related to billing corrections would be found in this section.
- **Pass Through Charges:** Charges in this section, when applicable, are separated from other service related charges to provide visibility into what portion of your bill is being remitted to other entities. Payment received for these charges does not remain with American Water. While we may bill and collect for them, the payments received are passed along to other companies and agencies.
- **Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- **Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- **Still have questions?** We are here to help. Our customer service representatives are available M–F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

For more information about your charges and rates, please visit: https://amwater.com/kyaw/customer-service-billing/your-water-and-wastewater-rates.

QUALIFIED INFRASTRUCTURE PROGRAM RIDER ("QIP RIDER") (D)

APPLICABLE SERVICE AREA (D)

Applicable to the entire Service Territory of Kentucky American Water Company unless otherwise noted. (D) (D)

APPLICABILITY OF RIDER (D)

Applicable to Residential, Commercial, Industrial, Other Public Authority, Sales for Resale, Public and Private Fire Service and Hydrant customers. (D) (D)

CALCULATION OF QUALIFIED INFRASTRUCTURE PROGRAM RIDER REVENUE REQUIREMENT (D) (D)

The QIP rate base in any forecasted period will be calculated in a manner consistent with 807 KAR 5:001, Section 16(6)(c). The QIP Rider Revenue Requirement includes the following: (D) (D) (D)

a. QIP-eligible Plant In-Service not included in base water rates minus the associated QIP-related accumulated depreciation and accumulated deferred income taxes, grossed up by applying the gross revenue conversion factor authorized in the Company's latest base water rate case; (D) (D) (D) (D)
b. Retirement and removal of plant related to QIP-eligible construction; (D)
c. Return on the net QIP-eligible plant in-service at the overall rate of return on capital authorized in the Company's latest base water rate case, grossed up for federal and state income taxes; (D) (D) (D)
d. Depreciation expense on the QIP-eligible Plant In-Service less retirement and removals; (D) (D)
e. Property taxes related to the QIP. (D)

QIP ELIGIBLE UTILITY PLANT: (D)

Distribution Infrastructure – distribution and transmission system structures and improvements, mains and valves installed as replacements for existing facilities; hydrants, distribution tanks; services, meters and meter installations, power generation and pumping equipment installed as replacements for existing facilities; (D) (D) (D)

unreimbursed funds related to capital projects to relocate facilities required by governmental infrastructure projects. (D)
Water Treatment Infrastructure – source of supply and water treatment structures, pipe and equipment including sampling equipment, SCADA equipment, power generation and pumping equipment installed as replacements for existing facilities. (D)

RATES (D)

All customers subject to this QIP Rider receiving water service shall be assessed a monthly QIP Rider charge in addition to the service charge, consumption charge or monthly fee component of their applicable rate schedule that will enable the Company to complete the Qualified Infrastructure Program. (D)

The QIP Rider will be updated annually in a filing that includes the (1) projected costs for each QIP period and (2) a balancing adjustment that trues up the projected program costs and revenues with the actuals for the preceding annual QIP period. The annual filing will be submitted at least 120 days prior to the commencement of the QIP period, which will commence on September 1 each year and run through August 31 of the subsequent year. (D)

The monthly QIP Rider charges for all respective water service classifications will be calculated as a percentage and applied to all water charges including meter fees, volumetric water sales, fire service fees, and public and private hydrant fees from the Company's most recent base rate case, but excluding any other surcharge or add-on taxes. The percentage is calculated by dividing the QIP revenue requirement by the water revenues authorized in the Company's most recent rate case and multiplying the resulting QIP period by the number of days the QIP percentage will be in effect, divided by 365 days (366 days in a leap year). It will be listed as a separate line item on the customer bill. The QIP percentage shall be calculated on an annual prospective basis. The QIP Rider charge effective on and after the effective date is: (D)

11.09% (D)

APPENDIX

Form of New Subdivision Extension Deposit Agreement for Off Site Facilities:

THIS AGREEMENT, entered into this _day of _____, _____by and between KENTUCKY AMERICAN WATER, a Kentucky corporation, having its office at 2300 Richmond Road, Lexington, Kentucky, hereinafter called "COMPANY", and _____, hereinafter called "SUBDIVIDER",

WITNESSETH:

THAT, WHEREAS, SUBDIVIDER is the present owner of a certain tract of land located within the service area of COMPANY, which tract is now being developed by SUBDIVIDER as a new subdivision or unit thereof (hereinafter called the subdivision), and

WHEREAS, the _____ Commission has heretofore approved a preliminary or final plat of said proposed subdivision, upon which plat the location and grade of streets, curbs, sidewalks, building plots, building lines and utility easements are depicted, a copy of which plat is annexed hereto and made a part hereof, marked Exhibit "B" for identification, and

WHEREAS, SUBDIVIDER desires the extension of the off site water mains and facilities of COMPANY on the site of said subdivision as hereinafter described,

NOW, THEREFORE, in consideration of the premises and the mutual covenants of the parties hereto as hereinafter set forth, it is hereby agreed by and between the parties hereto as follows, to-wit:

FIRST: COMPANY contracts and agrees to lay the water main(s) and other related facilities, if any, as shown in red on the plat attached hereto and made a part hereof, marked Exhibit "B" for identification, which main(s) and facilities, if any, are described and located as follows:

SECOND: It is expressly understood and agreed that if COMPANY shall be delayed or prevented from

installing the water main(s) and other related facilities, if any, hereinabove described because of its failure to secure pipe or other construction materials, or for any other causes beyond its control, such failure or delay in performance shall be excused; provided, however, if such failure or delay in performance shall extend for a period of more than ninety (90) days from date of deposit, SUBDIVIDER shall have the right to cancel and terminate this agreement on thirty (30) days' written notice to COMPANY, and thereafter both parties shall be relieved of all duties

and obligations arising hereunder. But this right to cancel and terminate by SUBDIVIDER shall not be invoked if COMPANY has received the construction material and SUBDIVIDER has made the deposit as hereinafter required, in which event COMPANY shall have the obligation to prosecute the work diligently to its completion.

THIRD: SUBDIVIDER hereby agrees to deposit with COMPANY, upon notice from COMPANY that it is prepared and able to go forward with the work provided in Paragraph FIRST hereof, the sum of _____, which sum is the presumed cost of installation of said off site main(s) and related facilities, if any, as determined under Section C(4) of Rule 10.3 of COMPANY'S Rules and Regulations. No adjustment in deposit will be made, either by way of adding to or reducing the deposit required hereunder, because of a variance between the presumed cost mentioned herein and the actual cost of installation of such main(s) and related facilities, if any.

FOURTH: SUBDIVIDER represents to and covenants with COMPANY that the number of residential and/or commercial building plots to be developed within the whole of said subdivision, as shown on the plat attached hereto as Exhibit "B", being a total of _____building plots, will not be decreased in the final plats of said subdivision as the same are hereafter recorded in the office of the Clerk of the Fayette County Court. Upon such representation and covenant, COMPANY hereby agrees to refund to SUBDIVIDER during the period of ten (10) years from the actual date of deposit, an amount equal to _____ of the total deposit made by SUBDIVIDER under the terms of Paragraph THIRD above, being the sum of _____, for each premises served within said subdivision (as said subdivision is depicted on the plat attached hereto and marked Exhibit "B" for identification) for which a street service connection shall be directly attached to the mains constructed on the site of such subdivision between their original beginning and original termini (not including, however, connections to further extensions or branches thereof, and being limited to one such service connection per building plot) and for which a bona fide residential or commercial customer has executed a service contract with COMPANY, provided, however, that the total amount returned shall not exceed the original deposit, without interest, and that all or any part of the deposit not refunded within said

ten (10) year period shall become the property of COMPANY.

FIFTH: SUBDIVIDER may request refunds under Paragraph FOURTH, once in each calendar quarter, furnishing COMPANY, at such time, a listing of premises claimed to be additional premises; however, failure on the part of SUBDIVIDER to make such request shall not constitute a waiver of any rights hereunder or relieve COMPANY of the obligation to make refunds with reasonable promptness.

SIXTH: SUBDIVIDER will furnish to COMPANY immediately upon recordation thereof in the office of the _____ County Court five (5) copies of the final plat of said subdivision or units thereof as approved by the _____ Commission.

SEVENTH: The ownership of the water main(s) laid hereunder shall at all times be in COMPANY, its successors and assigns.

EIGHTH: This Agreement shall be valid and binding on COMPANY only when executed by its President.

NINTH: This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the respective parties.

TENTH: Any notice given hereunder shall be deemed sufficient if in writing and sent by registered mail to COMPANY at 2300 Richmond Road, Lexington, Kentucky and to SUBDIVIDER at _____.

ELEVENTH: This Agreement is entered into pursuant to the legally established Rules and Regulations of COMPANY and the words, phrases and terms hereof are to be understood and interpreted in conformity with said Rules and Regulations, which are hereby incorporated herein by reference.

Executed by the parties hereto in duplicate this the day and year first above written.

building plot) and for which a bona fide residential or commercial customer has executed a service contract with COMPANY, provided, however, that the total amount returned shall not exceed the original deposit, without interest, and that all or any part of the deposit not refunded within said ten (10) year period shall become the property of COMPANY.

FIFTH: SUBDIVIDER may request refunds under Paragraph FOURTH, once in each calendar quarter, furnishing COMPANY, at such time, a listing of premises claimed to be additional premises; however, failure on the part of SUBDIVIDER to make such request shall not constitute a waiver of any rights hereunder or relieve COMPANY of the obligation to make refunds with reasonable promptness.

SIXTH: As a material consideration for COMPANY'S agreement to design and construct all or some portion of the main(s) and related facilities, if any, described on Exhibit "A" and in Paragraph FIRST hereof on the basis of a preliminary plat of said subdivision, without withholding or delaying such action until a final plat thereof has been approved by the Planning and Zoning Commission and recorded in the office of the Clerk of the Fayette County Court, SUBDIVIDER represents to COMPANY and covenants with COMPANY that the location and grade of streets, sidewalks, curbs, building plots, building lines and utility easements as depicted on the preliminary plat attached hereto as Exhibit "A" will not be altered or changed in any respect in the final plat of said subdivision, as finally approved by the Lexington-Fayette County Planning and Zoning Commission and as recorded in the office of the Clerk of the Fayette County Court. In the event the location or grade of streets, sidewalks, curbs, building plots, building lines or utility easements be altered, amended or changed in the final plat or in an amended plat of said subdivision as approved by said Commission or as recorded in the office of said Clerk, whether such changes are made with or without the consent of SUBDIVIDER, or in the event a final plat is not approved or recorded, and in event such alteration, amendment, change, failure of approval or of recording requires, in the sole judgment of COMPANY, the relocation, removal, replacement, reconstruction, change in size or addition to the main(s) and related facilities to be constructed by COMPANY pursuant to the Agreement, SUBDIVIDER will immediately, upon demand from COMPANY, pay to COMPANY the actual cost to COMPANY of making such relocations, removals, replacements, changes in sizes and additions to such main(s) and related facilities, if any, so required in the sole judgment of COMPANY, as a result of such changes in location or grade of streets, sidewalks, curbs, building plots, building lines or utility easements. No part of the sums payable to COMPANY by SUBDIVIDER under the terms and provisions of this Paragraph SIXTH shall be subject to refund to SUBDIVIDER. In event SUBDIVIDER fails to pay to COMPANY such sums as may be demanded by COMPANY under provisions of this Paragraph SIXTH within ten (10) days from such demand, COMPANY shall have the right, in addition to and not in limitation of all other remedies, which right shall be superior to the rights of any intervening assignee or creditor of SUBDIVIDER, to apply refunds coming due under Paragraph FOURTH of the Agreement to the reduction and extinguishment of the debt of SUBDIVIDER to COMPANY under terms of this Paragraph SIXTH.

SEVENTH: By execution of this Agreement, SUBDIVIDER grants unto COMPANY, its successors and assigns, the permanent right and privilege to lay and construct its main(s) and related facilities, if any, on, over and through the lands of SUBDIVIDER at the locations depicted on Exhibit "A" and described in Paragraph FIRST above, together with the right to enter upon the adjacent lands of SUBDIVIDER for the purpose of installing,

construction, repairing, renewing, replacing and inspecting such main(s) and related facilities, if any.

EIGHTH: SUBDIVIDER will furnish to COMPANY immediately upon recordation thereof in the office of the Clerk of _____ five (5) copies of the final plat of said subdivision as approved by the _____.

NINTH: The ownership of the water main(s) laid hereunder shall at all times be in COMPANY, its successors and assigns.

TENTH: This Agreement shall be valid and binding on COMPANY only when executed by its Director of Engineering.

ELEVENTH: This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the respective parties.

TWELFTH: Any notice given hereunder shall be deemed sufficient if in writing and sent by registered mail to COMPANY at 2300 Richmond Road, Lexington, Kentucky and to SUBDIVIDER at _____.

THIRTEENTH: This Agreement is entered into pursuant to the legally established Rules and Regulations of COMPANY and the words, phrases and terms hereof are to be understood and interpreted in conformity with said Rules and Regulations, which are hereby incorporated herein by reference.

APPLICATION FOR SPECIAL CONNECTION

Account No.	
Contract No.	
WBS Element No.	

This Application, made in duplicate this _____day of _, 20 _____ _____, by _____,
hereinafter called the "APPLICANT", to KENTUCKY AMERICAN WATER, a Kentucky corporation located at 2300 Richmond Road, Lexington, Kentucky, 40502, hereinafter called the 'WATER COMPANY."

The APPLICANT, upon the terms and conditions hereinafter set forth, hereby applies to the WATER COMPANY for a private service, consisting of the right to connect a service pipe to a _____ public water main on in Lexington and attach to said service pipe the following fixtures and openings:

One (1) _____-inch fire service to _____ supply ; one _____-inch service line, post indicator and valve with all related fittings to supply a sprinkler system of approximately _____ sprinkler heads, covering approximately _____ square feet of _____ space;

all of which fixtures and openings to be located within or upon the premise of the APPLICANT abutting the street on which the said main of the WATER COMPANY is located.

In consideration for which privilege the APPLICANT agrees to be bound by all the terms and conditions of this Application and pay the WATER COMPANY for private fire protection service at the schedule of rates in effect from time to time during the rendition of such service.

The further terms and conditions upon which this Application may be accepted by the WATER COMPANY are as follows:

FIRST: That this Application and the acceptance thereof by the WATER COMPANY may be subject to the prior approval of the fire department having jurisdiction of the premises to be served.

SECOND: That the entire service system on APPLICANT's premises shall be subject to the inspection, test and approval of the WATER COMPANY, and the WATER COMPANY by its representatives, shall have the right to enter the premises of the APPLICANT at any reasonable time for the purpose of making such reasonable inspections as it may deem necessary, and to insure compliance with the terms and conditions of this Application.

THIRD: That all pipes and appurtenances shall be constructed and maintained in good condition by and at the expense of the APPLICANT.

FOURTH: That a fire line meter or detector device, approved by both the WATER COMPANY and the fire underwriters, will be required on the service at a location approved by the WATER COMPANY. Such meter or device shall be installed and maintained by and at the cost and expense of the APPLICANT, but subject to the inspection and approval of the WATER COMPANY. The bypass meter only, used with the detector device, shall be furnished, installed and maintained by the WATER COMPANY at its cost and expense.

FIFTH: That a gate valve with the post indicator controlling the entire supply shall be placed at the curb or property line of the street in which the main is located or at such other point as may be approved by the WATER COMPANY, and shall be furnished, installed and maintained by and at the expense of the APPLICANT, and unless otherwise approved by the WATER COMPANY, said valve shall be installed in a valve pit or vault which shall also be furnished, installed and maintained by and at the expense of the APPLICANT.

PUBLIC SERVICE COMMISSION
Linda C. Bridwell
Executive Director
Linda C. Bridwell
EFFECTIVE
12/16/2025
PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

SIXTH: That all hydrants and other fixtures connected to any private fire protection service system shall be kept closed and sealed, and not opened or used except during times of fire or testing. Upon extinguishment of each fire or following each test, the APPLICANT shall immediately close such fixtures and notify the WATER COMPANY so that they may be sealed. Whenever a private fire protection service system is to be tested, the APPLICANT shall notify the WATER COMPANY at least two business days in advance of such proposed test, requesting approval of the method, day and hour on which it is to be made.

SEVENTH: That no antifreeze or any other substance not specifically approved by the Environmental Protection Agency as non-detrimental to the public water supply, shall be introduced into sprinkling systems or into any pipe, fixture, appurtenance or other portion of the APPLICANT's private fire protection service system.

EIGHTH: That the APPLICANT understands and agrees that the extent of the rights of the APPLICANT under this Application is to receive, at times of fire on said premises, such supply of water as shall then be available and no other or greater quantity. The APPLICANT further acknowledges and agrees the WATER COMPANY shall not be considered in any way or manner an insurer of property or persons, or to have undertaken to extinguish fire or to protect any persons or property against loss or damage by fire, or otherwise, and the WATER COMPANY shall be free and exempt from any and all claims for damages on account of any injury to property or persons by reason of fire, water, failure to supply water or pressure, or for any other cause whatsoever.

NINTH: That this Application does not contemplate uses of fixtures other than those shown on Exhibit A. Any waste of water or use of water through this connection for purposes other than testing or the extinguishment of fire, shall be deemed a violation of the terms and conditions of this Application and of the rules, regulations and conditions of service of the WATER COMPANY.

TENTH: That if private fire hydrants are included as part of this Application, they shall be painted any color other than that adopted by the WATER COMPANY for public fire hydrants.

ELEVENTH: That the APPLICANT shall furnish, attach and make a part hereof marked Exhibit A, three (3) complete sets of drawings showing the pipes, pumps, valves, hydrants, sprinkler systems, hose outlets and connections, standpipes, tanks and other openings and appurtenances contemplated in this Application. Such drawings, which shall be stamped "Approved" by the Insurance Services Office or other comparable agency approved by the WATER COMPANY, must also show all other water supply systems and pipelines and appurtenances which are proposed or which may exist on the premises to be served.

TWELFTH: That no pipe, fixture or appurtenance connected with the private fire protection service served by this Application shall be connected with any pipe, fixture or appurtenance supplied with water from any other source, unless specifically approved in writing by the WATER COMPANY.

THIRTEENTH: That the APPLICANT agrees to obtain in writing in advance the approval of the WATER COMPANY for any change, alteration, addition or deletion contemplated in the pipes, fixtures, openings and appurtenances and uses herein specified. Notwithstanding the approval of the WATER COMPANY, APPLICANT agrees that, except for those facilities which the WATER COMPANY had specifically agreed to provide and maintain, APPLICANT is and will be solely responsible for the design, adequacy, function and maintenance of its private fire protection service system referred to in this Application.

FOURTEENTH: That the WATER COMPANY has the right to discontinue or disconnect the service pipe herein applied for, and to terminate service under this Application, after due written notice to the APPLICANT, for failure to pay any bill when due, for failure to supply information to WATER COMPANY about the service system when so requested in writing, for leakage within APPLICANT's system, for violation of any of the terms and conditions of this Application, or for any violation of its rules, regulations and conditions of service; and the WATER COMPANY also has the right to shut off all or any part of its facilities by the WATER COMPANY(1) if a condition dangerous or hazardous to life, physical safety or property exists, (2) upon order by any court, the Public Service Commission or other duly authorized public authority, (3) if fraudulent or unauthorized use of water by APPLICANT is detected, or if the WATER COMPANY's regulating or measuring equipment has been tampered with by the APPLICANT.

FIFTEENTH: That upon acceptance of this Application by the WATER COMPANY and the completion of the installation of the service applied for, this Application shall be in full force and effect as a contract and shall continue as such until cancelled by written notice given thirty (30) days in advance by the APPLICANT to the WATER COMPANY, except as otherwise provided in numbered paragraph (14) above.

SIXTEENTH: The acceptance of this Application by the WATER COMPANY must be executed by its Director of Engineering before same

PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

becomes effective.

SEVENTEENTH: If ownership of the property served by the service applied for herein changes, notice thereof shall be given to the WATER COMPANY within thirty (30) days and the new owner shall be identified by name, address and proper person to contact.

EIGHTEENTH: That the APPLICANT or his agent is responsible for payment of the deposit for the estimated cost of construction to WATER COMPANY. To the extent there is any refund to be made at the end of the project after all costs are accrued, such refund will be paid to the APPLICANT by check made payable to the APPLICANT. To the extent that any amount is owed to WATER COMPANY at the end of the project after all costs are accrued, payment of such amounts is the responsibility of the APPLICANT. To the extent the APPLICANT owes any of the refunded amount to the contractors, APPLICANT agrees it is responsible for these amounts owed and that WATER COMPANY has no responsibility in that regard.

IN WITNESS WHEREOF, the APPLICANT has hereunto signed the day and year:

_____ _____
