RULES AND REGULATIONS

- d) Payment must be received, not postmarked, before the close of business on the twentieth day from the date of issue; otherwise, the delinquent bill will be assessed the late payment penalty approved and on-file with the Public Service Commission.
- e) The late payment penalty will be assessed on the delinquent amount of the bill, less taxes and any prior penalty amounts. Pursuant to 807 KAR 5:006 Section 9 (3)(h), a penalty may be assessed (T) only once on any bill for rendered services.
- f) Customers may make payment by credit or debit card in person at the District's office or by (N) telephone. If payment by credit or debit card is attempted and declined, the customer's obligation (N) to pay the bill amount on the due date remains unchanged. Credit card payments are subject to a (N) convenience fee assessed directly by the card processor (not the District) to the customer. Prior to (N) processing the transaction, the customer will be informed of the fee amount. (N)
- g) With the exception of existing connections, the existence of special contract, or unusual circumstances requiring approval of the utility, a single meter can serve no more than one residential or commercial unit on and after the effective date of this tariff.
- h) For existing connection, special contracts, or other utility approved situations, where two or more units are being served by one meter, the following rules will apply:
- 1) One bill per meter will be sent to the customer that signed the Water Service Contract.
 - 2) The bill will consist of a charge in the amount of the utility's minimum bill multiplied by the number of units the meter serves. The amount of water included with a minimum bill will be multiplied by the number of units and deducted from the total amount of consumption. The remaining consumption will be evenly distributed among each unit, added to each unit's minimum bill, with the charges calculated in accordance with the currently approved rate schedule.
 - 3) The customer that signed the Water Service Contract will be fully and solely responsible for the charges associated with the connection including payment for all water passing through the meter, regardless of which unit is responsible for the water consumption.
